Peasant Consciousness and Guerilla War in Zimbabwe Terence O. Ranger, T. O. Ranger, 1985-01-01 **Peasant Consciousness and Guerrilla War in Zimbabwe** Terence O. Ranger, 1999 **Peasant Consciousness and Guerilla War in Zimbabwe** Terence Osborn Ranger, 1985 *Peasant Consciousness and Guerrilla War in Zimbabwe* Terence Osborn Ranger, 1984 *Multidisciplinary Perspectives on Zimbabwe's Liberation Struggle* Munyaradzi Nyakudya, Wesley Mwatwara, Joseph Mujere, 2022-11-15 This book provides a timely reconceptualization of Zimbabwe's anti colonial liberation struggle resisting simple binaries in favour of more nuanced critical analysis Most historiographies characterize Zimbabwe's liberation struggle as being defined by simple bifurcations along racial ethnic class and ideological perspectives This book argues that the nationalist struggle is far more complex than such simple configurations would suggest and that many actors have been overlooked in the analysis The book broadens our understanding by analysing the roles of a wide range of political figures organizations and members of the military as well as the media and the often overlooked part that women played Over the course of the book the contributors also reflect on the ways in which revolutionary figures have been repainted as sellouts in particular by the ZANU PF ruling party and what that means for the country's interpretation of their recent past Highlighting in particular the expertise of leading scholars from within Zimbabwe across a range of disciplines this book will be of interest to researchers of African history politics and postcolonial studies Nationalists, Cosmopolitans, and Popular Music in Zimbabwe Thomas Turino, 2008-06-20 Hailed as a national hero and musical revolutionary Thomas Mapfumo along with other Zimbabwean artists burst onto the music scene in the 1980s with a unique style that combined electric guitar with indigenous Shona music and instruments The development of this music from its roots in the early Rhodesian era to the present and the ways this and other styles articulated with Zimbabwean nationalism is the focus of Thomas Turino's new study Turino examines the emergence of cosmopolitan culture among the black middle class and how this gave rise to a variety of urban popular styles modeled on influences ranging from the Mills Brothers to Elvis He also shows how cosmopolitanism gave rise to the nationalist movement itself explaining the combination of foreign and indigenous elements that so often define nationalist art and cultural projects The first book length look at the role of music in African nationalism Turino's work delves deeper than most books about popular music and challenges the reader to think about the lives and struggles of the people behind the surface appeal of world music **Warfare and Tracking in Africa, 1952-1990** Timothy J Stapleton, 2015-10-06 During the decolonization wars in East and Southern Africa tracking became increasingly valuable as a military tactic Drawing on archival research and interviews Stapleton presents a comparative study of the role of tracking in insurgency and counter insurgency across Kenya Zimbabwe and Namibia **Ending Civil War** Matthew Preston, 2004-09-30 Matthew Preston returns politics to its rightful place at the heart of the study of internal conflict Rejecting approaches that emphasise economics or ethnicity this comparative investigation of the wars in Rhodesia and

Lebanon sets out the complex political dynamic that eventually produced the ultimately successful peace agreements of Lancaster House and Taif respectively. It was a dynamic though in which the ebbs and flows of events at the negotiating table and on the battlefield played only a supporting role. Rather more significant were power struggles within belligerent parties that brought consolidated yet unscrupulous leadership, growing disempowerment and suffering of civilians of all communities and the acquisition and subsequent leverage over the belligerents by regional powers. Yet the years of negotiation over seats in parliament failed to usher in a democratic era in either country. Peace brought a de-escalation in violence but the political struggle continued to be won decisively by Robert Mugabe's ZANU PF in independent Zimbabwe and by Syria and her allies in Lebanon. At a time when Western leaders proclaim the political necessity of addressing failed states, Ending Civil War provides a salutary reminder that the competing elites of those failed states possess their own political agendas, ones frequently resistant to the command of great but distant powers. The primary agendas of civil war in Rhodesia and Lebanon were not those of economic greed nor of ethnic hatred but of the age-old phenomenon of the struggle for control of organisations of civilians and ultimately of the state. The idioms of violence were those of the time: cyclical bouts of fighting, massacres, assassinations and kidnappings, but the deployment of limited violence for political ends was one which Carl von Clausewitz would clearly have recognised.

The Palgrave Handbook of African Politics, Governance and Development Samuel Ojo Oloruntoba, Toyin Falola, 2017-10-10. This handbook constitutes a single collection of well-researched articles and essays on African politics, governance and development from the pre-colonial through colonial to the post-colonial eras. Over the course of these interconnected periods, African politics have evolved with varied experiences across different parts of the continent. This work provides an opportunity for old and new scholars to engage in the universe of the debate around African politics, governance and development and will serve as a ready reference material for students, researchers, policy makers and investors that are concerned with these issues.
