Los Angeles Downtown America:

The New American Majority, Koreatown, Los Angeles Shelley Sang-Hee Lee, 2022-06-14 The story of how one ethnic neighborhood came to signify a shared Korean American identity At the turn of the twenty first century Los Angeles County's Korean population stood at about 186 000 the largest concentration of Koreans outside of Asia Most of this growth took place following the passage of the Hart Celler Act of 1965 which dramatically altered US immigration policy and ushered in a new era of mass immigration particularly from Asia and Latin America By the 1970s Korean immigrants were seeking to turn the area around Olympic Boulevard near downtown Los Angeles into a full fledged Koreatown and over the following decades they continued to build a community in LA As Korean immigrants seized the opportunity to purchase inexpensive commercial and residential property and transformed the area to serve their community's needs other minority communities in nearby South LA notably Black and Latino working class communities faced increasing segregation urban poverty and displacement Beginning with the early development of LA's Koreatown and culminating with the 1992 Los Angeles riots and their aftermath Shelley Sang Hee Lee demonstrates how Korean Americans' lives were shaped by patterns of racial segregation and urban poverty and legacies of anti Asian racism and orientalism Koreatown Los Angeles tells the story of an American ethnic community often equated with socioeconomic achievement and assimilation but whose experiences as racial minorities and immigrant outsiders illuminate key economic and cultural developments in the United States since 1965 Lee argues that building Koreatown was an urgent objective for Korean immigrants and US born Koreans eager to carve out a spatial niche within Los Angeles to serve as an economic and social anchor for their growing community More than a dot on a map Koreatown holds profound emotional significance for Korean immigrants across the nation as a symbol of their shared bonds and place in American society *The Rough Guide to Los Angeles* Jeff Dickey, 2003 Fully updated this irreverent guide to the City of Angels focuses on both the major tourist destinations as well as lesser known gems and curiosities A colour photograph section brings the city's highlights to life from the Hollywood Hills to Santa Monica Boulevard Each chapter gives detailed coverage of each area's attractions from accommodation and restaurants to galleries shops sports activities and child oriented diversions There are also feature articles on such subjects as Hollywood LA on film architecture and LA people The Rebirth of the American City United States. Congress. House. Committee on Banking, Currency and Housing, 1976 Cinema between Latin America and Los Angeles Colin Gunckel, Jan-Christopher Horak, Lisa Jarvinen, 2019-02-08 Historically Los Angeles and its exhibition market have been central to the international success of Latin American cinema Not only was Los Angeles a site crucial for exhibition of these films but it became the most important hub in the western hemisphere for the distribution of Spanish language films made for Latin American audiences Cinema between Latin America and Los Angeles builds upon this foundational insight to both examine the considerable ongoing role that Los Angeles played in the history of Spanish language cinema and to explore the implications of this transnational

dynamic for the study and analysis of Latin American cinema before 1960 The volume editors aim to flesh out the gaps between Hollywood and Latin America American imperialism and Latin American nationalism in order to produce a more nuanced view of transnational cultural relations in the western hemisphere The American Cities and Technology Reader Gerrylynn K.
