Munda Trail Eric Hammel, 2020-12-28 MUNDA TRAIL The New Georgia Campaign June August 1943 ERIC HAMMEL The Solomon island archipelago stretches in a roughly east west direction from New Guinea to San Cristobal For the Imperial Japanese forces in 1942 it was a natural highway into the South Pacific When checked at Guadalcanal these forces realized they had moved east too quickly and that their defeat was caused in part by inadequate air bases between the front and their head quarters at Rabaul more than six hundred miles away As the last Japanese battalions were wrecking themselves against the Marine defensive perimeter on Guadalcanal the decision was made to build the Munda airfield on New Georgia right in the middle of the Solomons chain The Americans also recognized the Solomons as a highway but in the other direction toward Rabaul the Philippines and ultimately Japan The two great

Pacific powers clashed in the middle of this strategic island corridor in June 1943 when an untried U S Army infantry division assaulted New Georgia and began to move up the Munda Trail to take the airfield. This forgotten battle was in truth one of America's first sustained offensive actions in the Pacific and as such it taught green American troops and equally green commanders the realities of jungle warfare. Munda Trail is the dramatic harrowing story of green American soldiers encountering for the first time impenetrable swamps, solid rain forests, invisible coconut log pillboxes, tenacious snipers tied into trees, torrential tropical rains, counterattack by enemy aircraft and naval guns, and the logistical nightmare of living and moving in endless mud. A carefully planned offensive quickly degenerates into isolated small unit actions as the terrain breaks unit cohesion and leads inexperienced soldiers into deadly ambushes. As physical and psychological strains mount, Army doctors begin to define a new disease nearing epidemic proportions: combat fatigue. Men without injuries simply become useless for further fighting; the advance bogs down. Yet over time the scared American soldiers find their inner resolve and climb out of the psychological abyss, emerge steady and true combat veterans at last, and victors. The New Georgia Campaign was in Hammel's words a graphic study of the universal military truths attending the feeding of innocents to the ravenous dogs of war. Yet when it was over, there was no question in anyone's mind that the tide had turned; that the forces moving through the Solomons would be American and that they would move toward Japan.

South Pacific Destroyer Estate of R. S. Crenshaw, 2009-09-01. Today only a select few know firsthand what it is like to feel their ship shudder from the blast of their own guns, watch enemy guns flash back, and see friendly ships erupt in flames. Russell Crenshaw is one of those few. His riveting account of the savage night battle for the Solomon Islands in early 1943 offers readers a unique insider's perspective from the decks of one of the destroyers that bore the brunt of the struggle. Russell Crenshaw was a gunnery officer on the USS Maury. His vivid, balanced, and detailed narrative includes the Battle of Tassafarunga in November 1942 and Vella Gulf in August 1943, actions that earned his warship a Presidential Unit Citation and sixteen battle stars. Crenshaw also discusses the impact of radar and voice radio, the shortcomings of U.S. torpedoes and gunfire, and the devastating effectiveness of Japan's super torpedo.
