Multicultural Education in Glocal Perspectives Yun-Kyung Cha,Jagdish Gundara,Seung-Hwan Ham,Moosung Lee,2016-11-15 This conceptually rich and empirically grounded book draws upon expertise from a panel of emerging and established international scholars to explore the institutionalization and effect of multicultural education on a global scale Previous studies of multicultural education have largely ignored the significance of

understanding the combination of multiple sociopolitical influences on multicultural education in both policy and practice Filling this void this book sheds light on the two main reasons for taking a glocal perspective on multicultural education First children should be provided with meaningful learning opportunities to acquire the knowledge skills and attitudes necessary to live in a culturally and ethno linguistically diverse society where the distinction between the local and the global is becoming blurred Second understanding both the global grammar and the local semantics of multicultural education helps researchers and policy makers grasp the whole picture of multicultural education as an evolving social construct and phenomenon This new book provokes a new round of discussion and research to expand and enrich our inquiry into cultural diversity and educational inclusion

The Leamington Italian Community Walter Temelini, 2019-07-18 The Leamington Italian Community intertwines personal and family stories with both empirical and intuitive writing to offer new historical insights into the complex social economic and psychological causes and effects of the migration phenomenon Walter Temelini meticulously reconstructs the history of immigration and settlement in Leamington Ontario of Italians from the southern regions of Lazio Molise and Sicily He explains how despite their regional differences three generations between 1925 and the 1990s forged a cohesive socially conscious and unique agricultural community by balancing their inherited values and their newly adopted Canadian economic opportunities Temelini s groundbreaking research draws on testimonial and documentary evidence gathered from in depth interviews with hundreds of residents as well as on original archival information and Italian language histories translated by the author and previously unavailable to English speaking readers He concludes his study with an investigation into the award winning novel Lives of the Saints by Nino Ricci one of the community s most celebrated descendants Drawing parallels between Ricci s narrative and the development of the community Temelini demonstrates that ethnicity can be transformed successfully into a powerful universal archetype and a creative force of identity A pioneering and authoritative work The Leamington Italian Community creates an intimate portrait within a global framework delving into issues both timely and timeless that will interest and inform the general and specialized reader alike

Precarious International Multicultural Education: Hegemony, Dissent and Rising Alternatives Handel Kashope Wright, Michael Singh, Richard Race, 2012-09-22 Multiculturalism and multicultural education are at a paradoxical moment There is work that continues as if the multicultural hegemony was still intact and on the other hand work articulated as if multiculturalism was decidedly passe The essays in

this collection will be of considerable interest to academics policy makers and students of both multiculturalism and multicultural education principally because they touch on both perspectives but concentrate for the most part on the thorny problematic of the workings of multicultural education in its present precarious moment Given the renewed urgent attacks in various western countries the cottage industry of death of multiculturalism texts and the rise of the interculturalism transnationalism diaspora alternatives is multiculturalism dying Are the ends of multiculturalism the management or celebration of diversity representation and recognition for all in society creation of just and equitable communities at the global national and local school classroom levels better theorized and realized through the ascendant alternatives Representing the precarious moment in Canada Ireland Australia the United States and the United Kingdom the essays in this collection address these questions and both depict and trouble hegemonic multicultural education and contrast it with its supposed successor regimes
