Tool-Being Graham Harman,2011-08-31 *Tool Being* offers a new assessment of Martin Heidegger s famous tool analysis and with it an audacious reappraisal of Heidegger s legacy to twenty first century philosophy Every reader of *Being and Time* is familiar with the opposition between readiness to hand *Zuhandenheit* and presence at hand *Vorhandenheit* but commentators usually follow Heidegger s wishes in giving this distinction a limited scope as if it applied only to tools in a narrow sense Graham Harman contests Heidegger s own interpretation of tool being arguing that the opposition between tool and broken tool is not merely a provisional stage in his philosophy but rather its living core The extended concept of tool being developed here leads us not to a theory of human practical activity but to an ontology of objects themselves *Tool Being* urges a fresh and concrete research into the secret contours of objects Written in a lively and colorful style it will be of great interest to anyone intrigued by Heidegger and anyone open to new trends in present day philosophy

Love, Loss, and Abjection Melanie Baffes,2016-06-03 This study explores the premise that the experience of being born from above in John s Gospel can be seen as mirroring the development of human subjectivity particularly as understood through the psychoanalytic work of Julia Kristeva It draws specifically on Kristeva s theory of how the human self subject takes shape in infancy her contention that subjectivity is a work in progress and her insistence on abjection as a catalyst for developing selfhood Examining the story of Mary of Bethany as narrated in John 11 12 through this lens this analysis seeks to better understand the concept of new birth and how it relates to being fully human

Bending the Rules in the Quest for an Authentic Female Identity Cristina Santos,2004 The narrative style of both Clarice Lispector and Carmen Boullosa is characterized by a postmodern tendency toward an increased reader participation This is accomplished by a process of liberalizing a pre established socio cultural repertoire with respect to female identity The female protagonists created by Lispector and Boullosa and examined in this book struggle to find their true voices and their real life experiences The resulting literary style of both these authors parallels this struggle subverting traditional narrative structure and utilizing a dialogue that is particularly suited to describe this feminine process

Bodies on the Verge Joseph A. Marchal, 2019-05-24 A collection that resets the terms of interpreting the Pauline letters Interpretation of Paul's letters often proves troubling since people frequently cite them when debating controversial matters of gender and sexuality Rather than focusing on the more common defensive responses to those expected prooftexts that supposedly address homosexuality the essays in this collection reflect the range rigor vitality and creativity of other interpretive options influenced by queer studies Thus key concepts and practices for understanding these letters in terms of history theology empire gender race and ethnicity among others are rethought through queer interventions within both ancient settings and more recent history and literature Features New options for how to interpret and use Paul's letters particularly in light of their use in debates about sexuality and gender Developing approaches in queer studies that help with understanding and using Pauline letters and interpretations differently Key reflections on the two clobber passages Rom 1:26-27 and 1 Cor 6:9 that demonstrate the relevance of a far wider range of texts throughout the Pauline corpus

Applications of Flow in Human Development and Education Mihaly Csikszentmihalyi, 2014-08-08 The third volume of the collected works of Mihaly Csikszentmihalyi covers his work on the application of flow in areas that go beyond the field of leisure where the concept was first applied Based on his personal experience with schooling and learning as well as that of many others and contrary to what Cicero claimed Csikszentmihalyi arrived at the conclusion that instead of taking pride in making the roots of knowledge as bitter as possible we should try to make them sweeter Just as flow became a popular and useful concept in voluntary activities it could likewise be applied in education with the end result of young people being more likely to continue learning not just because they have to but because they want to This volume brings together a number of articles in which Csikszentmihalyi develops ideas about how to make education and more generally the process of learning to live a good life more enjoyable Since theory is the mother of good practice the first eleven chapters are devoted to theoretical reflections Some are general and explore what it means to be a human being what it means to be a person when we look at life from the perspective of flow Others are more narrowly focused on such topics as consumption education teaching and learning They help laypeople reflect how they can arrange their lives in such a way as to leave a small ecological footprint while getting the most enjoyment The second section of the volume contains a dozen empirical articles on similar topics They deal with the development of identity and self worth with the formation of goals and motivation with loneliness and family life
