

The background is a deep blue with a textured, painterly quality. A central rectangular frame, outlined in a slightly darker blue, is supported by two vertical black bars on its left and right sides. Two thick, vibrant red diagonal bands cross the frame, one from the bottom-left towards the center and another from the bottom-right towards the center. The overall composition is abstract and evocative.

Magical Realism Lois Parkinson Zamora, Wendy B. Faris, 1995 *On magical realism in literature* Magical Realism Lois Parkinson Zamora, Wendy B. Faris, 1997 Ordinary Enchantments Wendy B. Faris, 2004 *Ordinary Enchantments* investigates magical realism as the most important trend in contemporary international fiction defines its characteristics and narrative techniques and proposes a new theory to explain its significance In the most comprehensive critical treatment of this literary mode to date Wendy B Faris discusses a rich array of examples from magical realist novels around the world including the work not only of Latin American writers like Gabriel Garcia Marquez but also of authors like Salman Rushdie Gunter Grass Toni Morrison and Ben Okri Faris argues that by combining realistic representation with fantastic elements so that the marvelous seems to grow organically out of the ordinary magical realism destabilizes the dominant form of realism based on empirical definitions of reality gives it visionary power and thus constitutes what might be called a remystification of narrative in the West Noting the radical narrative heterogeneity of magical realism the author compares its cultural role to that of traditional shamanic performance which joins the worlds of daily life and that of the spirits Because of that capacity to bridge different worlds magical realism has served as an effective decolonizing agent providing the ground for marginal voices submerged traditions and emergent literatures to develop and create masterpieces At the same time this process is not limited to postcolonial situations but constitutes a global trend that replenishes realism from within In addition to describing what many consider to be the progressive cultural work of magical realism Faris also confronts the recent accusation that magical realism and its study as a global phenomenon can be seen as a form of commodification and an imposition of cultural homogeneity And finally drawing on the narrative innovations and cultural scenarios that magical realism enacts she extends those principles toward issues of gender and the possibility of a female element within magical realism

Magical Realism and the History of the Emotions in Latin America Jerónimo Arellano, 2015-05-21 *Iconoclastic in spirit* *Magical Realism and the History of the Emotions in Latin America* is the first study of affect and emotion in magical realist literature Against the grain of a vast body of
