twentieth century continental and pragmatist writings the book explores alternative voices as challenges to authority in feminist and multicultural writings in Greek mythology and African narratives in Greek drama and twentieth century literature

Novalis, Signs of Revolution William Arctander O'Brien, 1995 Novalis traces the meteoric career of one of the most striking and most strikingly misunderstood figures of German Romanticism Although Friedrich von Hardenberg better known by his pseudonym Novalis published scarcely eighty pages of writings in his lifetime his considerable fame and influence continued to spread long after his death in 1801 His posthumous reputation however was largely based on the myth manufactured by opportunistic editors as Wm Arctander O'Brien reveals in this book the first to extract Hardenberg from the distortions of history A member of the generation of the 1770s that included Hegel Hölderlin and Schelling Hardenberg was an avid follower of the French Revolution a semiotician avant la lettre and a prescient critic of religion Yet in 1802 only a year after his death the writer who had scandalized the Prussian court was marketed to a nation at war as a reactionary patriot a sweet versifier of Idealism and a morbid mystic Identifying the break between Hardenberg's own early Romanticism and the late Romanticism that falsified it Novalis shows us a writer fully engaged in revolutionary politics and examines his semiotic readings of philosophy and of the political scientific and religious institutions of the day Drawing on the full range of Novalis's writings including his poetry notebooks novels and journals O'Brien situates his semiotics between those of the eighteenth century and those of the twentieth and demonstrates the manner in which a concern for signs and language permeated all aspects of his thought The most extensive study of Hardenberg available in English Novalis makes this revolutionary theoretician visible for the first time Mining a crucial chapter in the history of semiotics and social theory it suggests fruitful sometimes problematic connections between semiotic historical deconstructive and philological practices as it presents a portrait of one of the most complex figures in literary history Indispensable for scholars of German Romanticism Novalis will also be of interest to students of comparative literature and European intellectual history
