Nutrition And Health Two Lectures To Workmen:

A Western Approach to Reincarnation and Karma Rudolf Steiner, 1997-10 I came forth from the mouth of the Most High and covered the earth like a mist I encamped in the heights and my throne was in a pillar of cloud Alone I compassed the vault of heaven and traversed the depths of the abyss Over waves of the sea over all the earth and over every people and nation I have held sway Before the ages in the beginning he created me and for all ages I shall not cease to be Eccl 24 3 6 9 Sophia the world soul fell from her place in the heavens to the chaos below Sophia is among the most haunting and mysterious figures in Western spirituality She is also one of the great symbols of the divine feminine in world civilization The personification of divine Wisdom Sophia is praised in the biblical book of Proverbs as co creator of the universe with God In the secret teachings of early Christianity known as Gnosticism she represents our shared consciousness trapped in the material world as a result of the Fall One of the most sublime Gnostic texts is the Pistis Sophia or Faith Wisdom a great allegory in which the resurrected Christ explains how he freed the divine Sophia from her imprisonment by the forces of spiritual wickedness Christ goes on to show his disciples how they will share in this cosmic act of redemption In this profound yet accessible work Egyptologist Violet MacDermot gives us a fresh translation of the Pistis Sophia from the Coptic and discusses it in its historical setting She also shows us how Sophia s story of is our story It is a tale of our separation and isolation as a result of ego consciousness but it is one in which we too can share spiritual liberation Her engaging discussion relates this work not only to ancient teachings but to the thought of C G Jung Emanuel Swedenborg and the Kabbalah

Foodwise Wendy E. Cook,2012-12-17 Wendy Cook's fascination with nutrition began during her war time childhood In the midst of deprivation and food rationing the rich abundance of her mother's organic garden made a profound impression In her twenties married to Peter Cook she discovered the artistic and magical effects that food could have in creating a convivial atmosphere During this period she cooked for many well known names including John Lennon Paul McCartney Dudley Moore Peter Ustinov and Alan Bennett But it was only later through her daughter falling ill that she came to study and understand deeper aspects of nutrition and in particular the effects of different foods on human health and consciousness In Foodwise Wendy Cook presents a remarkable cornucopia of challenging ideas advice and commentary informed by the seminal work of the scientist Rudolf Steiner She begins the volume with biographical glimpses relating to her experience of food and how it has influenced her life She then presents an extraordinary perspective on the journey of human evolution relating it to changes in consciousness and the consumption of different foods In the following section she considers the importance of agricultural methods the nature of the human being the significance of grasses and grains the mystery of human digestion and the question of vegetarianism In the next section she analyses the building blocks of nutrition looking in some detail at the nutritional or otherwise qualities of many foodstuffs including carbohydrates minerals fats and oils milk and dairy products herbs and spices salt and sweeteners stimulants legumes the nightshade family bread water and dietary supplements She ends with practical tips on cooking planning menus children's food sharing meals and some mouth watering recipes Foodwise presents a treasure of wisdom and experience for anybody with a concern for the content of the food they eat or a desire to discover more about the physical soul and spiritual aspects of nutrition

The Religion of Chiropractic Holly Folk,2017-03-13 Chiropractic is by far the most common form of alternative medicine in the United States today but its fascinating origins stretch back to the battles between science and religion in the nineteenth century At the center of the story are chiropractic's colorful founders D D Palmer and his son B J Palmer of Davenport Iowa where in 1897 they established the Palmer College of Chiropractic Holly Folk shows how the Palmers system depicted chiropractic as a conduit for both material and spiritualized versions of a vital principle reflecting popular contemporary therapies and nineteenth century metaphysical beliefs including the idea that the spine was home to occult forces The creation of chiropractic and other Progressive era versions of alternative medicine happened at a time when the relationship between science and religion took on an urgent increasingly competitive tinge Many remarkable people including the Palmers undertook highly personal reinterpretations of their physical and spiritual worlds In this context Folk reframes alternative medicine and spirituality as a type of populist intellectual culture in which ideologies about the body comprise a highly appealing form of cultural resistance
