DOI 10.13134/9791259773012 *Manual de estética maya* Cesar Sonderegger, 2021-06-01. Asombra que después de más de doscientos años de estudios mayas una cultura tan vasta, talentosa y reconocida intelectualmente y artísticamente no se hayan considerado necesarias hasta hoy investigaciones filosóficas y estéticas. En la actualidad los estudios mayistas son parciales. El énfasis se ha puesto sobre lo histórico, signa y mitológico. Los documentos para desarrollar esas investigaciones son en gran mayoría obras plásticas de casi todos los géneros. Sin embargo la atención que se le dispensa a las arquitecturas, esculturas, cerámicos y dibujos está relacionada con cuanto historia, sistema socioeconómico y mitología puedan revelar. Estoy de acuerdo con tal criterio pero no que sean los mismos temas de investigación como lo demuestra la bibliografía existente. Insisto la mayoría de las obras descubiertas son obras artísticas o artesanales y pertenecen a lo estético y a la expresión plástica. Sobre esta base el enfoque científico poco puede hacer. Sin embargo se han realizado pauperismos análisis iconográficos donde de manera esquemática y superficial se han diseccionado las morfologías. Como es de esperar en este tipo de análisis carente de una casística de lo estético-plástico la conceptualización, la terminología y la disciplina investigativa son falaces. Se necesita una urgente interdisciplinaridad entre lo histórico, antropológico, filosófico y estético.

Cerámica Y Cultura Robin Farwell Gavin, Donna Pierce, Alfonso Pleguezuelo, 2003. By examining both historic and contemporary examples the editors move discussion of the enameled earthenware known as mayolica beyond its stylistic merits in order to understand it in historic and cultural context. It places the ceramics in history and daily life illustrating their place in trade and economics.
