Monsters of the Ivy League Ellis Weiner, Steve Radlauer, 2017-04-11 Everybody knows that the schools of the Ivy League universally touted as the pinnacle of American higher education have graduated countless political leaders corporate titans and global power brokers But did you know these schools have also produced murderers warmongers traitors plagiarists slave traders pederasts and every other variety of moral reprobate Whether you're a high school student grinding away in the hope of gaining admission to one of these institutions a parent propelling a child toward Ivy glory a current Ivy League undergraduate wondering What the hell is this place or even an Ivy League alum professor administrator or dropout this book was written specifically for you As a warning Because there are certain things monstrous things that go unmentioned in the catalog campus tour or employment package And if your Ivy League application was rejected here's compelling and consoling evidence of how lucky you are

Serial Killers and Sadistic Murderers Jack Levin, 2009-09-18 After twenty five years of investigating analyzing and interviewing serial killers their family members neighbors and even surviving victims Jack Levin has become one of the world's most respected experts on the motivations and modus operandi of dangerous criminals In this gripping book he taps his wealth of experience with the criminal mind to offer lessons for law enforcement and the general public about how serial killers think as well as the conditions under which hideous murders typically occur These lessons he hopes will lead to more effective ways to thwart such crimes in the future Levin's face to face meetings and correspondence with such notorious murderers as the Hillside strangler Kenneth Bianchi and Orville Lynn Majors the male nurse who was convicted of killing numerous patients in his charge reveal that these types of killers are not motivated by money revenge or rage In fact the only

motivation seems to be a sadistic craving for power and a need to feel in control Levin also for the first time lets down his guard and reveals what it feels like to be seated so close to such cold blooded killers Many killers as Levin points out are meticulous planners Levin has found that even in situations that appear spontaneous for instance a workplace shooting by a disgruntled employee the deed is carefully thought out and prepared for in advance Another factor that consistently emerges in conversations with killers who have committed the most heinous of acts is the total absence of remorse or any notion of moral responsibility Murder appears to be easy for these criminals and they kill with a feeling of complete impunity Levin also notes the skillfully deceptive facades that such murderers are able to affect They are extremely adept liars he admits to having been fooled who enjoy playing mind games even though outwardly they seem above suspicion This is one reason they are so dangerous and difficult for investigators to track down and prosecute This chilling glimpse into the minds of some of the worst criminals makes a valuable contribution to criminology and is a must read for both true crime buffs and law enforcement professionals

Harvard Scoundrels Christopher Cadbury, 2024-10-02 Of course Harvard is one of the most prestigious educational institutions in the world Its imposing faculty has won far more Nobel Prizes than any other university now approaching 170 However a small minority of the people associated with Harvard have taken a wrong turn in life A few of them have become felons major pranksters research fabricators or powerful advocates of obnoxious ideas This groundbreaking book takes a look at them Many of the people described in it are like their more upright counterparts they truly excel in their endeavors A Harvard College dropout murdered the most renowned architect of his time on top of one of his most famous buildings in front of three hundred people Another college dropout sold a deadly energy drink throughout America A further college dropout planned the largest armed robbery up to that time A special two year Harvard student planned the attack on Pearl Harbor which led to America s participation in World War II One graduate of the college had the perhaps unique distinction of breaking both the Clayton and the Sherman antitrust acts A second graduate of the college embezzled from the New York Stock Exchange while he was its president a third terrorized the nation for nearly twenty years with his sixteen sometimes deadly mail bomb attacks a fourth appeared to give the Soviets the greatest detailed information about the atomic bomb followed by descriptions of the hydrogen bomb a fifth inadvertently invented the first computer worm and a sixth provoked a national crisis in the Catholic Church Two men from the college led separate campaigns to overthrow the Puerto Rican government In one four US congressmen were shot You will see that disproportionate numbers of the college scoundrels majored in economics or played football A law school dropout fixed basketball games A second made the largest net gain ever recorded from inside information about one stock A graduate of the law school tear gassed the New York Stock Exchange and another created false paperwork for seven thousand immigrants A pedophile who graduated from the medical school brought fifty six children to the United States A business school dropout seems to be the richest man in the world ever to go to prison twice A graduate of the business school triggered the largest American bankruptcy at the time

another created the greatest bank fraud A PhD graduate initiated ransomware A medical school resident committed perhaps America's most gruesome murder of a single person One of the graduates of the Kennedy School of Government oversaw genocide in his own country A Radcliffe graduate and her family took bribes totaling 1.5 billion or more
