

Random Thoughts are stray thoughts. It is also called automatic semantic memories that may or may not hold a deep seated meaning.

Are you doing the right thing by doing nothing?

McDonalds have 'Happy meals'. Do they keep 'Sad meals' too?

You can call someone and tell them 'you cannot call now'

Life is not by chance and choice, rather it is by change

If you enjoy wasting time then it cannot be a 'wasted time'

We say noses run but they are fixed in one place. How is it possible?

The Mind Gateway Lucy Mambu, 2020-05-29 Life is a battleground. Every single one of us will face difficult times. It is war. And the war is intense. Challenges and hurdles are part of everyday life. Problems and difficulties are companions of every human being. It is a fact that as long as we are walking through this journey called life, we are bound to face challenges and fight battles. It is the fight to win, to overcome the challenges and crossover the obstacles that leave us journeying through life with a dysfunctional and skewed mindset. When we encounter painful experiences, the pain sinks deep into the brain. When this happens, the painful memories outweigh the happy memories in the vortex of the mind. This book is written to help you know that through the transformation of the mind, you have the power in your hands to turn your circumstances around for your good. It's all in the mind, and our mindset is everything. Our brains are programmed to think in a certain way, and we as human beings have the power to reprogram our mind to think the way we want it to think, break out of mental imprisonment, win the battles of the mind, and ultimately become success-conscious.

Shift Your Thinking Dean Del

Sesto,2015-12-29 In the battleground of the mind many of us are ill equipped We say we want to grow improve and succeed but so often we silently and effectively kill our own dreams by the things we tell ourselves Shift Your Thinking provides truly unconventional yet highly practical ways to re engineer our thought life and behaviors so we can attain the things we say are

important to us Dean Del Sesto shows busy readers how to make small shifts in their thinking that can have big impacts. These to the point readings will provoke, inspire and move readers to improve all areas of life work and relationships through simple yet critical shifts in the way we govern our thinking. Del Sesto introduces readers to provocative ideas like 'If we were a brand would we buy ourselves or keep shopping?' During tough times in life it's easy to medicate ourselves with distraction. When we begin to think less of what people think of us it is then we are able to think. If we gossiped about ourselves for a week we might never gossip about another again. Don't confuse being a visionary with the ability to actually bring forth a vision. Wisdom is saying enough to prove our point, not our existence. Each principle can be applied instantly to readers' lives making *Shift Your Thinking* a useful, valuable source of inspiration and motivation in a rapidly changing world. Exploring the Mind of God Anil K Rajvanshi, 2021-03-17 This book is an attempt to show how technology guided by spirituality can lead to happiness and in the process may lead to understanding Universal Consciousness or the Mind of God. Dr Anil K Rajvanshi had been writing on these issues for the last 15-20 years. He has published articles on this subject in Times of India, Speaking Tree, Huffington Post, Thrive Global and in many news lines as syndicated articles. He has now put together most of these articles in this book. The book is divided into three sections. The first section is on how to make the mind powerful so that inner peace results. A happy and contented mind then sees the world accordingly. The second section is on how to improve the environment through technology so it becomes livable and sustainable. No matter how contented the mind is its power is enhanced many times if it encounters a pleasant, healthy and sustainable environment. And the last section is about exploring space, the last frontier which he believes can help in joining the individual with the Universal Consciousness and understanding the mind of God. Dr Rajvanshi believes that the Mantra of India's and world development should be spirituality with high technology. In this belief he has been inspired by Patanjali's Yoga Darshan where Sage Patanjali has shown that a Yogi by gaining supernatural powers to overcome the vagaries of nature can accelerate his path to liberation and achieving everlasting happiness. *Faithful Intellect* Neil Semple, 2005-01-28 In 1850 Samuel Nelles, a well educated Methodist minister, was selected to resuscitate the debt-ridden and declining Victoria University. As principal and later as president and chancellor he fought against shortsighted government educational policies while making the school into one of the premier universities in Canada. A true academic, Nelles believed in the importance of testing, assumed laws, dogmas and creeds. However, his pursuit of intellectual inquiry was always guided by a rational faith in God as well as the expectation of the future greatness and goodness of humanity. *Faithful Intellect* expands the reader's understanding of many of the key intellectual, religious and political concerns of nineteenth century English Canada while providing an essential contribution to the study of Canada's system of higher education.
