history in public spaces in the physical ones of various historical times and geographical places as well as in the virtual world. The authors are rooted in specific national contexts Canadian or American Ukrainian or Polish British or Irish German or Luxembourgish Korean or Brazilian and the case studies are varied including large cities and small towns city centers and godforsaken cemeteries but the narratives built on these cases go beyond when they deal with issues such as decoding history and its meanings in public spaces doing history in public spaces and observing changes in manifestations of history in public spaces.
