The British Library General Catalogue of Printed Books, 1986 to 1987 British Library, 1988 The Case for Identity Politics Christopher T. Stout, 2020-09-15 Following the defeat of Hillary Clinton in the presidential election of 2016 many prominent scholars and political pundits argued that a successful Democratic Party in the future must abandon identity politics While these calls for Democrats to distance themselves from such strategies have received much attention there is scant academic work that empirically tests whether nonracial campaigns provide an advantage to Democrats today As Christopher Stout explains those who argue for deracialized appeals to voters may not be considering how several high profile police shootings and acquittals increasing evidence of growing racial health and economic disparities retrenchments on voting rights and the growth of racial hate groups have made race a more salient issue now than in the recent past Moreover they fail to account for how demographic changes in the United States have made racial and ethnic minorities a more influential voting bloc The Case for Identity Politics finds that racial appeals are an effective form of outreach for Democratic candidates and enhance rather than detract from their electability in our current political climate Classical and Contemporary Sociological Theory Scott Appelrouth, Laura Desfor Edles, 2020-08-13 The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award enabling graduate students and early career faculty to attend the annual ASA pre conference teaching and learning workshop Now available for the first time in print and e book formats Classical and Contemporary Sociological Theory Text and Readings offers students with the best of both worlds carefully edited excerpts from the original works of sociology's key thinkers accompanied by an analytical framework that discusses the lives ideas and historical circumstances of each theorist This unique format enables students to examine compare and contrast each theorist's major themes and concepts In the Fourth Edition of this bestseller examples from contemporary life and a rich variety of updated pedagogical tools tables figures discussion questions and photographs come together to illuminate complex ideas for today's readers Included with this title The password protected Instructor Resource Site

Can war ever be just By what right do we charge people with war crimes Can war itself be a crime What is a good peace treaty Since the Cold War ended in the early 1990s many wars have erupted inflaming such areas as the Persian Gulf Central Africa and Central Europe Brutalities committed during these conflicts have sparked new interest in the ethics of war and peace Brian Orend explores the ethics of war and peace from a Kantian perspective emphasizing human rights protection the rule of international law and a fully global concept of justice Contending that Kant's just war doctrine has not been given its due Orend displays Kant's theory to its fullest impressive effect He then completely and clearly updates Kant's perspective for application to our time Along the way he criticizes pacifism and realism explores the nature of human rights protection during wartime and defends a theory of just war He also looks ahead to future developments in global institutional reform using cases from the Persian Gulf War Somalia Bosnia and Rwanda to illustrate his argument Controversial and timely perhaps the most important contribution War and International Justice A Kantian Perspective makes is with regard to the question of justice after war Orend offers a principled theory of war termination making an urgent plea to reform current international law

Personal Selling; Behavioral Science Readings and Cases James H. Bearden, 1967 Bowker's Law Books and Serials in Print, 1998 Monthly Bulletin of the Public Library of the District of Columbia, 1913 Reclaiming Reality Roy Bhaskar, 2010-10-25. Originally published in 1989, *Reclaiming Reality* still provides the most accessible introduction to the increasingly influential multi disciplinary and international body of thought known as critical realism. It is designed to underlabour both for the sciences especially the human sciences and for the projects of human emancipation which such sciences may come to inform and provides an enlightening intervention in current debates about realism and relativism, positivism and poststructuralism, modernism and postmodernism etc. Elaborating his critical realist perspective on society, nature, science and philosophy itself, Roy Bhaskar shows how this perspective can be used to undermine currently fashionable ideologies of the Right and at the same time to clear the ground for a reinvigorated Left. *Reclaiming Reality* contains powerful critiques of some of the most important schools of thought and thinkers of recent years from Bachelard and Feyerabend to Rorty and Habermas and it advances novel and convincing resolutions of many traditional philosophical problems. Now with a new introduction from Mervyn Hartwig, this book continues to provide a straightforward and stimulating introduction to current debates in philosophy and social theory for the interested lay reader and student alike. *Reclaiming Reality* will be of particular value not only for critical realists but for all those concerned with the revitalization of the socialist emancipatory project and the renaissance of the Marxist theoretical tradition. Roy Bhaskar is the originator of the philosophy of critical realism and the author of many acclaimed and influential works including *A Realist Theory of Science*, *The Possibility of Naturalism*, *Scientific Realism and Human Emancipation* and *Dialectic: The Pulse of Freedom*. He is an editor of the recently published *Critical Realism: Essential Readings* and is currently chair of the Centre for Critical Realism. **American Book Publishing Record**, 1988 **Monthly Bulletin of the Public Library of the District of Columbia** District of Columbia.
