Rape Victim Clinical And Community Interventions:

The Rape Victim Mary P. Koss, Mary R. Harvey, 1991-04 Rape is an all too familiar event in many women's lives. But what is being done to prevent its occurrence? How do victims deal with the trauma of rape? How are local agencies dealing with the increase of victims? How effective are available treatment programs? From the causes of rape to its lingering effects from disclosure to treatment, *The Rape Victim* offers the most complete examination to date on this most heinous crime. The authors address the trauma of rape prevention, rape as a community issue, rape crisis centers, rape clinical treatment of rape victims, and group treatment for survivors. Psychologists, mental health professionals, social workers, criminologists, nurses, and counselors will benefit from the wealth of information contained in this impressive volume. Particularly recommended as supplemental reading for college programs on women's and social issues. *The Midwest Book Review* Excellent on incidence of rape, why federal statistics are flawed, the impact of rape on the victim, how society responds, how rape crisis centers evolved, offers empowerment and the best model for change, and how to lessen the trauma of rape. Techniques for therapeutic treatment are discussed, including group treatment for survivors. *The Women's Advocate*

The Trauma of Sexual Assault Jenny Petrak, Barbara Hedge, 2003-07-07 The psycho-social needs of victims of rape and sexual assault are increasingly recognised, and there is a need for a critical synthesis of knowledge and practice to support the development of training and best practice in the mental health and sexual health professions. *The Trauma of Sexual Assault* provides an understanding of the theoretical underpinning of the wide range of clinical problems that can follow sexual assault. Focusing on adult victims of sexual assault, this book brings together research findings, theoretical perspectives, and implications for treatment, longer term management, and future policy. The first text to consider the psychological impact of sexual assault on women and men. Incorporates a comprehensive flow-through model of psychological and social management from the initial presentation of the assaulted person onwards. A much needed reference accessible to a wide range of professionals. Part of the Wiley Series in Clinical Psychology. *The Criminal Justice and Community Response to Rape*

Joel Epstein, Stacia Langenbahn, 1994 Describes recent reforms adopted in some jurisdictions such as protecting the anonymity of the victim, allowing complainants to report sexual assault even when the victim chooses not to press charges. Law enforcement officials, district attorneys have worked to support compensation for victims, also have created victim witness advocate positions to help victims navigate the criminal justice process, speed their recovery. Contains a glossary, resources, tables. **Rape Work** Patricia Yancey Martin, 2013-01-11 Despite the proliferation of rape crisis centers and other improvements in the treatment of rape victims over the past 20 years, many victims still find themselves the victims of what has been called a second rape by doctors, lawyers, judges, police, and administrators that process them. This book takes a critical look at the organizations and officials that process rape victims to see how the structure of their respective organizations often prevents them from providing responsive care. *Just Sex?* Nicola Gavey, 2013-10-14 Winner of the

Women, Rape and Justice Jan Jordan, 2022-03-14 Is justice possible for a woman raped in contemporary patriarchal culture? This book explores one of the major conundrums of our time given all the feminist activism and reforms of the last 50 years: why does rape remain so prevalent and justice so elusive? In exploring these questions, Jan Jordan takes us back into the patriarchal origins of our rape culture in order to trace the connections between past laws and current justice realities. Her examination covers developments in police and court processes and explores the connections between men, masculinity and rape before considering the scope of rape prevention. She argues the need for urgent transformation of the rape-condoning cultures that currently make it impossible for rape prevalence to abate or for rape victims to receive justice.

Current Perspectives on Sex Crimes Ronald M. Holmes, Stephen T. Holmes, 2002 A combination of reprinted articles most published during the past two years and original contributions solicited for the anthology offer a snapshot of the criminal justice understanding of various crimes relating to or involving sex. Embodiment and Experience Thomas J. Csordas,1994-11-17 Students of culture have been increasingly concerned with the ways in which cultural values are inscribed on the body These essays go beyond this passive construal of the body to a position in which embodiment is understood as the existential condition of cultural life From this standpoint embodiment is reducible neither to representations of the body to the body as an objectification of power to the body as a physical entity or biological organism nor to the body as an inalienable centre of individual consciousness This more sensate and dynamic view is applied by the contributors to a variety of topics including the expression of emotion the experience of pain ritual healing dietary customs and political violence Their purpose is to contribute to a phenomenological theory of culture and self an anthropology that is not merely about the body but from the body *Handbook of Women, Stress and Trauma* Kathleen A. Sexual Violence and Restorative Justice Marie Keenan, Estelle Zinsstag, 2023-02-10 Concerned by the high attrition rates for sexual crime and the secondary victimization experienced by victims during their participation in the criminal justice system this book analyses the extent to which restorative justice can address the justice gap that exists in current justice provision Building on clinical experience and earlier research on sexual crime the authors engage with the complex dynamics and traumatic impact of sexual crime as a critical starting point for their research and examine whether restorative justice can contribute to a more enhanced justice response The book presents extensive new data on restorative justice as applied in sexual violence cases across the globe It engages with feminist concerns regarding the traumatic impact of sexual violence and the potential for re-traumatisation the power imbalances that characterise these offences and the potential for re-victimisation the potential for coercion of the victim to participate in the process the potential for manipulation of restorative justice by the offender and the potential that restorative justice could lead to the reprivatisation of sexual crime and ultimately to its decriminalisation Having examined these topics in detail the book concludes there is an important role for restorative justice in addressing the justice gap that exists after sexual crime and offers guidance on how this can be achieved
