Paintings and Sculpture from Central Pennsylvania Collectors Olga K. Preisner, 1984 **Paintings and Sculpture from Central Pennsylvania Collectors** Olga K. Preisner, 1984 **Frank Lobdell** Frank Lobdell, Timothy Anglin Burgard, 2003 The first comprehensive overview of Frank Lobdell's paintings, drawings, prints, and sketchbooks and his long career as artist and teacher in the San Francisco Bay Area **The Emergence of the Korean Art Collector and the Korean Art Market** Charlotte Horlyck, 2024-08-29 Articulating the shifting interests in Korean art and offering new ways of conceiving the biases that initiated and impacted its collecting, this book traces the rise of the modern Korean art market from its formative period in the 1870s through to its peak and subsequent decline in the 1930s. The discussion centres on the collecting of Koryŏ celadon ceramics as they formed the focal point of commercial exchanges of Korean artefacts and explores how their acquisition and ownership formed part of the complex power relationship that played out between the Koreans, Japanese, Americans, and Europeans. Drawing on a wide range of primary sources, the volume analyses collectors' acquisition practices, arguing that their fascination with ceramics from the Koryŏ kingdom (918–1392) was shaped not only by the aesthetic appeal of the objects but also by biased perceptions of the Korean peninsula, its history, and people. The book will be of interest to scholars working in art history, social history, cultural history, Korean studies, collection studies, museum studies, Korean history, and Asian studies. The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non-Commercial No Derivatives CC BY-NC-ND 4.0 license **A Revolution in Wood** Nicholas R. Bell, 2010-09-21 **A Revolution in Wood** celebrates the magnificent gift of sixty-six pieces of turned and carved wood to the Renwick Gallery of the Smithsonian American Art Museum by the distinguished collectors Fleur and Charles Bresler. Illustrated in lavish detail, works by this country's best-known wood artists highlight the growing sophistication of American craft's youngest medium and the expressive capacity of its most organic material. Masterpieces by the field's pioneers, including David Ellsworth, William Hunter Mark, and Melvin Lindquist, Edward Moulthrop, and Rude Osolnik, demonstrate the extraordinary range of expression achievable on the lathe, the medium's foundational tool. Compelling recent works by Ron Fleming, Michelle Holzappel, Hugh McKay, Norm Sartorius, Mark Sfirri, and many others reveal the advent of new techniques, including multi-axis turning, the incorporation of secondary materials, and a strong focus on carving. A wide-ranging essay by Renwick Curator Nicholas R. Bell examines contemporary wood art's historical roots and its rapid growth since the 1970s. Particular attention is given to the medium's development outside the studio craft movement and how that dynamic has shaped the current field. An interview with Fleur Bresler by former Renwick Curator in Charge Kenneth R. Trapp offers a window on the collector's passion and highlights her twenty-five-year dedication to wood and to the artists she considers family. The final section, **Wood Art at the Renwick Gallery**, illustrates in color over two hundred works by more than one hundred artists, making this premier public collection available in print for the first time. From James Prestini's

original gift of twenty pieces before the Renwick's opening to experimental works by current artists this guide to the Smithsonian's collection will serve as a reference for years to come **Arts Digest**, 1937 **Jeff Koons** Scott Rothkopf, 2014-07-08 With over 200 illustrations of iconic works as well as preparatory studies and historic photographs this book offers fresh insight into Koons's polarizing and influential career *Annual Report* National Endowment for the Arts, 1994 Reports for 1980-19 also include the Annual report of the National Council on the Arts *India in Art in Ireland* Kathleen James-Chakraborty, 2017-07-05 India in Art in Ireland is the first book to address how the relationship between these two ends of the British Empire played out in the visual arts It demonstrates that Irish ambivalence about British imperialism in India complicates the assumption that colonialism precluded identifying with an exotic other Examining a wide range of media including manuscript illuminations paintings prints architecture stained glass and photography its authors demonstrate the complex nature of empire in India compare these empires to British imperialism in Ireland and explore the contemporary relationship between what are now two independent countries through a consideration of works of art in Irish collections supplemented by a consideration of Irish architecture and of contemporary Irish visual culture The collection features essays on Rajput and Mughal miniatures on a portrait of an Indian woman by the Irish painter Thomas Hickey on the gate lodge to the Dromana estate in County Waterford and a consideration of the intellectual context of Harry Clarke's Eve of St Agnes window This book should appeal not only to those seeking to learn more about some of Ireland's most cherished works of art but to all those curious about the complex interplay between empire anti colonialism and the visual arts

Elizabeth Catlett: Art for Social Justice Klare Scarborough, 2015 **The Antonio II Badile Album of Drawings: The Origins of Collecting Drawings in Early Modern Northern Italy** Evelyn Karet, 2017-07-05 Evelyn Karet's in depth study of the Antonio II Badile Album the earliest known example of an art collection pasted onto the pages of a book is both focused and broad in its appeal to those interested in the early modern era The provenance of the album is traced from its assemblage to the seventeenth century collection of Conte Lodovico Moscardo to its dismantling by the dealer Francis Matthiesen in the 1950s establishing that the volume conserved in the Frits Lugt Collection is not an original but a replica

produced by Matthiesen Although Antonio II must be celebrated as the collector of the drawings new paleographic analysis has identified the actual compiler of the album after Antonio's death providing a terminus post quem in the late 1530s or early 1540s Karet enlarges the focus from the album itself to the historic tradition of collecting drawings in northern Italy in the early modern era before Vasari for which the album provides a new point of reference Throughout the book Karet discusses the Badile family examines the individual drawings in the book investigates the contacts between artists and humanists their rich diverse collections and the humanist mind set that fostered the appreciation of drawings She explores notable early drawing collections in northern Italy and the role of northern Italy as a center of collection in the sixteenth and seventeenth centuries The book concludes with two appendices a reconstruction of the original album including a discussion of the reconstruction process suggestions about what the album originally looked like and a page by page guide to its contents and a detailed analysis of Francis Matthiesen's career This book opens up new areas of inquiry into an overlooked subject

Matisse Rebecca A. Rabinow, Dorthe Aagesen, Metropolitan Museum of Art (New York, N.Y.), 2012 Throughout his long career Henri Matisse 1869-1954 continually expanded the boundaries of his art By repeating images in pairs trios and series he conducted an ongoing dialogue with his earlier works in order to as he put it push further and deeper into true painting In this fresh approach to a much studied artist prominent scholars from the United States and Europe examine more than sixty works in concise chapters that focus on this aspect of Matisse's working process From early pairs such as *Young Sailor I* and *II* 1906 and *Le Lexe I* and *II* 1907-8 through a series of late studio scenes from Vence 1946-48 Matisse is shown revisiting a given theme with the aim of devising innovative often radical solutions to such problems as how to portray light handle paint select colors and manipulate perspective New technical studies of the early paired works and photographs documenting the evolution of his later paintings help to elucidate Matisse's complex evolution In numerous excerpts from letters and interviews he is revealed as an artist who regularly questioned himself and his methods a man of powerful intellect who regarded each new painting as an adventure A significant addition to art historical literature Matisse In Search of True Painting is a revelatory study of a seminal figure in 20th century modernism Page 4 of cover
