Number Seventeen:

The Numbers Robert Robinson, 2006-02-01 This book gives a prophetic look and explanation of numbers throughout the Bible [Minnesota Geographic Names Information System](#) ,1988 **The Gossiping Numbers** Raad Chalabi Chalabi, 2014-10-10 Ramiz Alkhishin the author's alter ego is a grocer He has a passion for a life that is as independent as possible from its surroundings To him the trendy place to be in is the one to avoid while the traditional road to follow is the one to bypass You may have met him before in his books *Fortune Cookies Sketches The Bazaar The Balcony The Lobby The Tango of Gossip Why Me The Smiling Owl Whispering Molecules and The Broken Horoscope* In his eleventh book in the series of books dealing with human nature entitled *The Gossiping Numbers* author Raad Chalabi through forty six standalone fictional dialogues addresses the issue of the vulnerability of pure logic to the emotional needs of humans As with all his earlier books the author provides no answers but only raises questions The theme behind *The Gossiping Numbers* is that logic is an irreplaceable tool that guides us onto the path that allows us to reach a desired destination The problem as the author sees it is that a logically defined path usually gets blocked by our emotional needs In addition our initially desired destination rarely continues to be so as life presents alternative options Numbers are seen by many as the personification of logic The book reflects on the question as to whether communicated numbers are truly unemotional as we all like to think or are they like all else that we interact with suitably managed by us to meet our desired outcome The author leaves it to the reader to reflect on the dialogues in the book and reach his or her own conclusions *Order* United States. Morals and Mysticism in Persian

Sufism Lloyd Ridgeon, 2010-06-10 Sufism is often understood to be the mystical dimension of Islam and many works have focused on the nature of mystical experiences and the relationship between man and God Yet Sufism was a human response to a wide range of contexts and circumstances the fact that Sufis lived in society and interacted with the community necessitating guidance on how to behave This book examines the development of Persian Sufism showing it to be a practical philosophy of the everyday rather than just a metaphysical phenomena The author explores the ethic of futuwwat or jawanmardi an Iranian code of honour that emphasised loyalty humility generosity and bravery Although inevitably some Sufis spiritualised this code of honour and applied it to their own relationship with God the ethic continued to permeate Sufi behaviour on a more mundane level typified by the strong links between Sufis and certain trades Drawing on field research in Iran as well as detailed analysis of both Arabic and Persian texts and new materials that have been published in Iran in recent years this is the first book in English to provide a history of Persian Sufi futuwwat As such this book is an important contribution to the study of Persian Sufism and to the fields of Islam history and religion

Solar Labyrinth Robert Borski, 2004-05-20 Gene Wolfe s *BOOK OF THE NEW SUN* has been hailed by both critics and readers as quite possibly the best science fiction novel ever written And yet at the same time like another masterpiece of fiction James Joyce s *Ulysses* it s been deemed endlessly complex and filled with impenetrable mysteries Now however in the first book length investigation of Wolfe s literary puzzlebox Robert Borski takes you inside the twisting corridors of the tetralogy and along the way reveals his solutions to many of the novel s conundrums and riddles such as who really is Severian s lost twin sister almost certainly not who you think and why he believes the novel s main character may not even be the torturer Severian Furthermore and in essay after essay Borski demonstrates how a single
