Lost Language:

The Lost Language Pasquale De Marco, The American language is in a state of crisis Once the lingua franca of the world English is now losing ground to other languages both at home and abroad In the United States the number of people who speak English as their first language has declined by 10% in the past decade This decline is due to a number of factors including globalization technology and the changing demographics of the United States Globalization has led to the rise of a new form of English known as global English Global English is a standardized and simplified form of English that is easier for people from different cultures to understand As a result global English is increasingly being used as a second language rather than a first language This is having a negative impact on the status of American English as the lingua franca of the world Technology is also having a significant impact on the American language The internet and social media have made it easier for people to communicate with each other across borders and this has led to the spread of new words and phrases that are not always familiar to American English speakers This is making it more difficult for American English speakers to understand each other and it is also leading to the loss of some of the unique features of American English The changing demographics of the United States is another factor that is contributing to the decline of American English The United States is becoming increasingly diverse and this is leading to a greater variety of languages being spoken in the country As a result American English is no longer the only language that is spoken in the United States and this is having a negative impact on its status as the lingua franca of the world The decline of American English is a serious problem It is a threat to our culture and our economy If we want to preserve the American language we need to take action We need to invest in language education and we need to promote the use of American English in all aspects of our lives This book is a call to action It is a call to action to preserve the American language This book will provide an overview of the factors that are contributing to the decline of American English and it will offer some suggestions for how we can reverse this trend If you like this book write a review

Polari - The Lost Language of Gay Men Paul Baker, 2003-09-02 Polari is a secret form of language mainly used by homosexual men in London and other cities during the twentieth century Derived in part from the slang lexicons of numerous stigmatised and itinerant groups Polari was also a means of socialising acting out camp performances and reconstructing a shared gay identity and worldview among its speakers This book examines the ways in which Polari was used in order to construct gay identities linking its evolution to the changing status of gay men and lesbians in the UK over the past fifty years

The Lost Language of Plants Stephen Harrod Buhner, 2002-03-06 Enraged Energized Exultant You won't know how to feel after reading Stephen Harrod Buhner's The Lost Language of Plants This is a devastating expose about how we are polluting our environment with the pharmaceuticals that Western medicine has developed to heal us We are ingesting Prozac Premarin and antibiotics whether we want to or not Yet as we foul air and water with toxic residues we overlook the power of the planet's natural healers stabilizers and chemists plants Buhner sees plants as fully sentient beings adjusting and fine

tuning to the environment just as they have done for the past 500 million years Until recently humans shared the language of plants but increasingly we have lost our ability to communicate with the natural world Buhner shows us a path back to our shamanic roots

BOOK JACKET The Lost Language of Symbolism Harold Bayley, 2000 An Inquiry into the Origin of Certain Letters Words Names Fairy Tales Folklore and Mythologies Bayley spent years gathering knowledge of symbols and emblems from many different areas He has a scholarly command over mythology folklore religious texts and fairy tales from around the world that shows clearly how and why important symbols were used Stories are often cross referenced showing how other diverse cultures from around the world had similar tales A gold mine for any serious researcher reveals knowledge that would otherwise have remained lost or misunderstood

Ecological Perspectives on Language Endangerment and Loss Salikoko S. Mufwene, 2025-07-01 This book discusses various issues arising from the dominant discourse on language endangerment and loss in linguistics Are the terms mother tongue heritage language and ancestral language interchangeable Does a child receiving formal education in a mother tongue different from that of his or her parents lose a culture that he or she should otherwise inherit Is a language separate from the culture in which its speakers evolve and it is being practiced Thus is a population shifting to a dominant language necessarily abandoning its traditional culture ipso facto or is it also reshaping it along with that associated with the new language into a new mixed culture Are cultures intended to be static Must speakers of particular languages be wedded to them in the same way they are to their genes What can we learn about language shift language vitality and human adaptiveness from the protracted history of mankind These and a host of other issues regarding the intertwining of colonization globalization language and culture are discussed in this book inviting linguists and other interested scholars to be critical participants in the current debate

Lost Beyond Telling Richard Howard Stamelman,1990 In seeking to give voice to absent things or lost experiences Richard Stamelman says modern poetry attempts to give absence a shape Loss in his view is both the cause and the subject of the modern poem Fittingly in *Lost beyond Telling* he formulates and develops what he calls a poetics of loss with which he frames his treatment of modern French poetry

Three Introductory Lectures on the Science of Language Friedrich Max Müller,1899 *Ancient Egypt in Africa* David O'Connor,Andrew Reid,2003-08-13 The discipline of Egyptology has been criticised for being too insular with little awareness of the development of archaeologies elsewhere It has remained theoretically underdeveloped For example the role of Ancient Egypt within Africa has rarely been considered jointly by Egyptologists and Africanists Egypt s own view of itself has been neglected views of it in the ancient past in more recent times and today have remained underexposed Encounters with Ancient Egypt is a series of eight books which addresses these issues The books interrelate inform and illuminate one another and will appeal to a wide market including academics students and the general public interested in Archaeology Egyptology Anthropology Architecture Design and History Geographically Egypt is clearly on the African continent yet Ancient Egypt is routinely regarded as a non African cultural form The significance of Ancient Egypt for the rest of Africa is a hotly debated issue with complex ramifications This book considers how Ancient Egypt was dislocated from Africa drawing on a wide range of sources It examines key issues such as the evidence for actual contacts between Egypt and other early African cultures and how influential or not Egypt was on them Some scholars argue that to its north Egypt s influence on Mediterranean civilization was downplayed by western scholarship Further afield on the African continent perceptions of Ancient Egypt were coloured by biblical sources emphasizing the persecution of the Israelites An extensive selection of fresh insights are provided several focusing on cultural interactions between Egypt and Nubia from 1000 BCE to 500 CE developing a nuanced picture of these interactions and describing the limitations of an Egyptological approach to them

The Routledge Handbook of Language Revitalization Leanne Hinton,Leena Huss,Gerald Roche,2018-03-05 The Routledge Handbook of Language Revitalization is the first comprehensive overview of the language

revitalization movement from the Arctic to the Amazon and across continents Featuring 47 contributions from a global range of top scholars in the field the handbook is divided into two parts the first of which expands on language revitalization issues of theory and practice while the second covers regional perspectives in an effort to globalize and decolonize the field The collection examines critical issues in language revitalization including language rights language and well being and language policy language in educational institutions and in the home new methodologies and venues for language learning and the roles of documentation literacies and the internet The volume also contains chapters on the kinds of language that are less often researched such as the revitalization of music of whistled languages and sign languages and how languages change when they are being revitalized The Routledge Handbook of Language Revitalization is the ideal resource for graduate students and researchers working in linguistic anthropology and language revitalization and endangerment

The Aesthetics and Politics of Linguistic Borders Heidi Grönstrand, Markus Huss, Ralf Kauranen, 2019-10-18 This collection showcases a multivalent approach to the study of literary multilingualism embodied in contemporary Nordic literature While previous approaches to literary multilingualism have tended to take a textual or authorship focus this book advocates for a theoretical perspective which reflects the multiplicity of languages in use in contemporary literature emerging from increased globalization and transnational interaction Drawing on a multimodal range of examples from contemporary Nordic literature these eighteen chapters illustrate the ways in which multilingualism is dynamic rather than fixed resulting from the interactions between authors texts and readers as well as between literary and socio political institutions The book highlights the processes by which borders are formed within the production circulation and reception of literature and in turn the impact of these borders on issues around cultural linguistic and national belonging Introducing an innovative approach to the study of multilingualism in literature this collection will be of particular interest to students and researchers in literary studies cultural studies and multilingualism The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The Poetics of Reading Eitel Friedrich Timm, Kenneth Mendoza, 1993 Situates the act of critical reading in the context of poetic aesthetics This volume situates the act of critical reading in the context of poetic aesthetics Running alongside recent post structuralist theories the textuality of such matters as literary discourse history media philosophy and religion has emerged as a focal point of debate in the humanities The essays here examine how questions of the canon genres and transformation of texts challenge the present epistemological situation taking an interdisciplinary approach to textual readings their methodology is drawn from a range of literary figures and critics including Lessing Kafka Walter Benjamin and Derrida The study also addresses the controversial predicament of subjectivity as one of the key terms in current literary and historical scholarship

Unclaimed Experience Cathy Caruth, 2016-12-15 The pathbreaking work that founded the field of trauma studies In Unclaimed

Experience Cathy Caruth proposes that in the widespread and bewildering experience of trauma in our century both in its occurrence and in our attempt to understand it we can recognize the possibility of a history no longer based on simple models of straightforward experience and reference Through the notion of trauma she contends we come to a new understanding that permits history to arise where immediate understanding may not Caruth explores the ways in which the texts of psychoanalysis literature and literary theory both speak about and speak through the profound story of traumatic experience Rather than straightforwardly describing actual case studies of trauma survivors or attempting to elucidate directly the psychiatry of trauma she examines the complex ways that knowing and not knowing are entangled in the language of trauma and in the stories associated with it Caruth's wide ranging discussion touches on Freud's theory of trauma as outlined in *Moses and Monotheism* and *Beyond the Pleasure Principle* She traces the notion of reference and the figure of the falling body in de Man Kleist and Kant the narratives of personal catastrophe in Hiroshima mon amour and the traumatic address in Lecompte's reinterpretation of Freud's narrative of the dream of the burning child In this twentieth anniversary edition of her now classic text a substantial new afterword addresses major questions and controversies surrounding trauma theory that have arisen over the past two decades Caruth offers innovative insights into the inherent connection between individual and collective trauma on the importance of the political and ethical dimensions of the theory of trauma and on the crucial place of literature in the theoretical articulation of the very concept of trauma Her afterword serves as a decisive intervention in the ongoing discussions in and about the field
