Sasson Sofer, 2014-06-03 This is an interdisciplinary study of Israeli society in one of the defining moments in the history of Israel The contributors discuss the critical aspects of the political order economics the military the role of the media and legal reform that are shaping a new Israel *Israeli Peacemaking Since 1967* Galia Golan, 2014-09-15 Examining the Israeli Arab conflict as an intractable conflict Israeli Peacemaking since 1967 seeks to determine just which factors or combination of factors impacted on Israel's position in past peace making efforts possibly accounting for breakthroughs or failures to reach agreement From King Hussein's little known overtures immediately after the Six Day War through President Sadat's futile efforts to avoid war in the early 1970s to repeated third party mediated talks with Syria factors including deep seated mistrust leadership style and domestic political spoilers contributed to failures even as public opinion and international circumstances may have been favourable How these and other factors intervened changed or were handled allowing for the few breakthroughs with Egypt and Jordan or the near breakthrough of the Annapolis process with the Palestinians provides not only an understanding of the past but possible keys for future Israeli Arab peace efforts Employing extensive use of archival material as well as interviews and thorough research of available sources this book provides insight on just which factors or combination of factors account for breakthroughs or failures to reach agreement a framework useful for examining both the Israeli Arab conflict and intractable conflicts in general *Ben-Gurion Against the Knesset* Giora

Goldberg, 2004-02-19 The power struggle between Ben Gurion and the Knesset was not primarily concerned with who should hold the reins of power but with the ideals that should lie behind government Ben Gurion did not think that the Knesset had the moral backbone required at a historic turning point in Israeli history when the character of the nation was being developed although he conceded that it was capable of dealing with the more mundane administrative tasks He therefore denied the Knesset the right to take part in the policy making process caused a decline in the support of the elite and the general public encouraged partisanship and endeavored to reduce competitiveness Ben Gurion was so dismissive of the Knesset and its members that he would not even attend parties at which Knesset members were being given awards

Amneh Badran, 2009-09-10 This book is a comparison of two ethnic national apartheid states South Africa and Israel which have been in conflict and how internal dissent has developed In particular it examines the evolution of effective white protest in South Africa and explores the reasons why comparably powerful movements have not emerged in Israel The book reveals patterns of behaviour shared by groups in both cases It argues that although the role played by protest groups in peace building may be limited a tipping point or magic point can become as significant as other major factors It highlights the role played by intermediate variables that affect the pathways of protest groups such as changes in the international system the visions and strategies of resistance movements and their degree of success the economic relationship between the dominant and dominated side and the legitimacy of the ideology in power apartheid or Zionism Although the politics and roles of protest groups in both cases share some similarities differences remain Whilst white protest groups moved towards an inclusive peace agenda that adopts the ANC vision of a united non racial democratic South Africa the Jewish Israeli protest groups are still by majority entrenched in their support for an exclusive Jewish state And as such they support separation between the two peoples and a limited division of mandatory Palestine Eretz Israel This timely book sheds light on a controversial and explosive political issue Israel being compared to apartheid South Africa
