Magisterial Imagination Six Masters Of The Human Sciences:

Magisterial Imagination Max Lerner, 1994 **Magisterial Imagination** Max Lerner, 2017-07-28 This work brings together Max Lerner's extended and enduring essays on Aristotle Niccolò Machiavelli Alexis de Tocqueville John Stuart Mill Thorstein Veblen and Oliver Wendell Holmes Jr Combining biography and interpretation Lerner insightfully examines a cluster of thinkers who helped shape his own influential work in political theory and civilizational analysis Viewed collectively these essays show Turner's method and mind at their best Like Lerner himself the masters were tough minded realists philosophers who saw human experience in all of its variety as central to study Less inclined to metaphysical speculation they wrestled with the real concerns and circumstances of their times but always within the larger context of ultimate meaning and consequence Lerner eloquently introduces each philosopher and his work but he also provides his own criticism and commentary Complicated subjects are clearly presented and cross disciplinary analysis enhances the reader's sense of the whole In his introduction Robert Schmuhl discusses why Lerner was attracted to these particular thinkers and how they refined his approach to the human sciences Schmuhl also traces the influence of these figures on Lerner's work **Magisterial Imagination** will be of importance to philosophers political theorists and sociologists **Thomas Jefferson** Max Lerner, 2017-07-12 Over the course of more than six decades as an author journalist and professor Max Lerner studied and assessed many presidents yet Thomas Jefferson received his most sustained attention To Lerner Jefferson came closest in the American context to Plato's philosopher king the ideal thinker and leader Because of his keen sense of Jefferson's virtues and his unique place in United States history Lerner began work on a book about Jefferson in 1957 rewriting it several times throughout his life always with the intention of introducing general readers to a thinker and public figure of enduring pertinence In this volume Lerner uses the facts of Jefferson's life and work as the springboard to insightful analysis and informed assessment In considering Jefferson Lerner combines biographical information historical background and analytical commentary The result is a biographical interpretive volume a primer about Jefferson that not only describes his accomplishments but discusses his problems and failures As political figures have declined in esteem in recent decades the media has probed deeper into previously private lives Historians biographers and others have revealed personal details about deceased prominent figures Two centuries after he helped create America Jefferson remains a figure of enduring fascination within academic circles and beyond Max Lerner helps explain and clarify not only this unending fascination but the timeless relevance of the nation's devoutly democratic yet singularly authentic philosopher king **Veblen's Century** Irving Horowitz, 2017-07-28 Thorstein Veblen has a place of honor reserved for truly important figures Economist iconoclast social critic and moral judge of the American way of life he has continued to attract the attention of students and scholars alike People from every spectrum of political thought and every branch of the social sciences have been drawn to his work sometimes in praise other times in criticism but always with a sense of measuring what Veblen said and often how he said it

Veblen was in the final analysis an anthropologist of America as an advanced culture as much a figure of the young twentieth century of America triumphant as Tocqueville was a figure of the young nineteenth century of America ascending We share with Veblen a sense of the observer peering at the complex foundation of behavior whether such behavior is defined in terms of attitudes toward work and leisure wealth and poverty and finally global war and peace An examination of the contributors to the Veblen literature in this masterful volume serves to make clear just how vital Veblen was and remains to our cultural landscape Whether the reader selects from or reads all of the statements by David Riesman Douglas Dowd Max Lerner E Digby Baltzell Wesley Clair Mitchell C Wright Mills Daniel Bell and the other outstanding participants in Veblen's Century the pulsating vitality of Veblen himself is well captured Indeed a little bit of Veblen is encapsulated in and by his commentators Veblen's Century originated as a project initiated in 1974 by Professor Horowitz to reissue the entire corpus of Veblen's writings in new editions with introductions written expressly with this larger purpose of bringing the master of economic theory to the attention of a new generation That the project took more than a quarter century to complete is indicative of the care with which each new essay is crafted In addition with Transaction being identified as the home of Veblen books on him were offered to
