

Dear lovely,

I know we're not together or anything but I just felt like I have to admit it. It's really stupid, it is. And I know <sup>but</sup> there is simply no  way to change my feelings. I don't know if you will ignore this or anything, but I fell in love with you. Simply your laugh, smile, eyes, the way you talk about something you aspire, the kisses you place all over me, the way you wrap your arms around me, your body, your soul, your warmth, your smell. And it gets stronger every time we meet. I fell in love with you, simply because you're you

## Love Letter To Americans:

**Correspondence and American Literature, 1770-1865** Elizabeth Hewitt, 2004-11-25 Elizabeth Hewitt uncovers the centrality of letter writing to antebellum American literature. She argues that many canonical American authors turned to the epistolary form as an idealised genre through which to consider the challenges of American democracy before the Civil War. The letter was the vital technology of social intercourse in the nineteenth century and was adopted as an exemplary genre in which authors from Crèvecoeur and Adams through Jefferson to Emerson, Melville, Dickinson and Whitman could theorise the social and political themes that were so crucial to their respective literary projects. They interrogated the political possibilities of social intercourse through the practice and analysis of correspondence. Hewitt argues that although correspondence is generally only conceived as a biographical archive, it must instead be understood as a significant genre through which these early authors made sense of social and political relations in the nation.

**Girls and Literacy in America** Jane Greer, 2003-05-23 An exploration of the fascinating and controversial history of girls' education in America from the colonial era to the computer age. *Girls and Literacy in America* offers a tour of opportunities, obstacles and achievements in girls' education from the limited possibilities of colonial days to the wide open potential of the Internet generation. Six essays written by historians and focused on particular historical periods examine the extensive range of girls' literacies in both educational and extracurricular settings. Girls from various ethnic and racial backgrounds, social classes, religions and geographic areas of the nation are included. A host of primary documents, including such items as an 18th century hornbook to excerpts from girls' conversations in Internet chat rooms, allow readers an opportunity to evaluate for themselves some of the materials mentioned in the volume's opening essays. And finally, an extensive bibliography will be invaluable to students expected to conduct more extensive primary research.

Edinburgh Companion to Nineteenth-Century American Letters and Letter-Writing Celeste-Marie Bernier, 2016-02-15 Provides a wide ranging entry point and intervention into scholarship on nineteenth century American letter writing. This comprehensive study by leading scholars in an important new field, the history of letters and letter writing, is essential reading for anyone interested in nineteenth century American politics, history or literature. Because of its mass literacy, population mobility and extensive postal system, nineteenth century America is a crucial site for the exploration of letters and their meanings, whether they be written by presidents and statesmen, scientists and philosophers, novelists and poets, feminists and reformers, immigrants, Native Americans or African Americans. This book breaks new ground by mapping the voluminous correspondence of these figures and other important American writers and thinkers. Rather than treating the letter as a spontaneous private document, the contributors understand it as a self-conscious artefact circulating between friends and strangers and across multiple genres in ways that both make and break social ties.
