

Quantitative vs. qualitative data analysis

Quantitative data analysis	Qualitative data analysis
Based on close-ended questions, like multiple choice, yes/no, rating scales, and checkboxes	Based on open-ended questions that let participants respond in their own words
Uses numerical data to provide insights into questions like 'what,' 'how many,' or 'how often'	Uses descriptive or behavioral data to provide insights into questions like 'why'
More objective in nature because it's based on facts	More subjective in nature since it's based on opinions
Best for quick answers from large sample sizes	Best for contextual insights from small and medium sample sizes

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
