Raising A Handicapped Child A Helpful Guide For Parents Of The Physically Disabled:

Raising a Handicapped Child Charlotte E. Thompson, 1986 A highly respected pediatrician anticipates and addresses all the questions and difficulties parents of a handicapped child have to face from the initial diagnosis to adulthood

Raising a Handicapped Child Charlotte E. Thompson, 2000 Still the only handbook of its kind to discuss both the emotional and physical problems of raising a child with a disability this guide offers complete practical and reassuring advice for parents who care for these children

Running a Team for Disabled Children and Their Families Martin F. Robards, 1994-06-24 Children with multiple disabilities and complex neurological problems often compounded by psychological and behavioral problems need care provision beyond the normal community and hospital pediatric services These children and their families need the help of a variety of specialists Organizing these is a complex problem and there is a constant risk of the family's needs being overridden by the professionals convenience Dr Robards describes ways of providing all the necessary specialist care while at the same time increasing the family's participation and understanding to its optimum level Illustrating his proposals with a variety of lively case histories the author demonstrates that a rigid structure can never meet these children's needs This practical book offers clear recommendations about record keeping integrating voluntary support groups into the professionals work the location and layout of premises used by the professionals and many other factors collectively critical to the efficient and humane delivery of this element of community care

Cerebral Palsy Freeman Miller, Steven J. Bachrach, 2006-05-08 When a child has a health problem parents want answers But when a child has cerebral palsy the answers don't come quickly A diagnosis of this complex group of chronic conditions affecting movement and coordination is difficult to make and is typically delayed until the child is eighteen months old Although the condition may be mild or severe even general predictions about long term prognosis seldom come before the child's second birthday Written by a team of experts associated with the Cerebral Palsy Program at the Alfred I duPont Hospital for Children this authoritative resource provides parents and families with vital information that can help them cope with uncertainty Thoroughly updated and revised to incorporate the latest medical advances the second edition is a comprehensive guide to cerebral palsy The book is organized into three parts In the first the authors describe specific patterns of involvement hemiplegia diplegia quadriplegia explain the medical and psychosocial implications of these conditions and tell parents how to be effective advocates for their child In the second part the authors provide a wealth of practical advice about caregiving from nutrition to mobility Part three features an extensive alphabetically arranged encyclopedia that defines and describes medical terms and diagnoses medical and surgical procedures and orthopedic and other assistive devices Also included are lists of resources and recommended reading

Home Care for the High-risk Infant Elizabeth Ahmann, 1996 This revised expanded edition addresses the increased interest in and demand for information about the nursing care of premature technology dependent infants once they are at home Clinical practice and research updates
