Rape and Representation Lynn A. Higgins, Brenda R. Silver, 1991 Rape does not have to happen

The fact that it does and in the United States a rape is reported every six minutes indicates that we live in a rape prone culture where rape or the threat of rape functions as a tool for enforcing sexual difference and hierarchy Rape and Representation explores how cultural forms construct and reenforce social attitudes and behaviors that perpetuate sexual violence The essays proceed from the observation that literature not only reflects but also contributes to what a society believes about itself Fourteen essays by authors in the fields of English American and African American German African Brazilian Classical and French literatures and film present a wide range of texts from different historical periods and cultures Contributors demythologize patriarchal representation in literature and art in order to show how it makes rape seem natural and inevitable Contributors include the editors John J Winkler Patricia Klindiest Joplin Susan Winnett Ellen Rooney Copp lia Kahn Eileen Julien Marta Peixoto Kathryn Gravdal Carla Freccero Nellie V McKay Nancy A Jones and Froma I Zeitlin Their work raises pressing and often difficult questions for feminist criticism

Using NIBRS Data to Analyze Violent Crime

Brian A. Reaves,1993 *How to Solve the Race Problem* ,1904 In the Shadow of the Black Beast Andrew B.

Leiter,2010-05 Andrew B Leiter presents the first book length study of the sexually violent African American man or black beast as a composite literary phenomenon According to Leiter the black beast theme served as a fundamental link between the Harlem and Southern Renaissances with writers from both movements exploring its psychological cultural and social ramifications Indeed Leiter asserts that the two groups consciously engaged one another s work as they struggled to define roles for black masculinity in a society that viewed the black beast as the raison d tre for segregation Leiter begins by tracing the nineteenth century origins of the black beast image and then provides close readings of eight writers who demonstrate the crucial impact anxieties about black masculinity and interracial sexuality had on the formation of American literary modernism James Weldon Johnson s *The Autobiography of an Ex Colored Man* Walter White s *The Fire in the Flint* George Schuyler s *Black No More* William Faulkner s *Light in August* Margaret Mitchell s *Gone with the Wind* Allen Tate s *The Fathers* Erskine Caldwell s *Trouble in July* and Richard Wright s *Native Son* as well as other works provide strong evidence that perceptions of black male sexual violence shaped segregation protest traditions and the literature that arose from them Leiter maintains that the environment of southern race relations which allowed such atrocities as the Atlanta riot of 1906 numerous lynchings Virginia s Racial Integrity Act and the Scottsboro trials influenced in part the development of both the Harlem and Southern Renaissances While the black beast image had the most pernicious impact on African American individual and communal identities he says the threat of black masculinity also shaped concepts of white national and communal identities as well as white femininity and masculinity In the Shadow of the Black Beast signals a fresh interpretation of a literary stereotype within its social and historical context

Media and Propaganda in an Age of Disinformation Nelson Ribeiro, Barbie Zelizer, 2025-03-19 A critical and timely collection that argues for the centrality of propaganda in discussions about the contemporary media landscape and its informational ecosystems This book explores how propaganda a foundational concept within media and communication studies has recently been replaced by alternative terms disinformation misinformation and fake news that fail to capture the continuities and disruptions of ongoing strategic attempts to misguide public opinion Edited by Nelson Ribeiro and Barbie Zelizer the collection highlights how these concepts must be understood as part of a long legacy of propaganda and not just as new phenomena that have emerged in the context of the digital media environment Chapters explore the strategies and effects of propaganda through a variety of globally diverse case studies featuring both democracies and autocratic regimes and highlight how only by understanding propagandistic forms and strategies can we fully begin to understand how public opinion is being molded today by those who resort to deception and falsehood to gain or keep hold of power An important resource for students and scholars of media and communication studies and those who are studying and or researching media and propaganda media and power disinformation fake news and political communication The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
