Sounding the Break Jason Frydman, 2014-04-03 The idea of world literature has served as a crucial though underappreciated interlocutor for African diasporic writers informing their involvement in processes of circulation translation and revision that have been identified as the hallmarks of the contemporary era of world literature Yet in spite of their participation in world systems before and after European hegemony Africa and the African diaspora have been excluded from the networks and archives of world literature In *Sounding the Break* Jason Frydman attempts to redress this exclusion by drawing on historiography ethnography and archival sources to show how writers such as W E B Du Bois Zora Neale Hurston Alejo Carpentier Derek Walcott Maryse Condé and Toni Morrison have complicated both Eurocentric and Afrocentric categories of literary and cultural production Through their engagement with and revision of the European world literature discourse he contends these writers conjure a deep history of literary traffic whose expressions are always already cosmopolitan embedded in the long histories of cultural and economic exchange between Africa Asia and Europe It is precisely the New World American location of these writers Frydman concludes that makes possible this revisionary perspective on the idea of Old World literature

Matter, Magic, and Spirit David Murray, 2013-04-23 The spiritual and religious beliefs and practices of Native Americans and African Americans have long been sources of fascination and curiosity owing to their marked difference from the religious traditions of white writers and researchers *Matter Magic and Spirit* explores the ways religious and magical beliefs of Native Americans and African Americans have been represented in a range of discourses including anthropology comparative religion and literature Though these beliefs were widely dismissed as primitive superstition and inferior to higher religions like Christianity distinctions were still made between the supposed spiritual capacities of the different groups David Murray s analysis is unique in bringing together Indian and African beliefs and their representations First tracing the development of European ideas about both African fetishism and Native American primitive belief he goes on to explore the ways in which the hierarchies of race created by white Europeans coincided with hierarchies

of religion as expressed in the developing study of comparative religion and folklore through the nineteenth century Crucially this comparative approach to practices that were dismissed as conjure or black magic or Indian medicine points as well to the importance of their cultural and political roles in their own communities at times of destructive change Murray also explores the ways in which Indian and African writers later reformulated the models developed by white observers as demonstrated through the work of Charles Chesnutt and Simon Pokagon and then in the later conjunctions of modernism and ethnography in the 1920s and 1930s through the work of Zora Neale Hurston Zitkala Sa and others Later sections demonstrate how contemporary writers including Ishmael Reed and Leslie Silko deal with the revaluation of traditional beliefs as spiritual resources against a background of New Age spirituality and postmodern conceptions of racial and ethnic identity *World Literature and Postcolonial Studies* ,2023-04-17

What is the role of literature in our global landscape today How do local authors respond to the growing worldwide power of English and the persisting effects of the colonial systems that paved the way for globalization today These questions have often been approached very differently by postcolonialists and by students of world literature but over the past two decades a developing dialogue between these divergent approaches has produced robust scholarship and sometimes fractious debate as issues of language politics and cultural difference have come to the fore Drawing on a wide variety of cases from medieval Wales to contemporary Syria and Australia and on works written in Arabic Basque English Hindi and more this collection explores the mutual illumination that can be gained through the interaction of postcolonial and world literary perspectives **Oberlin, Hotbed of Abolitionism** J. Stolen Richard Bell,2020-12-01 This superbly researched and engaging The Wall Street Journal true story about five boys who were kidnapped in the North and smuggled into slavery in the Deep South and their daring attempt to escape and bring their captors to justice belongs alongside the work of Harriet Beecher Stowe Edward P Jones and Toni Morrison Jane Kamensky professor of American history at Harvard University Philadelphia 1825 five young free black boys fall into the clutches of the most fearsome gang of kidnappers and slavers in the United States Lured onto a small ship with the promise of food and pay they are instead met with blindfolds ropes and knives Over four long months their kidnappers drive them overland into the Cotton Kingdom to be sold as slaves Determined to resist the boys form a tight brotherhood as they struggle to free themselves and find their way home Their ordeal an odyssey that takes them from the Philadelphia waterfront to the marshes of Mississippi and then onward still shines a glaring spotlight on the Reverse Underground Railroad a black market network of human traffickers and slave traders who stole away thousands of legally free African Americans from their families in order to fuel slavery s rapid expansion in the decades before the Civil War Rigorously researched heartfelt and dramatically concise Bell s investigation illuminates the role slavery played in the systemic inequalities that still confront Black Americans Booklist **Slavery on Trial** Jeannine Marie DeLombard,2009-06-01

America's legal consciousness was high during the era that saw the imprisonment of abolitionist editor William Lloyd Garrison, the execution of slave revolutionary Nat Turner, and the hangings of John Brown and his Harpers Ferry co-conspirators. Jeannine Marie DeLombard examines how debates over slavery in the three decades before the Civil War employed legal language to try the case for slavery in the court of public opinion via popular print media. Discussing autobiographies by Frederick Douglass, a scandal narrative about Sojourner Truth, an abolitionist speech by Henry David Thoreau, sentimental fiction by Harriet Beecher Stowe, and a proslavery novel by William MacCreary Burwell, DeLombard argues that American literature of the era cannot be fully understood without an appreciation for the slavery debate in the courts and in print. Combining legal, literary, and book history approaches, *Slavery on Trial* provides a refreshing alternative to the official perspectives offered by the nation's founding documents, legal treatises, statutes, and judicial decisions. DeLombard invites us to view the intersection of slavery and law as so many antebellum Americans did through the lens of popular print culture.

The Great White Way Warren Hoffman, 2020-02-14

Broadway musicals are one of America's most beloved art forms and play to millions of people each year. But what do these shows, which are often thought to be just frothy entertainment, really have to say about our country and who we are as a nation? Now in a new second edition, *The Great White Way* is the first book to reveal the racial politics, content, and subtexts that have haunted musicals for almost one hundred years, from *Show Boat* (1927) to *Hamilton* (2015). This revised edition includes a new introduction and conclusion, updated chapters, as well as a brand new chapter that looks at the blockbuster musicals *The Book of Mormon* and *Hamilton*. Musical mirror their time periods and reflect the political and social issues of their day. Warren Hoffman investigates the thematic content of the Broadway musical and considers how musicals work on a structural level, allowing them to simultaneously present and hide their racial agendas in plain view of their audiences. While the musical is informed by the cultural contributions of African Americans and Jewish immigrants, Hoffman argues that ultimately the history of the American musical is the history of white identity in the United States. Presented chronologically, *The Great White Way* shows how perceptions of race altered over time and how musicals dealt with those changes. Hoffman focuses first on shows leading up to and comprising the Golden Age of Broadway (1927-1960s), then turns his attention to the revivals and nostalgic vehicles that defined the final quarter of the twentieth century. He offers entirely new and surprising takes on shows from the American musical canon: *Show Boat* (1927), *Oklahoma!* (1943), *Annie Get Your Gun* (1946), *The Music Man* (1957), *West Side Story* (1957), *A Chorus Line* (1975), and *42nd Street* (1980), among others. In addition to a new chapter on *Hamilton* and *The Book of Mormon*, this revised edition brings *The Great White Way* fully into the twenty-first century with an examination of jukebox musicals and the role of off-Broadway and regional theaters in the development of the American musical. New archival research on the creators who produced and wrote these shows, including Leonard Bernstein, Jerome Robbins, Stephen Sondheim, and Edward Kleban, will have theater fans and scholars rethinking forever how they view this popular American entertainment.
