Motorcycle Race, Barstow, CA to Las Vegas, NV ,1974 **Back to Shared Prosperity: The**

Growing Inequality of Wealth and Income in America Ray Marshall,2015-05-20 To what extent are major social and political problems caused by basic income and unemployment trends Is it possible to restore the kind of broadly shared prosperity the U S once experienced before the early 1970s Some of the top economists of our time address these critical questions **Creating Consilience** Edward Slingerland,Mark Collard,2011-12-21 Calls for a consilient or vertically

integrated approach to the study of human mind and culture have for the most part been received by scholars in the humanities with either indifference or hostility One reason for this is that consilience has often been framed as bringing the study of humanistic issues into line with the study of non human phenomena rather than as something to which humanists and scientists contribute equally The other major reason that consilience has yet to catch on in the humanities is a dearth of compelling examples of the benefits of adopting a consilient approach Creating Consilience is the product of a workshop that brought together internationally renowned scholars from a variety of fields to address both of these issues It includes representative pieces from workshop speakers and participants that examine how adopting such a consilient stance informed by cognitive science and grounded in evolutionary theory would concretely impact specific topics in the humanities examining each topic in a manner that not only cuts across the humanities natural science divide but also across individual humanistic disciplines By taking seriously the fact that science humanities integration is a two way exchange this volume takes a new approach to bridging the cultures of science and the humanities The editors and contributors formulate how to develop a new shared framework of consilience beyond mere interdisciplinarity in a way that both sides can accept **Local**
