Hyne, 2022-09-26 A classic lost race story with all of the required elements a seductive empress a straight arrow hero battles escapes sorcery and earth shattering cataclysms Eminently readable and very entertaining without any profundity to distract a fan of Haggard Aubrey or Janvier style fantasy literature **The Lost Continent of Pan** Susan B. Martinez, 2016-12-15 Reveals the Pacific Ur culture that seeded the ancient civilizations of China Egypt India Mexico and Peru Shows how the Pan diaspora explains the similarities between Gobekli Tepe and Toltec carvings and stone towers in Japan and on Easter Island Reveals the mother tongue of Pan hidden in shared word roots in vastly different languages including Quechua Sanskrit Japanese Greek and Sumerian Explains the red haired Caucasian mummies of China the Ainu of Japan the presence of white humans in early Native American legend and other light skinned peoples found in Southeast Asia and the Middle East The destruction of the vast continent of Pan also known as Lemuria or Mu in the Pacific Ocean 24 000 years ago was the greatest catastrophe that ever befell humanity Yet it resulted in a prehistoric Golden Age of arts and technology thanks to the Sons of Noah who forewarned and prepared for the disaster escaped in 5 organized fleets Theirs was the masterful Ur culture that seeded China Egypt India Mexico and Peru explaining the sudden injection of the same advanced knowledge and sophisticated arts into those widely separated lands Examining the diaspora from the sunken continent of Pan Susan B Martinez finds traces of the oceanic Pan civilization in arts and technologies from canal works masonry and agriculture to writing weaving and pottery but most importantly in the art of navigation the hallmark of the survivors of the catastrophe Using archaeo linguistic analysis she reveals the mother tongue of Pan hidden in strikingly similar words for royalty deities and important places in vastly different languages including Quechua Maori Sanskrit Japanese Chinese Greek and Sumerian as well as English through the prefix pan which denotes all encompassing The author reveals how the Pan diaspora explains the mound builders on each continent the presence of white humans in Native American legend the red haired mummies found in China and the Ainu of Japan She shares recent genetic studies that reveal Polynesian DNA in central Europeans Mesopotamians South Americans and the 9000 year old Kennewick man and shows how Pan provides the missing link She reveals why carvings at Gobekli Tepe are similar to Toltec artistry why stone towers in Japan and Easter Island are identical and how the Pacific Ring of Fire was activated Moving the Garden of Eden from the Fertile Crescent to the South Seas Martinez strikes down the pervasive view of Atlantis as the source of ancient knowledge and exposes the original unity of mankind on the ancient Pacific continent of Pan The Lost Continent of Mu James Churchward, 2007-08 This classic book on the theory of a lost

continent in the Pacific imparts the fascinating travel stories and theories of James Churchward **The Lost Continent** Edgar Rice Burroughs, 2005-11-01 I could not repress a sigh at the thought of the havoc war had wrought in this part of England at least Farther east nearer London we should find things very different There would be the civilization that two centuries must have wrought upon our English cousins as they had upon us There would be mighty cities cultivated fields happy people There we would be welcomed as long lost brothers There would we find a great nation anxious to learn of the world beyond their side of thirty as I had been anxious to learn of that which lay beyond our side of the dead line Edgar Rice Burroughs created one of the most iconic figures in American pop culture Tarzan of the Apes and it is impossible to overstate his influence on entire genres of popular literature in the decades after his enormously winning pulp novels stormed the public's imagination The Lost Continent is one of the rarest and least known of Burroughs's thrilling science fiction adventure stories Since its first appearance in the February 1916 issue of All Around Magazine under the title Beyond Thirty it has languished in undeserved obscurity In the year 2137 global civilization has been in decline for nearly two centuries and war ruined Europe is but a distant memory practically a legend to the isolationist United States But one intrepid American traveler is about to rediscover the Old World which has become a startling and savage land in its solitude American novelist EDGAR RICE BURROUGHS 1875 1950 wrote dozens of adventure crime and science fiction novels that are still beloved today including Tarzan of the Apes 1912 At the Earth's Core 1914 A Princess of Mars 1917 The Land That Time Forgot 1924 and Pirates of Venus 1934 He is reputed to have been reading a comic book when he died **The Lost Continent** C. J. Cutcliffe Hyne, 2002-01-01 A fictionalized account of the last days of the doomed island of Atlantis [The Lost Continent](#) Charles John Wright Hyne, 2018-03-10 [Vanished Islands and Hidden Continents of the Pacific](#) Patrick D. Nunn, 2008-10-31 Islands as well as entire continents are reputed to have disappeared in many parts of the world Yet there is little information on this subject concerning its largest ocean the Pacific Over the years geologists have amassed data that point to the undeniable fact of islands having disappeared in the Pacific a phenomenon that the oral traditions of many groups of Pacific Islanders also highlight There are even a few instances where fragments of Pacific continents have disappeared becoming hidden from view rather than being submerged In this scientifically rigorous yet readily comprehensible account of the fascinating subject of vanished islands and hidden continents in the Pacific the author ranges far and wide from explanations of the region's ancient history to the meanings of island myths Using both original and up to date information he shows that there is real value in bringing together myths and the geological understanding of land movements A description of the Pacific Basin and the ups and downs of the land within its vast ocean is followed by chapters explaining how long before humans arrived in this part of the world islands and continents that no longer exist were once present A succinct account is given of human settlement of the region and the establishment of cultural contexts for the observation of occasional catastrophic earth surface changes and their encryption in folklore The author also addresses the persistent myths of a

sunken continent in the Pacific which became widespread after European arrival and were subsequently incorporated into new age and pseudoscience explanations of our planet and its inhabitants Finally he presents original data and research on island disappearances witnessed by humans recorded in oral and written traditions and judged by geoscience to be authentic Examples are drawn from throughout the Pacific showing that not only have islands collapsed and even vanished within the past few hundred years but that they are also liable to do so in the future *Lost Continents & the Hollow Earth* David Hatcher Childress, Richard S. Shaver, 1999 This book is Childress thorough examination of the early hollow earth stories of Richard Shaver and the fascination that fringe fantasy subjects such as lost continents UFOs and the hollow earth have had on people Shaver s rare 1948 book I Remember Lemuria is reprinted in its entirety and the book is packed with illustrations from Ray Palmer s Amazing Stories issues of the 1940s Childress discusses famous hollow earth books and delves deep into whatever reality may be behind the stories of tunnels underground **The Lost Continent of Mu** James Churchward, 1926

The Merkids from the Lost Continents of Atlantis and Lemuria Katherine Snitker, 2013-01-17 Just like in the Indiana Jones movies ride the waves of adventure but this time through the crystal clear waters of Earth s seas and oceans Visit the lost sunken city of Atlantis where the Merkids struggle to save their dying people Then like the wizards of Harry Potter fame watch as the kids from two different worlds use their own astral energy and natural forces of the Universe to work real magic in their attempts to save the day The Lost Continent Charles John Hyne, 2018-02-12 **The Lost Continent** Charles John Cutcliffe Hyne, 2015-02-13 A classic lost race story with all of the required elements a seductive empress a straight arrow hero battles escapes sorcery and earth shattering cataclysms Eminently readable and very entertaining without any profundity to distract a fan of Haggard Aubrey or Janvier style fantasy literature *The Lost Continent Collection* Catherine Asaro, 2007-09-01 Four tales of magic adventure and love by award winning author Catherine Asaro are yours in one great bundle The Lost Continent Collection includes The Charmed Sphere The Misted Cliffs The Dawn Star and The Fire Opal *The Cult of Alien Gods* Jason Colavito, 2010-03-05 Fans of fantasy horror writer H P Lovecraft must add The Cult of Alien Gods H P Lovecraft and Extraterrestrial Pop Culture to their reading lists California Bookwatch Combining literary theory cultural criticism and muckraking Colavito aims to debunk alternative history He does a fair job of presenting his case using a great deal of textual analysis but believers will dismiss it as yet another attempt to suppress the truth while those who haven t been immersed in the literature are likely to be bewildered or indifferent the writing is engaging and the topic intriguing Publishers Weekly Nearly half of all Americans believe in the existence of extraterrestrials and many are also convinced that aliens have visited earth at some point in history Included among such popular beliefs is the notion that so called ancient astronauts visitors from outer space were responsible for historical wonders like the pyramids In The Cult of Alien Gods author Jason Colavito reveals for the first time that the entire genre of ancient astronaut books is based upon fictional horror stories whose author once wrote that he never wished to mislead

anyone In this entertaining and informative book Colavito traces the origins of the belief in ancient extraterrestrial visitors to the work of horror writer H P Lovecraft 1890 1937 This amazing tale takes the reader through fifty years of pop culture and pseudoscience highlighting such influential figures and developments as Erich von D niken Chariots of the Gods Graham Hancock Fingerprints of the Gods Zecharia Sitchin Twelfth Planet and the Raelian Revolution The astounding and improbable connections among these various characters are revealed along with the disturbing consequences of Lovecraft s little joke for modern science and public knowledge Beyond documenting Lovecraft s influence on ancient astronaut theories and Raelian cloning efforts Colavito also argues that the appeal of such modern myths is a troubling sign in an age when science is having its greatest success He suggests that at the dawn of the 21st century Western society is witnessing a deep seated erosion of Enlightenment values that are the basis of the modern world Jason Colavito is a freelance writer and editor who has written for Skeptic magazine among other publications

Mythologies Roland Barthes,1972 No denunciation without its proper instrument of close analysis Roland Barthes wrote in his preface to Mythologies There is no more proper instrument of analysis of our contemporary myths than this book one of the most significant works in French theory and one that has transformed the way readers and philosophers view the world around them
