Nurse Practitioners Clinical Skills And Professional Issues:

Nurse Practitioners Mike Walsh, 2006 This is a comprehensive text for nurse practitioners that integrates the required clinical skills with professional and theoretical issues in one book. It uses a systems approach to cover the most frequently presenting problems that the nurse practitioner will encounter. The scope of the book then widens to include psychological and emotional problems as well as the special needs of children and those patients with chronic health problems. Using a practical approach, the content is based on current best evidence. The book has been derived from the editors' experience as a course team running the RCN Institute BSc Nurse Practitioner course in Lancaster and Carlisle. Nurse practitioners is an essential purchase for all nurse practitioners and nurse practitioner students. It is relevant to both primary and secondary care and fulfils the needs of those nurses working towards a higher level of autonomous practice. Comprehensive coverage of the new clinical skills that NPs will need in their expanding roles will give them confidence and enable them to pass their courses. Highly illustrated with clear line drawings to aid understanding and learning. Subject experts have contributed to various chapters to ensure that best practice is given throughout. End of chapter summaries aid revision. Reference lists facilitate further study. Fully updated in line with clinical and policy developments and includes new material in the form of research studies and literature. The pharmacology content of each chapter has been increased to reflect the development of nurse prescribing and the growth of patient group directives. New chapters on Blood Disorders, Endocrine Disorders, Common Paediatric Problems, Common Mental Problems. New user friendly page design and layout.

Professional Issues in Primary Care Nursing Carol Cox, Marie Hill, 2010-01-05 As both practice and walk in centre nurses continue to adapt to the constant on-going change demanded by both the public and the government paymasters, they will face ever-growing self-questioning about their role, responsibilities and their need to remain competent, knowledgeable and safe practitioners. From the foreword by Professor Dame Betty Kershaw DBE FRCN Education Advisor, The Royal College of Nursing, President of the Scholarship Society for Nurses and Midwives. This book enables nurses to get to grips with the professional issues that affect their practice in primary care. It is structured around the RCN domains of practice and considers a wide variety of issues including health promotion, reflective practice and leadership. Part One sets the scene for the domains of practice which follow and considers the unique aspects of practice and walk in centre nursing. Part Two considers practical aspects of each of the RCN domains of practice in

turn and is centred around nurse patient relationships Provides greater understanding of issues that affect the nature of practice Addresses the considerable changes in practice nursing and walk in centres Evidence based but also contains personal experiences Suitable for nurses undertaking community specialist practitioner degree courses qualified practice nurses and walk in centre staff
