Mainstreaming Equality In The European Union:

Mainstreaming Equality in the European Union Teresa L. Rees, 1998 Focuses on attempts made at the European Union level to incorporate equal opportunities into training policies as a means to end gender segregation in the labour force In particular discusses the LEONARDO DA VINCI training programme Mainstreaming Equality in the European Union Teresa Rees, 2006-06-19 Mainstreaming Equality in the European Union provides a critical overview and evaluation of the potential role of the EU in perpetuating or breaking down gender segregation in the EU labour force Teresa Rees draws upon feminist theoretical frameworks in assessing Equal Opportunities policies and the role of training in the labour market The same economic imperatives which put women's training on the agenda have heightened interest in designing training which attracts women into mainstream provision Mainstreaming Equality in the European Union addresses the urgent need for academics education and training providers as well as policy makers to be aware of current thinking at EU level on training policy **The EU and the Proliferation of Integration Principles under the Lisbon Treaty** Francesca Ippolito, Maria Eugenia Bartoloni, Massimo Condinanzi, 2018-09-27 The entry into force of the Lisbon Treaty has brought about a proliferation of integration principles In addition to the environmental integration principle which has been part of the EU legal framework for some time the Lisbon Treaty introduced the principles of gender equality integration social policy integration non discrimination integration consumer protection integration as well as animal welfare integration Furthermore a general principle of integration policy objectives is contained in Article 7 TFEU requiring that the Union must ensure consistency between its policies and activities taking all relevant policy requirements listed under the TFEU into account in the adoption of any legislative measure These integration principles must be pursued or at least taken into account when decisions are being taken in almost any area of EU policy making However there is considerable uncertainty regarding the normative implications of the various integration principles as well as their legal value and practical relevance for EU policymaking This book addresses the implications of the proliferation of sectorial integration principles and the introduction of a universal requirement of policy consistency in terms of the division of competences between the Union and the Member States as well as the scope for judicial review of the EU legislative process In particular it explores whether the introduction of various integration principles has led to an extension of Union competences and whether it has limited the scope for judicial review by extending the discretionary power of the Union institutions Gender and the Economic Crisis in Europe Johanna Kantola, Emanuela Lombardo, 2017-02-22 This book is a unique exploration into the gendered politics of the economic crisis in Europe It focuses firstly on the changes in the political and economic decision making institutions and processes of the EU and their consequences for gender equality policy Secondly the book analyses the gendered impacts of austerity politics on member states gender equality policies institutions regimes and debates Finally it addresses feminist and intersectional struggles and resistances against neoliberal conservative and racist politics across Europe The authors

consider the gendered politics of the economic crisis from a variety of feminist approaches shedding new light on the concept of the crisis and on questions of politics institutions and intersectionality The case studies included refer to different parts of Europe from North to South and from East to West capturing the multifaceted gendered impacts of the crisis The volume will be of interest to students and scholars of politics international relations gender studies economics law sociology social policy and European studies Inequality and the European Union Chloé Brière,Amandine Crespy,2024-12-05 This book

Monitoring Fundamental Rights in the EU Philip Alston, Olivier De Schutter, 2005-02 Coherent laws enforced by a central authority are part of the reason why human rights protection works at the national level in Europe But when it comes to the EU these dimensions are lacking The present system for protecting fundamental rights emerged on an ad hoc basis with measures being improvised to respond to particular problems In the next couple of years however this situation is likely to change very significantly The proposed European Constitution incorporates the EU Charter of Fundamental Rights and a specialized EU Fundamental Rights Agency is likely to be established As a result the situation of the EU will more closely resemble that of its Member States Fundamental rights will occupy a central role and coherent and systematic arrangements will be in place to protect rights using both judicial and non judicial means The Fundamental Rights Agency in particular has immense potential to ensure effective monitoring of fundamental rights in the EU and to ensure a unified strategy for their promotion in EU law and policy This volume is the first to critically examine the proposals put forward by the European Commission in October 2004 on the creation of the EU Fundamental Rights Agency Leading scholars in the field of European and international human rights law analyse the potential significance of this innovative Agency and seek to locate it in relation to various other human rights mechanisms both in the EU s constitutional structure and within Member States They review the tasks which the Agency could be called upon to perform and make proposals as to how it can function most effectively The relationship of EU

law to the international law of human rights emerging from both the United Nations and the Council of Europe is examined. The authors also address the challenge of ensuring improved coherence between EU law and the other human rights obligations undertaken by the Member States. Taken together these contributions address urgent questions facing the EU at a time when the central unifying function of fundamental rights has been recognized but the way forward remains largely uncharted.

Gender and Social Justice in Wales Nickie Charles, Charlotte Aull Davies, 2018-01-15. This book assesses how policies developed by the National Assembly for Wales are affecting gender inequalities and investigates whether they are having an impact on social justice for women in Wales. In 1999 the first elections to devolved governments took place in Scotland and Wales. In Wales this resulted in 40 per cent of Assembly Members being women. In 2003 this proportion increased to 50 per cent which makes the National Assembly for Wales the first legislative body with equal numbers of men and women in the world. *The Guardian* 3.5.03. This new gender balance of political representatives is a significant change in the gendering of political institutions and this together with the creation of a new tier of government has the potential to create new opportunities for the development of social policies which address gender and other social inequalities. Focusing on distinct policy domains, this book explores gender politics in a devolved Wales. Each chapter investigates a particular aspect of social policy, exploring the way it has developed since

devolution and the extent to which considerations of gender and social justice for women are central to this development The empirical chapters which form the core of the book are situated theoretically and politically by the first chapter which discusses how gender and social justice can be theorised and explores devolution and its relation to gender politics in Wales
