Magic World Of Words:

Magic Words, Magic Worlds Matthew Oliver, 2022-06-07 While all fiction uses words to construct models of the world for readers nowhere is this more obvious than in fantasy fiction Epic fantasy novels create elaborate secondary worlds entirely out of language yet the writing style used to construct those worlds has rarely been studied in depth This book builds the foundations for a study of style in epic fantasy Close readings of selected novels by such writers as Steven Erikson Ursula Le Guin N K Jemisin and Brandon Sanderson offer insights into the significant implications of fantasy s use of syntax perspective paratexts frame narratives and more Re examining critical assumptions about the reading experience of epic fantasy this work explores the genre's reputation for flowery archaic language and its ability to create a sense of wonder Ultimately it argues that epic fantasy shapes the way people think examining how literary representation and style influence perception

Translating for Children Ritta Oittinen,2002-06 Translating for Children is not a book on translations of children s literature but a book on translating for children It concentrates on human action in translation and focuses on the translator the translation process and translating for children in particular Translators bring to the translation their cultural heritage their reading experience and in the case of children s books their image of childhood and their own child image In so doing they enter into a dialogic relationship that ultimately involves readers the author the illustrator the translator and the publisher What makes Translating for Children unique is the special attention it pays to issues like the illustrations of stories the performance like reading aloud of the books in translation and the problem of adaptation It demonstrates how translation

and its context takes precedence can take over efforts to discover and reproduce the original author's intentions Rather than the authority of the author the book concentrates on the intentions of the readers of a book in translation both the translator and the target language readers Wicked Words: A Futuristic Urban Fantasy M.J.
