Fifth-Century Gaul John Drinkwater, Hugh Elton, 2002-09-12 A unique collection of papers looking at how the Gallo-Romans reacted to barbarian invasion Episcopal Networks in Late Antiquity Carmen Angela Cvetković, Peter Gemeinhardt, 2019-02-19 Recent studies on the development of early Christianity emphasize the fragmentation of the late ancient world while paying less attention to a distinctive feature of the Christianity of this time which is its interconnectivity

Both local and trans regional networks of interaction contributed to the expansion of Christianity in this age of fragmentation. This volume investigates a specific aspect of this inter connectivity in the area of the Mediterranean by focusing on the formation and operation of episcopal networks. The rise of the bishop as a major figure of authority resulted in an increase in long distance communication among church elites coming from different geographical areas and belonging to distinct ecclesiastical and theological traditions. Locally the bishops in their roles as teachers, defenders of faith, patrons etc. were expected to interact with individuals of diverse social background who formed their congregations and with secular authorities. Consequently this volume explores the nature and quality of various types of episcopal relationships in Late Antiquity attempting to understand how they were established, cultivated and put to use across cultural, linguistic, social and geographical boundaries.

Late Antique Letter Collections Cristiana Sogno, Bradley K. Storin, Edward J. Watts, 2019-11-19. Bringing together an international team of historians, classicists and scholars of religion, this volume provides the first comprehensive overview of the extant Greek and Latin letter collections of late antiquity ca. 300-600 CE. Each chapter addresses a major collection of Greek or Latin literary letters, introducing the social and textual histories of each collection and examining its assembly, publication and transmission. Contributions also reveal how collections operated as discrete literary genres with their own conventions and self-presentational agendas. This book will fundamentally change how people both read these texts and use letters to reconstruct the social history of the fourth, fifth and sixth centuries.

Envoys and Political Communication in the Late Antique West, 411-533 Andrew Gillett, 2003-08-28. Warfare and dislocation are obvious features of the break up of the late Roman West, but this crucial period of change was characterized also by communication and diplomacy. The great events of the late antique West were determined by the quieter labours of countless envoys who travelled between emperors, kings, generals, high officials, bishops, provincial councils and cities. This book examines the role of envoys in the period from the establishment of the first barbarian kingdoms in the West to the eve of Justinian's wars of reconquest. It shows how ongoing practices of Roman imperial administration shaped new patterns of political interaction in the novel context of the earliest medieval states. Close analysis of sources with special interest in embassies offers insight into a variety of genres: chronicles, panegyrics, hagiographies, letters and epitaphs. This study makes a significant contribution to the developing field of ancient and medieval communications.

The Imperial Families of Ancient Rome Maxwell Craven, 2019-12-08. The Roman Empire was a spectacular polity of unprecedented scale which stretched from Scotland to Sudan and from Portugal to Persia. It survived for over 500 years in the west and 1,480 years in the east. Ruling it was a task of frightening complexity; few emperors made a good fist of it, yet thanks to dynastic connections, an efficient bureaucracy and a governing class eager to attain the kudos of holding the highest offices, it survived the mad, bad and incompetent emperors remarkably well. Although not always apparent, it was the interplay of emperors' kin and family connections which also made a major contribution to controlling the empire. This book aims to put on record the known

ancestry relations and descendants of all emperors including ephemeral ones and show connections from one dynasty to another as completely as possible accompanied by concise biographical notes about each ruler and known facts about family members which include Romans both famous and obscure It also attempts to distinguish between certainty and possibility and to eliminate obvious fiction The introduction provides a narrative lead in to the creation of the empire attempts to clarify the complexities of Roman genealogy and assess the sources Humanistica Lovaniensia Jozef Ijsewijn, 1997-02-15 Volume 46 **The Encyclopedia Americana**, 1927 *Classica Et Mediaevalia vol.51* Ole Thomsen, Tønnes Bekker-Nielsen, Jesper Carlsen, Karsten Friis-Jensen, Minna Skafte Jensen, 2000 *Classica et Mediaevalia* Volume 51 **Society and Culture in Late Antique Gaul** Ralph Mathisen, Danuta Shanzer, 2017-07-05 Late Roman Gaul is often seen either from a classical Roman perspective as an imperial province in decay and under constant threat from barbarian invasion or settlement or from the medieval one as the cradle of modern France and Germany Standard texts and moments have emerged and been canonized in the scholarship on the period be it Gaul aflame in 407 or the much disputed baptism of Clovis in 496 508 This volume avoids such stereotypes It brings together state of the art work in archaeology literary social and religious history philology philosophy epigraphy and numismatics not only to examine under used and new sources for the period but also critically to reexamine a few of the old standards This will provide a fresh view of various more unusual aspects of late Roman Gaul and also it is hoped serve as a model for ways of interpreting the late Roman sources for other areas times and contexts

Boethius' Consolation of Philosophy as a Product of Late Antiquity Antonio Donato, 2013-09-12 In the last fifty years the field of Late Antiquity has advanced significantly Today we have a picture of this period that is more precise and accurate than before However the study of one of the most significant texts of this age Boethius Consolation of Philosophy has not benefited enough from these advances in scholarship Antonio Donato aims to fill this gap by investigating how the study of the Consolation can profit from the knowledge of Boethius cultural political and social background that is available today The book focuses on three topics Boethius social political background his notion of philosophy and its sources and his understanding of the relation between Christianity and classical culture These topics deal with issues that are of crucial importance for the exegesis of the Consolation The study of Boethius social political background allows us to gain a better understanding of the identity of the character Boethius and to recognize his role in the Consolation Examination of the possible sources of Boethius notion of philosophy and of their influence on the Consolation offers valuable instruments to evaluate the role of the text s philosophical discussions and their relation to its literary features Finally the long standing problem of the lack of overt Christian elements in the Consolation can be enlightened by considering how Boethius relies on a peculiar understanding of philosophy s goal and its relation to Christianity that was common among some of his predecessors and contemporaries *Patrology* Otto Bardenhewer, 1908 Otto Bardenhewer s *Patrology* is certainly not the most recent work in the field But sound judgment is never obsolete Bardenhewer s concise pellucid analysis of the church

fathers is still valuable today over a century after it was published For generations his work has been treasured by experts and novices alike for its penetrating insight and easy accessibility Many fathers are given fuller treatment here than in any modern handbook And today every work cited in Bardenhewer's copious bibliographies has entered the public domain what a boon to researchers of the information age

Early Christian Hymns Daniel Joseph Donahoe, 1911

Theoderic and the Roman Imperial Restoration Jonathan J. Arnold, 2014-02-24 Theoderic and the Roman Imperial Restoration offers a new interpretation of the fall of Rome and the barbarian successor state known as Ostrogothic Italy Relying primarily on Italian textual and material evidence Jonathan J Arnold demonstrates that the subjects of the Ostrogothic kingdom viewed it as a revived Roman Empire and its king Theoderic as its emperor Most accounts of Roman history end with the fall of Rome in 476 or see the Ostrogothic kingdom as a barbarous imitator This book however challenges such views placing the Theoderican epoch firmly within the continuum of Roman history

Medieval Obscenities Nicola F. McDonald, Nicola McDonald, 2014 Medieval Obscenities examines the complex and contentious role of the obscene what is offensive indecent or morally repugnant in medieval culture from late antiquity through to the end of the middle ages in western Europe Its approach is multidisciplinary its methodologies divergent and it seeks to formulate questions and stimulate debate The essays examine topics as diverse as Norse defecation taboos the Anglo Saxon sexual idiom sheela na gigs impotence in the church courts bare ecclesiastical bottoms rude sounds and dirty words as well as the modern reception and representation of the medieval obscene The volume demonstrates not only the vitality of medieval obscenity but its centrality to our understanding of medieval life Jacket
