Thomas Harriot and His World Robert Fox, 2016-12-05 This second volume of papers on Thomas Harriot edited by Professor Robert Fox is based on the annual Harriot lectures delivered at Oriel College Oxford between 2000 and 2009 It complements the previous volume published as Thomas Harriot An Elizabethan Man of Science in 2000 The focus in several of the papers is on Harriot's outstanding achievements as a mathematician others consider why he has never received the recognition accorded to his great contemporary Galileo others again examine his association with his entrepreneurial patron Walter Ralegh and his contributions to the intensely practical world of exploration and seamanship as exemplified in his voyage to the coast of present day North Carolina in 1585 The volume adds significantly to our understanding of a true Renaissance man who wrote accomplished Latin earned the respect of Europe's leading mathematicians and astronomers and moved easily in circles close to the English court and whose Brief and true report of the new found land of Virginia 1588 was the first detailed description of America to be published in the English language Walter Ralegh's History of the World and the Historical Culture of the Late Renaissance Nicholas Popper, 2012-11-02 Imprisoned in the Tower of London after the death of Queen Elizabeth in 1603 Sir Walter Ralegh spent seven years producing his massive History of the World Created with the aid of a library of more than five hundred books that he was allowed to keep in his guarters this incredible work of English vernacular would become a best seller with nearly twenty editions abridgments and continuations issued in the years that followed Nicholas Popper uses Ralegh's History as a touchstone in this lively exploration of the culture of history writing and historical thinking in the late Renaissance From Popper we learn why early modern Europeans ascribed heightened value to the study of the past and how scholars and statesmen began to see historical expertise as not just a foundation for political practice and theory but as a means of advancing their power in the courts and councils of contemporary Europe The rise of historical scholarship during this period encouraged the circulation of its methods to other disciplines transforming Europe's intellectual and political regimes More than a mere study of Ralegh's History of the World Popper's book reveals how the methods that historians devised to illuminate the past structured the dynamics of early The New Cambridge Bibliography of English Literature: Volume 1, 600-1660 George modernity in Europe and England Watson, Ian Roy Willison, 1974-08-29 More than fifty specialists have contributed to this new edition of volume 1 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries *Proceedings of the British* Academy British Academy, 1918 Seamus Heaney and the Emblems of Hope Karen Marguerite Moloney, 2007 Explores

The Two Walter Raleighs Fred B. Tromly,2018-12-10 Sir Walter Raleigh s biographers have given little attention to his tragic relationship with his son Wat Walter They began in proud identification each seeing himself in the other But after the father s political downfall and imprisonment for treason he lost his authority in the family and the son began to reject paternal advice and his studies and to engage in violent quarrels and duels Often the father used his influence to rescue his son from his rash acts Things came to a head after Wat was sued by a young woman for violent assault and imprisoned The aged Raleigh had been freed from the Tower to lead an expedition to Guiana and as recently discovered documents reveal he delivered his son from the law by commissioning him as a captain on his flagship ominously named the Destiny In a shared tragedy Wat was killed in a skirmish and the grieving Raleigh returned to England broken in spirit and ready for the execution that awaited him The History of the World, in Five Books Walter Raleigh,1736 Treasures: The Special Collections of the University of Wales Trinity Saint David John Morgan-Guy,2022-07-15 Many of the selected volumes are extremely rare and in some cases believed to be unique survivors The selected volumes cover over seven hundred years of the history of the book It is published to mark the bicentenary of the University of Wales Trinity Saint David 1822 2022

Borlik, 2011-05-11 In this timely new study Borlik reveals the surprisingly rich potential for the emergent green criticism to yield fresh insights into early modern English literature Deftly avoiding the anachronistic casting of sixteenth and seventeenth century authors as modern environmentalists he argues that environmental issues such as nature s personhood deforestation energy use air quality climate change and animal sentience are formative concerns in many early modern texts The readings infuse a new urgency in familiar works by Shakespeare Sidney Spenser Marlowe Ralegh Jonson Donne and Milton At the same time the book forecasts how ecocriticism will bolster the reputation of less canonical authors like Drayton Wroth Bruno Gascoigne and Cavendish Its chapters trace provocative affinities between topics such as Pythagorean ecology and the Gaia hypothesis Ovidian tropes and green phenomenology the disenchantment of Nature and the Little Ice Age and early modern pastoral poetry and modern environmental ethics It also examines the ecological onus of Renaissance poetics while showcasing how the Elizabethans sense of a sophisticated interplay between nature and art can provide a precedent for ecocriticism's current understanding of the relationship between nature and culture as mutually constructive Situating plays and poems alongside an eclectic array of secondary sources including herbals forestry laws husbandry manuals almanacs and philosophical treatises on politics and ethics Borlik demonstrates that Elizabethan and Jacobean authors were very much aware of and concerned about the impact of human beings on their natural surroundings **Nature** Marie Addyman, 2021 A journey through texts on about or reflecting our experience of the natural world The Historical Revolution (Routledge Revivals) Frank Smith Fussner, 2010-10-04 First published in 1962 Frank Smith Fussner's introduction to the revolution in English
