**Diabetic Meal Prep for Beginners** Emily Smith, 2021-04-22. Why do you need to develop a healthy eating plan? If you have diabetes or prediabetes your doctor will likely recommend that you see a dietitian to help you develop a healthy eating plan. The plan helps you control your blood sugar, glucose, manage your weight and control heart disease risk factors such as high blood pressure and high blood fats. When you eat extra calories and fat your body creates an undesirable rise in blood glucose. If blood glucose isn't kept in check it can lead to serious problems such as a high blood

glucose level hyperglycemia that if persistent may lead to long term complications such as nerve kidney and heart damage You can help keep your blood glucose level in a safe range by making healthy food choices and tracking your eating habits For most people with type 2 diabetes weight loss also can make it easier to control blood glucose and offers a host of other health benefits If you need to lose weight a diabetes diet provides a well organized nutritious way to reach your goal safely What does a diabetes diet involve A diabetes diet is based on eating three meals a day at regular times This helps you better use the insulin that your body produces or gets through a medication
