Bell,2012-02-01 Presenting essays rich with her own personal experiences philosopher Linda A Bell examines not only her own life but also problems arising from ways that living affects thinking She reflects on her own experience in order to challenge a variety of provocative claims including that affirmative action harms those it is designed to help that suicide while perhaps acceptable for some with fatal diseases is otherwise a manifestation of mental illness that women are to blame for male violence toward them if they don t leave the relationships that a low profile is the best path to success for women in academe that women are treated fairly in academe perhaps even better than men and that political correctness is a recent and aberrant move away from respect for freedom of speech Although drawing from experience as she creates and critiques theory Bell argues against the view that it is the bedrock of theory *Respectability and Deviance* Ruth-Ellen B. Joeres,1998 The first major study in English of 19th century German women writers this book examines their social and cultural milieu along with the layers of interpretation and representation that inform their writing The author demonstrates that these writings provide an extensive and informative look at an exciting and transformative epoch that so much shaped our own 16 photos **Looking for Love in the Legal Discourse of Marriage** Renata Grossi,2014-09-01 This book examines the in

visibility of romantic love in the legal discourse surrounding modern Australian marriage It looks at how romantic love has become a core part of modernity and a dominant part of the Western marriage discourse and considers how the ideologies of romantic love are or are not replicated in the legal meaning of marriage This examination raises two key issues If love has become central to people s understanding of marriage then it is important for the legitimacy of law that love is reflected in both the content and application of the law More fundamentally it requires us to reconsider how we understand law and to ask whether it is engaged with emotions or separate from them Along the way this book also considers the meaning of love itself in contemporary society and asks whether love is a radical force capable of breaking down conservative meanings embedded in institutions like marriage or whether it simply mirrors them This book will be of interest to everyone working on love marriage and sexuality in the disciplines of law sociology and philosophy *Rethinking Sexuality* Diane Richardson,2000-12-19 This thoughtful and accessible book provides a critical examination of the central debates attached to conceptualizing sexuality as a site of knowledge and politics These are explored in chapters on the meaning of

heterosexuality sexual citizenship and the associated notions of sexual rights and obligations queer theory and its relationship with feminisms both new and old Also included is discussion of responses to the HIV AIDS epidemic and the implications for understandings of gender and sexuality

Social Postmodernism Linda Nicholson, Steven Seidman, 1995-09-14 Social Postmodernism defends a postmodern perspective anchored in the politics of the new social movements The volume preserves the focus on the politics of the body race gender and sexuality as elaborated in postmodern approaches But these essays push postmodern analysis in a particular direction toward a social postmodernism which integrates the micro social concerns of the new social movements with an institutional and cultural analysis in the service of a transformative political vision

Gender and Colonialism Geraldine Moane, 2010-12-14 Drawing on the writings of diverse authors including Jean Baker Miller Bell Hooks Mary Daly Frantz Fanon Paulo Freire and Ignacio Martin Baro as well as on women s experiences this book aims to develop a liberation psychology which would aid in transforming the damaging psychological patterns associated with oppression and taking action to bring about social change The book makes systematic links between social conditions and psychological patterns and identifies processes such as building strengths cultivating creativity and developing solidarity

Feminism, Defeated Kate M. Phelan, 2025-06-09 Feminism has been defeated Once a politics feminism is now a philosophy an epistemology a method Once for women it is now for everyone Once in pursuit of liberation it now seeks only inclusion In *Feminism Defeated* Kate Phelan traces the depoliticization and ultimately the defeat of feminism She recovers the second wave view of men and women as sex classes enemies political kinds a view more radical than the contemporary view of men and women as social constructs She also describes how poststructuralism displaced this view and replaced it with another In this view the sex gender binary constructs men and women and excludes the gender nonconforming As this view replaced the second wave one the injustice of men s oppression of women was replaced by that of exclusion and the goal of women s liberation was replaced by that of inclusion Thus did feminism become the trans inclusionary movement as which we now know it and Phelan shows that this shift was not the progression of feminism it was the betrayal of it In this highly original and persuasive study she argues that the recent emergence of a new gender critical feminism presents a moment of opportunity to reclaim feminism s political project
