Шарлотта Бронте. Джен Эйр. Книга для чтения. [англ.] Євченко В. В., Сидоренко С. І., **Charlotte Brontë** Helene Moglen, 1984 The lives of literary figures have always provided a source of fascination the tragic life of Charlotte Brontë is no different In this interpretive critical biography Helene Moglen takes for granted earlier exhaustive studies done on Brontë to produce an analysis that incorporates not only the facts of her life but also their influence upon her works Through her study Moglen seeks to examine the two dimensions that are essential to any study of Brontë the life she lived and the life she created within the pages of fiction By examining the paradoxical personal tragedy and artistic fulfillment that made up Charlotte Brontë's life Helen Moglen shows the evolution of Brontë's feminism Through Brontë's growth Moglen then is able to explore explicitly formations of the modern female psyche Considered to be a major biography fusing together the making of literature and the formation of personality Moglen offers a new critical insight into Brontë's struggle for self definition and how it can be reflected through the lives of readers more than a century later

EngLits-Jane Eyre (pdf), 2006-10 **What It Means to Be Human (Colour Edition)** Taro Maeyashiki, 2025-09-21 This book What It Means to Be Human Moral and Existential Questions in British and American Literature is a selective anthology of academic articles exploring the wide and complex field of American and British literature from the 17th to the 21st century their moral psychological philosophical and sociological implications and closer deeper reading of a rich variety of texts All chapters engage the reader in a conversation with particular works that throw light on both their own time and place and the issues that are always woven through the fabric of human life The spiritual despair of Melville's Captain Ahab the moral uncertainty of Twain's Huck Finn the metaphysical skepticism of The Mysterious Stranger the audacity of Charlotte Brontë's proclamation of female empowerment Ian McEwan's painful reflection on guilt and the impossibility of redemption these essays speak to the contradictions

discomfort and desire both in individuals and in the broader community that literature reveals and engages with Even more it is the study of connections the collection makes between time and genre Thus it is easy to see how Melville s metaphysical preoccupations were countered by Thoreau s gentle yearning for simplicity Salinger s alienation of youth could be read against Hawthorne s tragic dark allegories of faith and disenchantment The psychological disintegration of *The Yellow Wallpaper* and the absurdity of existence in *The Sun Also Rises* are cited in the stories of spiritual revolt and social criticism The Fool s ironic insight in Shakespeare s *King Lear* serves as a connotative precursor for the post modernist fragmentation of the quest for truth as it emerges in the self exploring wanderings of Holden Caulfield The common thread that links this wide ranging exploration of literary questions is the sense that at its best literature does not just mirror reality it ruptures relations displaces certainties and wrestles us from complacency in our understanding of justice love freedom and the precarious scaffolding of the self These fictions never yield clear answers or definitive truths rather they leave us in a state of discomfort and uncertainty amid contradiction and moral ambiguity Moreover most importantly they beckon us always to hear the thoughts of those seated at the intersection of art and ethics I hope this volume will be a space for continued thought and dialogue and a source of inspiration for the readers to return to the literary works to interrogate resist remember and humanize

Charlotte Bronte S. N. Singh,1987-01-01 *Medicine and Literature* John Salinsky,2002 Following the success of the first volume volume 2 describes more classic novels short stories plays and poems in a detailed and user friendly style It is a refreshing book that will give doctors a new perspective on the doctor patient relationship

Medicine and Literature, Volume Two John Salinsky,2018-04-19 When I want to know the real rock bottom truth about what happens all the time in this doctoring life what happens to us and to the folks who bring us their hearts and worries to be heard that s when I turn every time to the novelists the playwrights the poets the essayists who have given us the sights and sounds the feel of all that goes on minute by minute What Tolstoy and Chekhov knew we need to know for ourselves for our own sakes as we live out our medical lives William Carlos Williams The most fundamental of all consulting skills is genuine curiosity about other people the constant urge to wonder Why are they as they are We should open our minds to the life of the imagination not just for its entertainment value but for the mindset of curiosity it engenders in us Such books as John Salinsky describes in this and his previous volume combine powerful opportunities for our own professional growth with pleasure and recreation too Roger Neighbour in his Foreword This carefully assembled wonderfully telling book is a companion for sure a lasting and most helpful one for the medical travelling that awaits us Robert Coles in his Foreword

Positioning Gender and Race in (Post)colonial Plantation Space E. Stoddard,2012-11-09 Stoddard uses the Anglophone Caribbean and Ireland to examine the complex inflections of women and race as articulated in between the colonial discursive and material formations of the eighteenth century and those of the post colonial twentieth century as structured by the defined spaces of the colonizers estates , *Jane Eyre* , **A Companion to the Brontës** Diane

Long Hoeveler, Deborah Denenholz Morse, 2016-05-31 A Companion to the Brontë brings the latest literary research and theory to bear on the life work and legacy of the Brontë family Includes sections on literary and critical contexts individual texts historical and cultural contexts reception studies and the family's continuing influence Features in depth articles written by well known and emerging scholars from around the world Addresses topics such as the Gothic tradition film and dramatic adaptation psychoanalytic approaches the influence of religion and political and legal questions of the day from divorce and female disinheritance to worker reform Incorporates recent work in Marxist feminist post colonial and race and gender studies

A Topography Plagued by Marginality in Victorian Novels Catalina Balinisteanu-Furdu, 2022-04-12 The purpose of this book is to analyse how marginality is experienced by the Other women orphans children labourers in Victorian literature and how these individuals succeed in transgressing borders or attempt at doing this The Other uses many strategies to climb the social ladder and to preserve a certain social position marrying into a superior social class subverting the master's position and usurping him acquiring education and knowledge to become superior tempting the master into passionate love affairs approaching interpersonal communication or staying true to one's own self defending one's moral values accepting lessons of domesticity becoming an angel in the house travelling to unknown territories exchanging reality for fictional worlds and so on On their way of achieving their goals the Others are shown in different spaces which contribute to the construction of their identity Our survey unfolds the complexity of the marginalization experience of the Victorian Others their individual or collective mentality and their agency Drawing on Otherness from six Victorian novels our book takes an interpretative approach The analysis of spaces revealed how the positionality of women or orphans or labourers in social hierarchies of gender race and legal status influences and even affects their legitimacy or access to a superior position Their agency has not always overcome their marginalization embedded within the structure of society but at least temporarily and gradually it has improved the women's living conditions by being rewarded with a beautiful family or by earning a living thus eluding the dependency on a man By contextualizing the six novels into the Victorian Age our survey will hopefully contribute to the understanding of women and of their attempts at emancipation by demonstrating how their positionality impacts their agency and their personality
