Methuselah Solution:

The Methuselah Solution William O. Harris III, 2000-11-06 As the prison population grows exponentially in the U S today writer Bill Harris has captured the politics of the prison system and found a revolutionary answer in his futuristic novel *The Methuselah Solution* One of the story's two protagonists Dr Cynthia Turner is a rising star at the Institute where she supervises the administration of a new form of alternative sentencing an aging serum developed to replace multiple years of costly confinement with the injection of a drug that rapidly ages convicted felons to their prescribed sentence The serum is a favorite with politicians but the bane of powerful companies long profiting from the spiraling expansion of prison construction The serum is in its sixth year of use when the problems start A time when prisons have become a place where aged felons can readjust to life with weaker bones slower pulses and mottled minds Except for the antagonist Joshua Howard A career criminal Joshua is clever attractive self righteous and has been sentenced to be aged twenty years for embezzlement Dr Turner watches with a mixture of awe and horror as Joshua is over aged thirty years leaving his body far weaker than his spared mind Dr Turner and her boss Dr Kenneth Lambert attempt to deal with Joshua and another prisoner Patricia Bennett a former Olympic Gymnast who killed her husband while responding to the encouragement of her dead father The Institute is now faced with the epic task of confronting Patricia's Olympic strength and the determination of Joshua's contempt and rage What happens inside the underground prison throughout the story would remain as silent and deadly to the population of Texas as the Ebola virus was to Reston Virginia except for the disorganized attempts of the second protagonist Alexis Troutman Alex is a local reporter who has begun to oppose the use of the aging serum and attempts to enlist Dr Turner's help to rectify the prison's problems The Institute is racing to develop an antidote to counteract over aging reactions the only problem is that Joshua gets to the antidote first The apocalyptic conclusion explodes when Alex enters the Institute as Joshua and Patricia embark on a reign of terror and vengeance after securing the antidote Too Old to Die Bill Harris, William O.

Methuselah's Hidden Antediluvian Abridgement James Hendershot, 2014-10-14 Too much of humanity's history might have been lost through the great flood which mercifully rendered humankind another chance to dwell on the Earth This fictional account through Methuselah begins with the creation of the two Earths and follows Adam through his multiple wives torn by sons who murder each other His remaining sons divide into tribes separated by their relationship with the creator Nonetheless wickedness rose in Seth's tribe while righteousness comes forth from Cain's seed Eve rewards Irad after he avenges the murder of his mother who was a favored stepdaughter of Eve Eve rewards Irad with three of her cherished

daughters They launch a new homeland beyond the two established borders and through their faith in the God of Adam find favor with the Ancient One who reestablishes his covenant with a descendant of Habil Cain Lilith and several of her daughters bond with Duci one of Irads wives exploring the wild unsettled bulk of Pangaea lands beyond the invisible border which protects humanity from the hungry dinosaurs living in the open wilderness Duci with help from the Nephilim build the foundations for their two new cities and multiple temples Irads tribe sails on secret ships to the southern hemisphere and build a Holy nation serving the Ancient One Enoch settles his small family on a mountaintop protected by angels as humanity falls into the final stage of wickedness Irad and his wives end their long fruitful lives nevertheless they watch from heaven as the vast majority of their family chose to follow their own gods and disown the Ancient One Just three young men who must sail to a distant island with their wives remain servants of the Ancient One Noah builds a giant rectangle ship boarding his sons and many wild animals saving them through a large flood Avram sails through the flood with his small group while watching death consume the lands Methuselah's Daughter John Eddy,Dean Esmay,2006 Zsallia Marieko is a solitary immortal very much the pagan barbarian at heart but tempered by her centuries amongst a growing Christian influence in Western Europe Her tale is by turns pathetic endearing unnerving and horrifying as the reader witnesses her climb from nameless slave to terrifying goddess then her plunge into murderous insanity until she emerges humbled and remade all this in just her first 1500 years Concomitant with that tale is the modern narrative where Zsallia is forced to confront what it means to cease living outside society and join the world around her to take up the benefits and responsibilities of living openly and asking people to simply accept who and what she is **Steering Or Drifting-which?** Israel Herbert

Levinthal,1928 **Storytelling the Bible at the Creation Museum, Ark Encounter, and Museum of the Bible** Paul Thomas,2020-04-16 Paul Thomas chronicles a multi level reception study of the Bible at both the Creation Museum and the Ark Encounter in Kentucky USA Thomas explores the commercial presentation of biblical narratives and the reception of those narratives by the patrons of each attraction focusing upon three topics what do young Creationists believe how they interpret their beliefs from the Bible and what is the user experience at the museums The volume begins by explaining how Answers in Genesis AiG use Bible passages to support young Earth creationist arguments allowing for the chance to consider the Bible via physical means Thomas then examines how the Creation Museum and the Ark Encounter visitors receive the Bible as presented by AiG and how this presentation informs visitors understanding of the text exploring concepts such as the most prominent displays of the two attractions the larger context of museums and theme parks and the case studies of the Methuselah display and The Noah Interview He concludes with the summary of the user experience generated by the attractions analyzing the degree to which patrons accept negotiate or resist the interpretation of the Bible offered by AiG

From Adam to Noah-The Numbers Game Leonard Timmons,2012-01-05 The genealogy of Adam in Genesis Chapter 5 is a number puzzle that encodes a fully functional calendar From Adam to Noah The Numbers Game shows you precisely how

the Bible writers encoded a calendar into the ages of Adam and his children in Genesis 5 It then goes on to show how the Bible writers designed their calendar puzzle so that anyone who managed to solve it would be certain they had the correct solution Proof of a highly accurate calendar encoded within the numbers of Genesis 5 is a revolution in our understanding of Genesis It allows us to dramatically revise our understanding of the entire Bible To truly understand why a calendar puzzle exists within the Bible we have to explore the reasons why someone several thousand years ago would enshrine a calendar in such an ingenious puzzle That exploration leads to new and insightful interpretations of each of the stories in Genesis 1 to 11 The creation Adam and Eve Abel and Cain Noah s ark the story of Noah and his wife and Tower of Babel story Most of us have been taught that the Bible was written to be understood The existence of the calendar puzzle forces us to recognize that those who wrote the Bible hid things there that they did not want everyone to understand They hid a world view that they never state explicitly We will find that this philosophy inspired them to create the calendar puzzle and that the way they viewed the world is more important and more fascinating than the calendar itself In this book you will experience what it is like to discover something very new hidden within something very old You ll discover that this new thing was ancient knowledge when the Bible was written Remember the story of the pearl of great price A merchant upon finding a pearl of great value sold everything he had and bought it The calendar in Genesis is such a pearl If you re looking don t miss this chance to own one

Early Medieval Exegesis in the Latin West Thomas O'Loughlin, 2023-04-14 One of the significant developments in scholarship in the latter half of the twentieth century was the awareness among historians of ideas historians of theology and medievalists of the importance of the Christian scriptures in the Latin Middle Ages In contrast to an earlier generation of scholars who considered the medieval period as a Bible free zone recent investigations have shown the central role of scripture in literature art law liturgy and formal religious education Indeed to understand the Latin Middle Ages one must understand the value they placed upon the Bible how they related to it and how they studied it However despite the new emphasis on the Bible s role and the place of exegesis in medieval thought our detailed understanding is all too meagre and generalisations often imagined as valid for a period of close to a millennium abound How the Scriptures were used in one pursuit formal theology for example relied heavily on allegory was often very different to the way they were used in another e g in history writing was interested in literal meanings and exegesis differed over time and with cultures Similarly while most medieval writers were agreed that there were several senses within the text the number and nature varied greatly as did the strategies for accessing those meanings This collection of fifteen articles concentrating on the early Latin middle ages

explores this variety and highlights just how patchy has been our understanding of medieval exegesis We now may be aware of the importance of the Bible but the task of studying that phenomenon is in its infancy **Zoonauts** Richard Mueller,2015-10-14 Who are the Zoonauts David Simons created the Zoonauts who are based on some famous zoo animals and other animals that went into space with the international space programs These Zoonauts have extraordinary talents and powers Their travels take them to different continents and cultures Readers will be entertained and educated by the exciting adventures of the Zoonauts which include NASA's Chimpanzee Ham the Australian Koala Cough Drop of the San Diego Zoo Patty Cake the Gorilla of the Central Park and Bronx Zoos the famous Pandas Hsing Hsing and Ling Ling of the National Zoo and the Russian space dog Laika Fishwick and Kornblend are Amadorian dragon like scout pilots on an assigned mission in search of Zoonauts who they hope to capture and bring back to Amador The Amadorians provide comic relief in this high flying science fiction adventure where good triumphs over evil The story of the Zoonauts is a great addition to Science Technology Engineering Math STEM programs that stimulates creativity New Kinds of Superheroes Zoonauts is a creative teaching tool for middle school a Sci Fi adventure novel first in a planned series fun intelligent worldbuilding Kirkus Review

The Age of Promiscuity Doru Pop,2018-11-15 This book presents an original and engaging look at contemporary popular culture opening with the provocative idea that this is a day and age of complete exhaustion of ideas images stories and myths Questioning the effects of content recycling in cinema and other media the author further elaborates on the repurposing of cultural junk the reassembling of narratives and myths The thought provoking hypothesis proposed in this research is that we have entered an age of cultural promiscuity By analyzing the mutations of myth making practices and connecting them with larger cultural manifestations the author explains these transformations as integral to the development of a myth illogical imagination Cinematic and mythological representations in mainstream Hollywood films have reached a point of amalgamation with no return which marks the beginning of a fourth age of representations where signs and meanings are manifested in illogical permutations This is more explicit in films that commingle aliens cowboys undead American presidents and zombie nazis joining together in the same narrative ghosts werewolves and vampires aggregating disjointed storylines and historical fake facts all coalesced in an orgy of empty burlesque and infantile masquerades This interdisciplinary research combines cultural studies film criticism art and myth interpretations bringing into the debate multiple concepts from related fields such as critical theory and media criticism The book also opens up to innovative approaches from a wide array of academic disciplines offering researchers students and those fascinated by the transformations happening in contemporary cinema an interpretative tool based on a revised dialectic approach The conclusion is that we are now victims of a zombie semiotics Meaning making in contemporary culture politics and aesthetics is dominated by a process of incessant desecration of significations specific to the total mishmash of representations analyzed here **Philosophical Letters of David K. Lewis** David K. Lewis,2020-10-29 David Kellogg Lewis 1941 2001 was

one of the most influential philosophers of the twentieth century He made significant contributions to almost every area of analytic philosophy including metaphysics philosophy of language philosophy of mind and philosophy of science and set the agenda for various debates in these areas which carry on to this day In several respects he remains a contemporary figure yet enough time has now passed for historians of philosophy to begin to study his place in twentieth century thought His philosophy was constructed and refined not just through his published writing but also crucially through his life long correspondence with fellow philosophers including leading figures such as D M Armstrong Saul Kripke W V Quine J J C Smart and Peter van Inwagen His letters formed the undercurrent of his published work and became the medium through which he proposed many of his well known theories and discussed a range of philosophical topics in depth A selection of his vast correspondence over a 40 year period is presented here across two volumes As metaphysics is arguably where Lewis made his greatest contribution this forms the focus of Volume 1 Arranged under the broad areas of Causation Modality and Ontology the letters offer an organic story of the origins development breadth and depth of his metaphysics in its historical context as well as a glimpse into the influence of his many interlocutors This volume will be an indispensable resource for contemporary metaphysics and for those interested in the Lewisian perspective
