Michael Swartz gives us rare glimpses of how ancient and medieval Jews who stood outside the mainstream of rabbinic leadership viewed Torah and ritual. Through close readings of the texts he uncovers unfamiliar dimensions of the classical Judaic idea of Torah and the rabbinic civilization that forged them. Swartz sets the stage for his analysis with a discussion of the place of memory and orality in ancient and medieval Judaism and how early educational and physiological theories were marshaled for the cultivation of memory. He then examines the unusual magical rituals for conjuring angels and ascending to heaven as well as the authors' attitudes to authority and tradition, showing them to have subverted essential rabbinic values even as they remained beholden to them. The result is a ground-breaking analysis of the social and conceptual background of rabbinic Judaism and ancient Mediterranean religions. Offering complete translations of the principal Seder Torah texts, *Scholastic Magic* will become essential reading for those interested in religions in the ancient and medieval world, ritual studies, and popular religion.
