Murder In Memoriam:

Murder in Memoriam Didier Daeninckx, 2012 On the evening of October 17 1961 twenty thousand Algerians marched in Paris in defiance of and in protest against a curfew imposed by Maurice Papon chief of the Paris Metropolitan Police The protesters were met with ferocious and uninhibited violence Eleven thousand were arrested more than one thousand injured as many as three hundred were killed many of them thrown into the Seine from which their bodies were later recovered In recreating the scene of the atrocities in *Murder in Memoriam* his controversial alarum first published in 1984 Didier Daeninckx introduces a fictional observer of the riot Roger Thiraud a middle aged history teacher in a public school only steps from his home and his waiting pregnant wife In the first few minutes of the demonstration he will be assassinated in cold blood by a member of the anti terrorist secret police For nearly forty years after October 1961 France would deny the killings Upon the independence of Algeria in 1962 an amnesty put its perpetrators safely beyond prosecution The records were buried In 1981 Bernard Thiraud Roger's son is researching the archives in Toulouse intent on completing his father's history of his birthplace Drancy now notorious as the site of a detention and transit camp from which Jews were deported to Auschwitz One afternoon after leaving the town hall he too is murdered the victim of what appears to investigating officers to be a professional killing When inspector Cadin of the Toulouse prefecture learns of the unsolved murder of the young man's father he suspects a connection But why would anybody want to kill two bourgeois politically unconnected history teachers Didier Daeninckx has located the link between the two murders in the history that France had yet to confront in its colonial racism and its complicity in genocide Daeninckx made this connection in fiction deliberately provoking its acknowledgment in fact *Murder in Memoriam* anticipated by more than a decade the shocking revelations provided by the exposure trial and conviction of Maurice Papon the Parisian chief of police in 1961 and the never named villain whose real crimes unrevealed at the time of its first publication haunt this account for crimes against humanity for his part in the administration of the deportation of the Jews from Bordeaux to Auschwitz

Smith,Sandra Barkhof,2018-05-11 This edited collection explores and develops

representations of war experience from 1914 to the ongoing conflicts of the 21st century through the specific lens of memory. It builds on recent explorations of the importance of war experience in shaping cultural memory that have focused on the aftermath of the First World War and the Second World War particularly through Holocaust studies. These essays by a range of international and interdisciplinary scholars broaden the scope considerably examining the alternate spaces of the First World War and those that followed it through a range of different media offering an artistic trajectory to the centennial commemorations of 2014. 18

Crime Scenes Anne Mullen, Emer O'Beirne, 2000. The essays in this collection are based on papers given at a conference on detective fiction in European culture held at the University of Exeter in September 1997. The range of topics covered is designed to show not only the presence and variety of narratives of detection across different European countries and their different media although there is a predictable emphasis on the novel. It also illustrates the fertility of the genre its openness to a spectrum of readings with different emphases formal as well as thematic. Approaches to detective fiction have often tended to confine them selves to symptomatic interpretation where details of the fictional world represented are used to diagnose a specific set of social preoccupations and priorities operative at the time of writing. Such approaches can yield valuable insights. Nonetheless there is a risk of limiting the value of the genre as a whole solely to its role as a mirror held up to society. In this perspective issues of structure and style are sidelined or if addressed are praised to the extent that they approach invisibility. Concision sparseness realism are the qualities singled out for praise. The genre also gives much scope for formal innovation and indeed has often attracted already established mainstream writers and filmmakers for just this reason. The eclectic diversity of the detective narratives considered in this volume reveal the malleability of the traditional constraints of the genre. The essays bear rich testimony to the value of considering the interplay of thematic and structural issues even in the most apparently unselfconscious and popular or populist forms of narrative. The patterns of reassurance the triumph of intellect and the ordered rational world of old are now challenged by the need to foreground the problems ambiguities and uncertainties of the self and of society. The plurality of meanings and the antithetical imperatives explored in these detective narratives confirm that the most recent forms of the genre are not mere palimpsests of their golden age precursors. The subversion of traditional expectations and the implementation of diverse stylistic devices take the genre beyond mere homage and pastiche. The role of the reader spectator and critic in conferring meaning is a crucial one.
