J. A. Mangan, 1988 The study of the European Union has historically been a theoretical battleground Since the 1990s new theoretical directions such as neo institutionalism multi level governance and constructivism have provided a new impetus However despite these new inroads empirical work has often remained sociologically and empirically underspecified This volume seeks to bridge the gap between theory and fieldwork by developing an actor centred political sociology In doing so the volume engages in a critical dialogue with the constructivist framework and proposes to build on its insights through a sociological hardening centred on European actors The renewal of European studies through political sociology is only useful if it generates new understandings through empirical observation This volume seeks to take a new tack on constructivism by asking what it is that Europe constructs by looking at three areas social spaces and professions policy problems and policies and policy instruments such as the Eurobarometer Aritha Van Herk, 2010-01-12 The fifth title in our provincial histories series Mavericks is an idiosyncratic and episodic history of what is arguably Canada's most unconventional province From mapmakers to ranchers Stampede Wrestling to Stockwell Day acclaimed writer Aritha van Herk brings the drama and combative beauty of this irascible province to stunning life van Herk s portrait of her home province embraces all its extremes from deadly and spectacular weather to dinosaur graveyards and from oil gushers and geysers to barnstorming social reformers and political haymakers Bronc riders of boom and bust Alberta s people are a beguiling mixture of opinionated extremists hardy pioneers and gentle sinners Alberta is a province that most Canadians simply don t understand the province most Canadians love to hate It is regarded as a land of reckless redneck and ignorant individualists But it is also the province where the Famous Five fought the landmark Person s Case giving Canadian women the same status as men in the eyes of the law a province that truly believes in free speech Albertans tolerate in their midst people whose extreme views on any manner of subjects would make them outcasts elsewhere And

Bowman, 2016-05-20 Blood Oranges traces the origins Muriel Stanley Venne Cora I Voyageur and legacy of racial differences between Anglo Americans and ethnic Mexicans Mexican nationals and Mexican Americans in the South Texas borderlands in the twentieth century Author Tim Bowman uncovers a complex web of historical circumstances that caused ethnic Mexicans in the region to rank among the poorest least educated and unhealthiest demographic in the country The key to this development Bowman finds was a modern colonization movement a process that had its roots in the Mexican American war of the nineteenth century but reached its culmination in the twentieth century South Texas in Bowman's words became an internal economy just inside of the US Mexico border Beginning in the twentieth century Anglo Americans consciously transformed the region from that of a culturally Mexican space with an economy based on cattle into one dominated by commercial agriculture focused on citrus and winter vegetables As Anglos gained political and economic control in the region they also consolidated their power along racial lines with laws and customs not unlike the

Jim Crow system of southern segregation Bowman argues that the Mexican labor class was thus transformed into a marginalized racial caste the legacy of which remained in place even as large scale agribusiness cemented its hold on the regional economy later in the century Blood Oranges stands to be a major contribution to the history of South Texas and borderland studies alike Mother Earth vs Corporate Greed Kempton Olney, 2024-04-08 Discover the Heart and Soul of America's Farmland In the epic saga of Mother Earth vs Corporate Greed the narrative unfolds through the eyes of the Kennedy family whose legacy of ranching and farming brings to life the untold struggles and triumphs of America's farmers and ranchers This tale is more than just a story it s a deep dive into the betrayal of these steadfast guardians of the land at the hands of corrupt government programs and unbridled corporate avarice At the heart of this compelling book is the emotional connection to the land a bond forged through generations epitomized by Howard and Dorothy Kennedy's legacy This bond is tested as they navigate the treacherous waters of modern agriculture pitted against the might of external pressures Their story is a beacon of motivation prompted by the urgent need to expose these ordeals and advocate for change From the humble beginnings at the Kennedy Ranch to the relentless battle against the tides of change and exploitation readers are taken on a journey through the daily life traditions and survival strategies of a family deeply rooted in the heart of America's agricultural heritage Challenges from government policies corporate interests and climate change are woven into personal anecdotes highlighting the larger picture of an industry in crisis Yet amidst these struggles there emerges a powerful message of resilience community support and hope for the future Explore chapters devoted to the advocacy for environmental sustainability the importance of preserving water rights the fight against GMOs the balance between technology and tradition and the empowerment of consumers to make ethical choices Witness how education community building and a strong adherence to ethical practices in farming and ranching play a pivotal role in steering the future of sustainable agriculture This book is more than a testament to the trials and tribulations of a way of life under siege it is a call to action a plea for the reader to stand in solidarity with those who feed our nations to support sustainable ethical farming and to ensure a thriving future for America's heartland Dive into the Kennedy's story and emerge empowered enlightened and ready to make a difference The Prairie West: Historical Readings R.
