A background illustration depicting the evolution of man. It shows a series of figures from left to right, starting with a crouching hominid and progressing through various stages of bipedalism to a modern human. The figures are rendered in a light, sketchy style. In the foreground, on the right, there is a more detailed illustration of a modern human sitting and another standing next to it.

## **Lowly Origin:**

**Lowly Origin** Jonathan Kingdon, 2021-01-12 Our ability to walk on two legs is not only a characteristic human trait but one of the things that made us human in the first place. Once our ancestors could walk on two legs they began to do many of the things that apes cannot do: cross wide open spaces, manipulate complex tools, communicate with new signal systems and light fires. Titled after the last two words of Darwin's *Descent of Man* and written by a leading scholar of human evolution, *Lowly Origin* is the first book to explain the sources and consequences of bipedalism to a broad audience. Along the way it accounts for recent fossil discoveries that show us a still incomplete but much bushier family tree than most of us learned about in school. Jonathan Kingdon uses the very latest findings from ecology, biogeography and paleontology to build a new and up to date account of how four legged apes became two legged hominins. He describes what it took to get up onto two legs as well as the protracted consequences of that step, some of which led straight to modern humans and others to very different bipeds. This allows him to make sense of recently unearthed evidence suggesting that no fewer than twenty species of humans and hominins have lived and become extinct. Following the evolution of two legged creatures from our earliest lowly forebears to the present, Kingdon concludes with future options for the last surviving biped. A major new narrative of human evolution, *Lowly Origin* is the best available account of what it meant and what it means to walk on two feet.

**Origin Africa** Jonathan Kingdon, 2023-07-25 A richly illustrated journey through the evolution of Africa's extraordinary natural world across deep time. *Origin Africa* is a unique introduction to the natural history and evolution of the most misrepresented continent on Earth. Celebrated evolutionary biologist and artist Jonathan Kingdon, a leading expert on the natural history of Africa, tells this extraordinary story as no one else can. Featuring a wealth of photographs and illustrations, the book is both a visual and narrative feast. Africa is the richest continent containing every habitat from desert to tropical forest and the widest range of plants and animals found anywhere. It has experienced extraordinary climate fluctuations, meteor bombardment and cataclysmic volcanic eruptions. Yet life has not only survived but evolved almost countless species. One group of primates evolved out of this crucible and moved out of Africa to dominate every continent on Earth. Africa has properties that ensure that most of human evolution couldn't have occurred anywhere else. A fascinating story told as never before, *Origin Africa* chronicles how the natural conditions of Africa enabled a spectacular evolution of plants and animals, including *Homo sapiens*. *Unveiling Man's Origins (Routledge Revivals)* L. S. B. Leakey, Vanne Morris Goodall, 2014-06-03

Originally published in 1969, the aim of this book is to tell the story of the major discoveries which have been made and the attitude of the world at large to these discoveries during the ten decades since Darwin published *On the Origin of Species* in 1859. For anyone interested in man's past and in understanding the significance of each new discovery relating to human evolution, this reissue will be of great value. [The Qur'an: Text and Commentary, Volume 1](#) Angelika Neuwirth, 2022-01-01 The first volume of a world renowned scholar's long awaited Qur'an commentary now available in English. Angelika Neuwirth

s six volume commentary published originally in Germany offers a historical and philological analysis of the form structure and semantic message of each of the 114 Qur'anic suras. It brings together the fruits of the past hundred years of modern scholarship and provides access to the aesthetic, theological, linguistic and semantic background required to appreciate the unique novelty, force and historical position of the Qur'an. Contextualizing the Qur'anic message in the broader world of late antiquity, it bridges the gaps between the inner Islamic scholarly world and the academy. Skillfully translated by Samuel Wilder, this first volume focuses on the Meccan suras, the earliest and often the most aesthetically striking and compelling part of the corpus of Qur'anic proclamations. **The Old Testament and Modern Criticism** Andrew Craig Robinson, 1913

*Our Master: Thoughts for Salvationists about Their Lord* Bramwell Booth, 2019-12-19. In *Our Master: Thoughts for Salvationists about Their Lord*, Bramwell Booth delves into the intimate relationship between Salvationists and their faith, presenting a profound theological inquiry enveloped in a devotional tone. Booth's writing style strikes a balance between accessibility and profundity, employing a compelling narrative interspersed with scriptural references and personal anecdotes that elucidate the spiritual journey of a Salvationist. The book embodies the socio-religious context of the late 19th and early 20th centuries, reflecting the fervent evangelical spirit that propelled the Salvation Army's mission during a time of moral upheaval and social reform. Bramwell Booth, the son of Salvation Army founder William Booth, was deeply influenced by his upbringing within a pioneering movement rooted in compassion and social justice. His direct experiences witnessing the transformative power of faith in individuals and communities shaped his understanding of Christ as a guiding force for personal and collective salvation. Booth's life work in the Salvation Army further informed his theological reflections, providing a rich backdrop for his exploration of the Savior's significance in everyday life. This book is an essential read for anyone seeking to deepen their understanding of Christ from a Salvationist perspective. Its insights not only foster personal spirituality but also encourage readers to engage with the broader mission of the Salvation Army, making *Our Master* a timeless text for those who wish to nurture their faith and commitment to serving others. **Power of Freedom** Chih-Ping

Chou, Carlos Lin, 2022-10-17. Collection of several previously unpublished works from one of China's most important scholars in the 20th century. *Illuminating Human Evolution: 150 Years after Darwin* Jaume Bertranpetit, Juli Peretó, 2022-10-06. This book presents a series of perspectives showing the current knowledge about human evolution. On the occasion of the 150th anniversary of Darwin's book *The Descent of Man and Selection in Relation to Sex*, in which he explicitly addresses the natural origin of the human species, this collective work reviews current and diverse aspects of human evolution from psychology, linguistics, genomics, paleontology, artistic expression or sexual selection. It also offers a historical, social and ideological context of what is often considered to be Darwin's second great work after *The Origin of Species*. Although current research is concentrated largely on fossils and genomes, this book also deals with the main points Darwin centered his attention on: comparative morphology and psychology and sexual selection. It also covers other new aspects such as the

origin of art social structure and social learning With contributions from leading experts in their respective fields the book guides readers to the study of the social context of Darwin and his time and the state of the art of studies on human evolution and sexual selection considering all aspects that Darwin examined including those that emerged later and now are important disciplines in our understanding of our own evolution The English translation of parts of this book from its Spanish original manuscript was done with the help of artificial intelligence machine translation by the service DeepL com A subsequent human revision was done primarily in terms of content

Evolution and Literary Theory Joseph Carroll,1995 Over the past two decades poststructuralism in its myriad forms has come to dominate literary criticism to the exclusion of virtually any other point of view Few scholars have escaped the coercive authority of its programmatic radicalism In *Evolution and Literary Theory* Joseph Carroll vigorously attacks the foundational principles of poststructuralism and offers in their stead a bold new theory that situates literary criticism within the matrix of evolutionary theory

**The Prophetic Parables of Matthew 13** Arthur Pink,2020-03-10 The Prophetic Parables of Matthew 13 is a message of meditation based on the Bible and written by Arthur Walkington Pink 1 April 1886 15 July 1952 was an English Bible teacher who sparked a renewed interest in the exposition of Calvinism or Reformed Theology Little known in his own lifetime Pink became one of the most influential evangelical authors in the second half of the twentieth century Arthur Walkington Pink was born in Nottingham England to a corn merchant a devout non conformist of uncertain denomination though probably a Congregationalist Otherwise almost nothing is known of Pink s childhood or education except that he had some ability and training in music As a young man Pink joined the Theosophical Society and apparently rose to enough prominence within its ranks that Annie Besant its head offered to admit him to its leadership circle 4 In 1908 he renounced Theosophy for evangelical Christianity

Desiring to become a minister but unwilling to attend a liberal theological college in England Pink very briefly studied at Moody Bible Institute in Chicago in 1910 before taking the pastorate of the Congregational church in Silverton Colorado In 1912 Pink left Silverton probably for California and then took a joint pastorate of churches in rural Burkesville and Albany Kentucky In 1916 he married Vera E Russell 1893 1962 who had been reared in Bowling Green Kentucky Pink s next pastorate seems to have been in Scottsville Then the newlyweds moved in 1917 to Spartanburg South Carolina where Pink became pastor of Northside Baptist Church By this time Pink had become acquainted with prominent dispensationalist Fundamentalists such as Harry Ironside and Arno C Gaebeline and his first two books published in 1917 and 1918 were in agreement with that theological position Yet Pink s views were changing and during these years he also wrote the first edition of *The Sovereignty of God* 1918 which argued that God did not love sinners and had deliberately created unto damnation those who would not accept Christ Whether because of his Calvinistic views his nearly incredible studiousness his weakened health or his lack of sociability Pink left Spartanburg in 1919 believing that God would have me give myself to writing But Pink then seems next to have taught the Bible with some success in California for a tent evangelist named Thompson while continuing his intense study of Puritan writings
