*The Evangelical Rhetoric of Ramon Llull* Mark D. Johnston, 1996-02-29 Ramon Llull 1232-1316 born on Majorca was one of the most remarkable lay intellectuals of the thirteenth century He devoted much of his life to promoting missions among unbelievers the reform of Western Christian society and personal spiritual perfection He wrote over 200 philosophical and theological works in Catalan Latin and Arabic Many of these expound on his Great Universal Art of Finding Truth an idiosyncratic dialectical system that he thought capable of proving Catholic beliefs to non-believers This study offers the first full length analysis of his theories about rhetoric and preaching which were central to his evangelizing activities It explains how Llull attempted to synthesize commonplace advice about courtly speech and techniques of popular sermons into a single program for secular and sacred eloquence that would necessarily promote love of God and neighbor Llull's work is a remarkable testimony to the diffusion of clerical culture among educated lay people of his era and to their enthusiasm for applying that knowledge in pursuit of learning and piety This book should find a place on the shelf of every scholar of medieval history religion and rhetoric Ilan Ramon Tanya Lee Stone, 2003-01-01 A biography of Israeli astronaut Ilan

Ramon who died in the explosion of the space shuttle Columbia on February 1, 2003 **Why the Ramones Matter** Donna Gaines, 2018-10-02 Unequivocally fresh and engrossing Even the biggest fans will find something new to enjoy here Razorcake The central experience of the Ramones and their music is of being an outsider an outcast a person who's somehow defective and the revolt against shame and self-loathing The fans argue Donna Gaines got it right away from their own experience of alienation at home at school on the streets and from themselves This sense of estrangement and marginality permeates everything the Ramones still offer us as artists and as people Why the Ramones Matter compellingly makes the case that the Ramones gave us everything they saved rock and roll modeled DIY ethics and addressed our deepest collective traumas from the personal to the historical **Audionarratology** Jarmila Mildorf, Till Kinzel, 2016-04-25 Audionarratology is a new postclassical narratology that explores interfaces of sound voice music and narrative in different media and across

disciplinary boundaries Drawing on sound studies and transmedial narratology audionarratology combines concepts from both while also offering fresh insights Sound studies investigate sound in its various manifestations from disciplinary angles as varied as anthropology history sociology acoustics articulatory phonetics musicology or sound psychology Still a specifically narrative focus is often missing Narratology has broadened its scope to look at narratives from transdisciplinary and transmedial perspectives However there is a bias towards visual or audio visual media such as comics and graphic novels film TV hyperfiction and pictorial art The aim of this book is to foreground the oral and aural sides of storytelling asking how sound voice and music support narrative structure or even assume narrative functions in their own right It brings together cutting edge research on forms of sound narration hitherto neglected in narratology radio plays audiobooks audio guides mobile phone theatre performance poetry concept albums digital stories computer games songs

*Ramon Llull as a Vernacular Writer* Lola Badia,Joan Santanach i Suñol,Albert Soler i Llopart,2016 The authors maintain that Llull was an atypical scholar because he enjoyed a form of access to knowledge that differed from the norm and because he organized the production and dissemination of his writings in a creative and unconventional fashion Ramon Llull 1232 1316 mystic missionary philosopher and author of narrative and poetry wrote both in Latin and in the vernacular claiming he had been given a new science to unveil the Truth This book shows why his Latin and vernacular books cannot be read as if they had been written in isolation from one another Llull was an atypical scholar because he enjoyed a form of access to knowledge that differed from the norm and because he organized the production and dissemination of his writings in a creative and unconventional fashion At a time when learned texts and university culture were conveyed for the most part using the vehicle of Latin he wrote a substantial proportion of his theological and scientific works in his maternal Catalan while at the same time he was deeply involved in the circulation of such works in other Romance languages These circumstances do not preclude the fact that a considerable number of the titles comprising his extensive output of more than 260 works were written directly in Latin or that he had various books which were originally conceived in Catalan subsequently translated or adapted into Latin Lola Badia is a professor in the Catalan Philology Departament at the University of Barcelona Joan Santanach is Lecturer of Catalan Philology at the
