longstanding strident opposition to the reactionary right These are poignant depictions of issues ranging from the liberation deportation justice for collaborators the return of POWs and food and housing shortages to the postwar role of international institutions colonial injustices and the situation of a free press in democracies The ideas that shaped the vision of this Nobel prize winning novelist and essayist are on abundant display More than half a century after the publication of these writings they have lost none of their force They still speak to us about freedom justice truth and democracy

Dynasties David S. Landes, 2007-09-25 From the author of the New York Times bestseller *The Wealth and Poverty of Nations* a fascinating look at the crossroads of kin and coin David S Landes has earned a reputation as a brilliant writer and iconoclast among economic historians In his latest acclaimed work he takes a revealing look at the quality that distinguishes a third of today's Fortune 500 companies family ownership From the banking fortunes of Rothschild and Morgan to the automobile empires of Ford and Toyota Landes explores thirteen different dynasties revealing what lay behind their successes and how extravagance bad behavior and poor enterprise brought some of them to their knees A colorful history that is full of surprising conclusions *Dynasties* is an engrossing mix of ambition eccentricity and wealth

Automotive Empire Andrew Denning, 2024-07-15 Winner of the 2025 Nicolas Joseph Cugnot Award In *Automotive Empire* Andrew Denning uncovers how roads and vehicles began to transform colonial societies across Africa but rarely in the manner Europeans expected Like seafaring ships and railroads automobiles and roads were more than a mode of transport they organized colonial spaces and structured the political economic and social relations of empire both within African colonies and between colonies and the European metropole European officials in French Italian British German Belgian and Portuguese territories in Africa shared a common challenge the transport problem While they imagined that roads would radiate commerce and political hegemony by collapsing space the pressures of constructing and maintaining roads rendered colonial administration thin ineffective and capricious Automotive empire emerged as the European solution to the transport problem but revealed weakness as much as it extended power As *Automotive Empire* reveals motor vehicles and roads seemed the ideal solution to the colonial transport problem They were cheaper and quicker to construct than railroads overcame the environmental limitations of rivers and did not depend on the recruitment and supervision of African porters At this pivotal moment of African colonialism when European powers transitioned from claiming territories to administering and exploiting them automotive empire defined colonial states and societies along with the brutal and capricious nature of European colonialism itself

Films that Work Vinzenz Hediger, Patrick Vonderau, 2009 Industriële films worden gezien als een apart filmgenre van de twintigste eeuw Ze werden geproduceerd en gesponsord door de overheid en grote bedrijven en moesten vooral aan de wensen van de sponsors voldoen en niet zo zeer aan die van de filmmakers In de hoogtijdagen werkten er duizenden mensen aan deze industriële films Zo zijn er vakbladen en filmfestivals ontstaan door samenwerking met grote bedrijven als Shell en A.T.T. Daarnaast hebben belangrijke regisseurs zoals Buster Keaton John Grierson en Alain Resnais aan deze films meegewerkt Toch lijkt de industriële
