Piano-Hinged Dissections Greg N. Frederickson, 2006-11-30 A dissection involves cutting a polygon into pieces in such a way that those pieces form another polygon for a hinged dissection the pieces must be attached by hinges A piano hinge is a long narrow hinge with a pin running the entire length of its joint So unlike regular hinged dissections which swing or twist around single point of hinge piano hinged dissections fold along an edge This book discusses the history methods and variations of these dissections and is rich with illustrations that clearly depict the cuts of the dissections and three dimensional simulations of the dissections in the process of being folded The downloadable resources include video recordings of select dissections being transformed accompanies the book
