Peaks And Pioneers The Story Of Mountaineering:

Peaks and Pioneers Francis Keenlyside, 1975 Mountaineering Literature Jill Neate, 1986 Long established as a standard reference work worldwide this is a thorough bibliography of all mountaineering books that are of practical use to climbers or for reading pleasure or historical interest Documenting more than 2000 books of mountaineering literature it also includes nearly 900 climber s guidebooks a sampling of more than 400 works of mountaineering fiction plus journals and bibliographies **Women on High** Rebecca A. Brown, 2002 In a time when a woman s sphere was decidedly limited to hearth and family a number of courageous women were stepping out stepping up and making history far from the comforts of the homefire *Women on High* will thrill readers with tales of dangerous summit attempts blinding whiteouts and narrow escapes and transfix mountain historians with details of first ascents period gear and first hand accounts **The Magnificent Mountain Women** Janet Robertson, 2020-08-05 Since the Pikes Peak gold rush in the mid nineteenth century women have gone into the mountains of Colorado to hike climb ski homestead botanize act as guides practice medicine and meet a variety of other challenges whether for sport or for livelihood Janet Robertson recounts their exploits in a lively well illustrated book that measures up to its title *The Magnificent Mountain Women* Arlene Blum provides a new introduction to this edition *The Mountains in Art History* Peter Mark, Peter Helman, Penny Snyder, 2017-03-07 *The Mountains in Art History* is the first English language work to focus on mountains as subject matter and source of aesthetic and spiritual inspiration for painters This collection of original essays is written entirely by Wesleyan University students of art history The essays examine how artistic representation of mountains has varied through the lens of specific depictions in English and American literature and consider how images of mountains functioned in conjunction with religion the sublime and Romanticism These essays by student authors adeptly ruminate on works by individuals such as William Wordsworth John Frederick Kensett Alexander van Humboldt Emil Nolde and Arnold Fanck Includes an introduction by professor Peter Mark and a helpful appendix of the course syllabus and narrative description Victorians in the Mountains Ann C. Colley, 2016-02-24 In her compelling book Ann C Colley examines the shift away from the cult of the sublime that characterized the early part of the nineteenth century to the less reverential perspective from which the Victorians regarded mountain landscapes And what a multifaceted perspective it was as unprecedented numbers of the Victorian middle and professional classes took themselves off on mountaineering holidays so commonplace that the editors of *Punch* sarcastically reported that the route to the summit of Mont Blanc was to be carpeted In Part One Colley mines diaries and letters to interrogate how everyday tourists and climbers both responded to and undercut ideas about the sublime showing how technological advances like the telescope transformed mountains into theatrical spaces where tourists thrilled to the sight of struggling climbers almost inevitably these distant performances were eventually reenacted at exhibitions and on the London stage Colley s examination of the Alpine Club archives periodicals and other primary resources offers a more complicated

and inclusive picture of female mountaineering as she documents the strong presence of women on successful expeditions in the latter half of the century In Part Two Colley turns to John Ruskin Gerard Manley Hopkins and Robert Louis Stevenson whose writings about the Alps reflect their feelings about their Romantic heritage and shed light on their ideas about perception metaphor and literary style Colley concludes by offering insights into the ways in which expeditions to the Himalayas affected people's sense of the sublime arguing that these individuals were motivated as much by the glory of Empire as by aesthetic sensibility Her ambitious book is an astute exploration of nationalism as well as theories of gender spectacle and the technicalities of glacial movement that were intruding on what before had seemed inviolable

Himalayan Dreaming Will Steffen, 2010-07-01 How did climbers from the world's flattest hottest continent become world class Himalayan mountaineers the equal of any elite mountaineer from countries with long climbing traditions and home ranges that make Australia's highest summit look like a suburban hill This book tells the story of Australian mountaineering in the great ranges of Asia from the exploits of a brash young colonial with an early British Himalayan expedition in the 1920s to the coming of age of Australian climbers in the 1980s The story goes beyond the two remarkable Australian ascents of Mt Everest in 1984 and 1988 to explore the exploits of Australian climbers in the far flung corners of the high Himalaya Above all the book presents a glimpse into the lives the successes failures tragedies motivations fears conflicts humor and compassion themselves to the ultimate limits of survival in the most spectacular and demanding mountain arena of all *Climber's Paradise* PearlAnn Reichwein, 2014-07-15 Tenacious activism of the Alpine Club of Canada leads to mountain recreation and conservation Why Everest Gerry Roach, 2012 Unjustifiable Risk? Simon Thompson, 2012-03-06 To the impartial observer Britain does not appear to have any mountains Yet the British invented the sport of mountain climbing and for two periods in history British climbers led the world in the pursuit of this beautiful and dangerous obsession *Unjustifiable Risk* is the story of the social economic and cultural conditions that gave rise to the sport and the achievements and motives of the scientists and poets parsons and anarchists villains and judges ascetics and drunks that have shaped its development over the past two hundred years The history of climbing inevitably reflects the wider changes that have occurred in British society including class gender nationalism and war but the sport has also contributed to changing social attitudes to nature and beauty heroism and death Over the years increasing wealth leisure and mobility have gradually transformed climbing from an activity undertaken by an eccentric and privileged minority into a sub division of the leisure and tourist industry while competition improved technology and information and increasing specialisation have helped to create climbs of unimaginable difficulty at the leading edge of the sport But while much has changed even more has remained the same Today's climbers would be instantly recognisable to their Victorian predecessors with their desire to escape from the crowded complexity of urban society and willingness to take unjustifiable risk in pursuit of beauty adventure and self fulfilment *Unjustifiable Risk* was shortlisted for the Boardman Tasker prize in 2011 *Mountain Heroes* Huw
