Plan Implementation In Nigeria 1962 1966:

Plan Implementation in Nigeria Edwin Dean, 1972 **Administration for Development in Nigeria** Paul D. Collins, This classic text originally published in 1948 is a study of the public administration movement from the viewpoint of political theory and the history of ideas It seeks to review and analyze the theoretical element in administrative writings and to present the development of the public administration movement as a chapter in the history of American political thought The objectives of The Administrative State are to assist students of administration to view their subject in historical perspective and to appraise the theoretical content of their literature It is also hoped that this book may assist students of American culture by illuminating an important development of the first half of the twentieth century It thus should serve political scientists whose interests lie in the field of public administration or in the study of bureaucracy as a political issue the public administrator interested in the philosophic background of his service and the historian who seeks an understanding of major governmental developments This study now with a new introduction by public policy and administration scholar Hugh Miller is based upon the various books articles pamphlets reports and records that make up the literature of public administration and documents the political response to the modern world that Graham Wallas named the Great Society It will be of lasting interest to students of political science government and American history **Economic Reforms and Modernization in Nigeria, 1945-1965** Toyin Falola, 2004 Created as a result of British colonialism Nigeria emerged as a nation state during the mid 20th century Toyin Falola presents statistical data on Nigeria's economy that illustrate the nature of the changes made throughout the mid 20th century **An Introduction to Political Science in Nigeria** Adeoye A. Akinsanya, John A. Ayode, 2013-07-19 An Introduction to Political Science in Nigeria attempts to fill the void in the literature for undergraduate and graduate students in the Third World particularly Nigeria that are studying the arts humanities social sciences education and law Primarily intended for introductory courses in political science and specifically Nigerian government the material covers such areas as the foundations of political science key concepts of political thought political systems citizenship world order and politics *The Second Colonial Occupation* Bekeh Utietiang Ukelina, 2017-07-28 In this insightful book development historian Bekeh Utietiang Ukelina addresses the crisis of development in Africa by locating it in its colonial historical past Using Nigeria as a case study he argues that the nature and practice of British colonialism in this colony created social and economic deficiencies that have left a legacy of underdevelopment Ukelina outlines the processes that led to the 1945 Nigerian Development Plan and the evolution of colonial agricultural policy and practices in Nigeria He argues that a few key factors led to the failure of development in the late colonial period the imperial and neocolonial imperative to exploit African resources and people poor planning as a result of this imperative and the racial ideologies of the colonial state that resulted in a total rejection of local African experience and knowledge in favor of Western experts The Second Colonial Occupation uncovers and analyzes the short and long term impact of colonialism It reveals that though colonial rule was

promoted as a benevolent mission at heart it was a system that guaranteed that Africans continuously paid for their own exploitation Ukelina argues that postcolonial Africa will continue to face development challenges unless it breaks free from the intellectual relics of colonial rule and the economic shackles of neocolonialism **Information and Communication**

Technologies in Nigeria Patience Idaraesit Akpan-Obong, 2009 In recent years information and communication technologies ICTs have been linked with socioeconomic development with the assumption that they can be harnessed for economic growth in developing countries and facilitate integration into the global information society However very few studies in the ICT for development field examine the direct connections between ICTs and socioeconomic growth Information and Communication Technologies in Nigeria Prospects and Challenges for Development is a compelling account of the development of ICTs in Nigeria It examines the ICT policy framework and the societal context within which application of the technologies emerged and highlights the potentials of ICTs in socioeconomic development However this book also demonstrates through interviews and case studies that ICTs are not the panacea to underdevelopment constraining factors in different countries can limit their capacity to succeed The author employs a rare multidisciplinary approach that makes the book appealing and accessible to a diverse range of readership Natural Resources and Economic Growth Marc

Badia-Miró, Vicente Pinilla, Henry Willebald, 2015-05-22 The relationship between natural capital and economic growth is an open debate in the field of economic development Is an abundance of natural resources a blessing or a curse for economic performance The field of Economic History offers an excellent vantage to explore the relevance of institutions technical progress and supply demand drivers Natural Resources and Economic Growth contains theoretical and empirical articles by leading scholars who have studied this subject in different historical periods from the 19th century to the present day and in different parts of the world Part I presents the theoretical issues and discusses the meaning of the curse and the relevance of the historical perspective Part II captures the diversity of experiences presenting thirteen independent case studies based on historical results from North and South America Africa Asia Oceania and Europe This book emphasizes that an abundance of natural resources is not a fixed situation It is a process that reacts to changes in the structure of commodity prices and factor endowments and progress requires capital labour technical change and appropriate institutional arrangements This abundance is not a given but is part of the evolution of the economic system History shows that institutional quality is the key factor to deal with abundant natural resources and especially with the rents derived from their use and exploitation This wide ranging volume will be of great relevance to all those with an interest in economic history development economic growth natural resources world history and institutional economics **Black Africa** Robert C. Mitchell, Donald G. Morrison, John N. Paden, 1989-07-17 Black Africa presents political economic and social data for 41 black African nations The first edition was published in 1972 and included only data on 32 countries which was the total number of independent African nations at that time Enlarging on the first edition this second edition covers in detail important aspects of the countries included from

demography to political development and social mobilization to a modern comparative analysis of African states Black Africa is a complete and comprehensive handbook The first edition of Black Africa won a Book of the Year Award from the American Library Association

Nigerian Capitalism Sayre P. Schatz, 2024-06-14 Following a surge in oil revenues in the 1970s Nigeria became one of Africa's most rapidly developing nations In Nigerian Capitalism Sayre P Schatz analyzes the country's political economy assessing its position and proposing a development plan for the final quarter of the twentieth century Referring to Nigeria's economic development strategy as nurture capitalism Sayre contrasts the role of private enterprise which is expected to foster growth of the productive sector of the economy with the government's role which is to nurture the capitalist sector generally and to favor indigenous enterprise in particular The author examines the development of Nigerian nurture capitalism from 1949 to the launching of and early experience with the Third Plan 1975-80 with emphasis on the post civil war 1970s He then turns to an intensive study of indigenous business and possible impediments to the development of Nigerian private enterprise analyzing the role of capital availability entrepreneurship and the economic environment Sayre demonstrates that there are substantial divergences between private profitability and social utility and that there is an abundance of socially useful investment possibilities for indigenous businessmen The author next turns to a study of the government business assistance programs and their economic administrative and political characteristics Finally he assesses the sources of successful investment and makes a case for enhanced socially useful investments Comparing pragmatic developmentalism pragmatic socialism and thoroughgoing socialism he proposes a pragmatic orientation that postpones ideological decisions as long as practicable This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1977

Political Conflict and Economic Change in Nigeria Henry Bienen, 2013-11-26 First Published in 1985 In the early morning hours of 31 December 1984 the Nigerian military once again removed an elected head of state A coup carried out by senior military officers ended the Second Republic which had been ushered in by elections at the end of 1979 Political Conflict and Economic Change in Nigeria is based on articles and essays written between 1978 and 1983

Planning in Developing Countries Ramgopal Agarwala, 1983 Planning involves anticipating the future and formulating systematic programs of action to attain desired goals This paper is concerned with national economic planning as attempted by most developing countries after World War II for the purpose of accelerating their development A review of the evolution of planning in developing countries emphasizes the political circumstances and economic paradigms that led to the surge of planning efforts A typology of planning is based on the intensity of planning efforts The successes and failures of planning are examined in the paper and a comment on emerging trends is included

Three main conclusions emerge from this study i planning in most developing countries has failed to live up to expectations ii the technical administrative and political causes of the failure of comprehensive planning are unlikely to be remedied merely by more strenuous efforts to strengthen the planning machinery and iii planning should be reoriented through streamlining the incentive system and public investment program and through emphasizing consultations flexibility selectivity and coordination

Decolonization And Dependence Bassey E Ate, 2021-10-28 Nigerian and African foreign policy studies are finally achieving a degrees of maturity First published in 1987 this volume juxtaposes levels leaders and periods relating to national ideologies and regional issues it also looks at cycles in political economy from the rise and decline of American industry to the petro naira windfall

Growing Apart Peter Lewis, 2009-12-11 Growing Apart is an important and distinguished contribution to the literature on the political economy of development Indonesia and Nigeria have long presented one of the most natural opportunities for comparative study Peter Lewis one of America s best scholars of Nigeria has produced the definitive treatment of their divergent development paths In the process he tells us much theoretically about when why and how political institutions shape economic growth Larry Diamond Senior Fellow Hoover Institution Growing Apart is a careful and sophisticated analysis of the political factors that have shaped the economic fortunes of Indonesia and Nigeria Both scholars and policymakers will benefit from this book s valuable insights Michael L Ross Associate Professor of Political Science Chair of International Development Studies UCLA Lewis presents an extraordinarily well documented comparative case study of two countries with a great deal in common and

yet with remarkably different postcolonial histories His approach is a welcome departure from currently fashionable attempts to explain development using large multi country databases packed with often dubious measures of various aspects of governance Ross H McLeod Editor Bulletin of Indonesian Economic Studies This is a highly readable and important book Peter Lewis provides us with both a compelling institutionalist analysis of economic development performance and a very insightful comparative account of the political economies of two highly complex developing countries Nigeria and Indonesia His well informed account generates interesting findings by focusing on the ability of leaders in both countries to make credible commitments to the private sector and assemble pro growth coalitions This kind of cross regional political economy is often advocated in the profession but actually quite rare because it is so hard to do well Lewis s book will set the standard for a long time Nicolas van de Walle John S Knight Professor of International Studies Cornell University Peter M Lewis is Associate Professor and Director of the African Studies Program Johns Hopkins University School of Advanced International Studies **Journal of Social Sciences** ,2005-07 Essays in the Public Philosophy of Development Pius N.
