Talmey, 1933 **Love: a Treatise on the Science of Sex-attraction**, 1939 Love Bernard S. Talmey, 2015-06-02 Excerpt from Love A Treatise on the Science of Sex Attraction Not only among laymen but also among serious thinkers and writers on medical topics the opinion is generally prevalent that there is a vast difference in the degree of intensity of the sex impulse in men and women Upon this supposition rests the justification of the double standard of sexual morality of the two sexes If the intensity of the amatory emotions is the same in both sexes then there is no justification for a double standard of sexual morality Now an emotion is in its nature subjective Its intensity can never be objectively determined Men and women may dispute the question of the different degree of intensity of the amatory emotions till the end of time still they will never reach a definite conclusion The only way to determine the nature of an emotion is to study its pathology If it can be shown that the same pathological entities of the sex instinct are found in men and women the inference is justified that the normal emotions are also the same or similar in both sexes To prove the similarity or identity of the intensity of the sex impulse in both sexes the author published in the winter of 1906 1907 his book Woman A Treatise on the Normal and Pathological Emotions of Feminine Love Since the publication of Woman he received numerous letters with requests to write a similar treatise on the amatory emotions of men In 1910 the author published Genesis A Manual for the Instruction of Children in Matters Sexual He thought that the Description of the evolution of sex in plant and animal in Genesis might supply the demand Still the requests continued to arrive He then published in 1912 Neurasthenia Sexualis A Treatise on Sexual Impotence in Men and Women About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
