

LA TEORÍA DE LA ACCIÓN POÉTICA DE PAUL VALÉRY

ANNA MARIA BRIGANTE
Pontificia Universidad Javeriana (Bogotá)

RESUMEN: Este artículo tiene como propósito demostrar que la poética de Paul Valéry es en realidad una teoría de la acción poética en la que el interés se centra más en el hacer que en la obra acabada. Para ello, se hace un recorrido por la crítica, con ecos wittgensteinianos, que el autor hace de la estética clásica de la belleza y del gusto. Esta reflexión desemboca en la propuesta valeriana de una poética que se puede explicar en tres momentos: poética de la recepción —el receptor como productor—, poética en sentido propio —el productor como creador de la obra y de sí mismo— y, finalmente, poética artificialista —el creador en contraposición a la creación natural—. El acento de Valéry en la poesis y, como consecuencia, en acción que hace sobre la cosa hecha, hace que su propuesta sea también ética: la acción de artista, su disciplina en el producir, crea la obra y al creador. Así, el espíritu es también una obra nunca acabada.

PALABRAS CLAVE: poética, poesis, acción, producción, recepción.

Paul Valéry's Theory of Poetic Action

ABSTRACT: This article purports to show that Paul Valéry's poetic art is, in the end, a theory of poetic action in which the main concern revolves around the work in progress rather than in the final product. To do so, we follow the poet's critique (with deep wittgensteinian elements) of classic aesthetics' stance on beauty and taste. In our view, this reflection results in Valéry's proposal of a poetics which can be explained in three moments: poiesis of reception – the recipient as producer; poiesis in its proper sense – the producer as creator of the work and him/herself; and artificialist poiesis – the creator as opposed to natural creation. Valéry's emphasis on poesis and, therefore, on the action exerted upon what is being done, makes his proposal also an ethical assertion: the artist's action, his/her discipline whilst producing, create both the work and the artist. Thus, the spirit will also be a never-ending work in progress.

KEY WORDS: poetics, action, production, reception.

Paul Valéry es autor de una obra inmensa y heterogénea. Es poeta, autor también de algunos diálogos, de un gran número de ensayos sobre arte, literatura, filosofía y, además, de una obra de enormes proporciones cuya edición facsimilar consta de veintinueve volúmenes, cada uno con aproximadamente mil páginas, que el autor denominó de modo genérico *Cahiers*. Esta obra compuesta de anotaciones de carácter fragmentario, llamada por él mismo contra-obra e iniciada en 1894, se termina sólo con la muerte del poeta en 1945 porque se trata de un ejercicio que el espíritu hace sobre sí mismo en soledad, y que como ejercicio nunca se acaba —tampoco nace con la intención de ser publicada—. Esta contra-obra debe entenderse como una suerte de diccionario del espíritu cuyas «entradas» versan precisamente sobre el funcionamiento de éste. *Ego*, memoria, atención, sensibilidad, literatura, filosofía, *poética* son algunos de los temas que conforman el universo de este trabajo al que el poeta, en un juego de palabras, se refiere como la «obra de arte hecha con los hechos del mismo pensamiento»¹.

Poetics of Paul Valéry Robert Steven Cohen, 1973 **Paul Valéry, an Anthology** Paul Valéry, 1977 Poetic Theory and Practice of T.S. Eliot Dushiant Kumar Rampal, 1996 This is a comprehensive study of the whole oeuvre of T.S. Eliot. His poetry, criticism, drama, and social writings from the pen of a penetrating scholar. The writings of Eliot still form major documents of twentieth-century English literature, presenting challenges and problems to the reader using the tools of background and domain assumptions. The author has brought out Eliot's philosophical moorings and sociological preoccupations. A study of this book is a must if Eliot's esoteric doctrines and poetry have to be seen as a systematic whole. *Lyricism and Politics in Paul Valéry's Poetry and Poetic Theory and in "La Nouvelle Revue Française"* Vesna Rodic, 2008 **Reading Paul Valéry** Paul Gifford, Brian Stimpson, 1998 Originally published in 1999, this was the first comprehensive account of the work of the French modernist writer Paul Valéry. *The Mystique of Writing* Miriam Ayres, 2003 *The Poetics of Paul Valéry* Jean Hytier, 1966 *Paul Valéry and Poetry of Voice* Christine M. Crow, 2009-07-23 This is one of the first studies to treat Valéry's theory and practice of poetry together and is the first full-length study of his poetry in English. Discussion of his ideas on poetic composition leads to a detailed analysis of the principal poetry, the long-term poem *La Jeune Parque* and all the poems in the main collection. While serving as a step-by-step introduction to Valéry's poetic achievement, the argument is not merely neutral; it elicits and comments on his little-known concept of Voice, now seen increasingly to be central. This is not simply the acoustic or musical effect of one poet's verse; it relates to the inner monologue we all hear within ourselves. By concentrating on Valéry's unusually thorough understanding of this area of exchange between willed and spontaneous modes of perception and creativity, the book is able to approach without jargon the much-debated question of the subject who speaks in a poem. It proposes some unexpected conclusions concerning Valéry's relationship to both Mallarmé and Symbolism and contemporary Structuralist thought. This searching study will interest linguists, philosophers, and psychologists as well as students of literature and literary history. An Anthology of Modern French Poetry (1850-1950) Peter Broome, Graham Chesters, 1976-07-15 This anthology is the companion volume to *The Appreciation of Modern French Poetry*, the aim of which was to give detailed preliminary help with the problems of poetic appreciation. The fourteen poets represented here provide a varied and exciting introduction to what is probably the richest century of French poetry from 1850 to 1950. Hugo, the colossus of the nineteenth century, whose work gives new resonance and vitality to imaginative vision, opens the anthology, and Michaux, the most individual and modern of twentieth-century poets, in that he bridges the gap between poetry and contemporary science, closes it. Almost all the major poets of the period are included: Nerval, Baudelaire, Mallarmé, Verlaine, Rimbaud, and Laforgue from the second half of the nineteenth century; Valéry, Apollinaire, Supervielle, and Eluard in the twentieth. The lesser-known Cros and Desnos, fresh and spontaneous poets with an immediate appeal, invite a new look at the lyric traditions of French verse and offer an attractive new avenue for study. The choice of poems, dictated above all by their individual poetic value, reflects also the trends of recent criticism and the tastes of

present day readers The texts are all accompanied by full notes which not only explain local difficulties of vocabulary syntax and expression but lead the reader directly into the heart of the richness of theme style and interpretation These will prove of value not only to the student who is grappling with the basics of french verse or is anxious to give depth to his familiarity but to the general reader seeking to rekindle his enjoyment of French poetry In addition there are introductions to each poet summarizing the essence of his art useful suggestions for further reading and groups of dicussion topics to stimulate comparative insights and a wider responsiveness
