Books from National Defense University Press National Defense University Press, An Alternative Scenario for the Reunification of Korea Steve A. Fondacaro, 1997 This paper predicts an alternate scenario to Korean reunification to those currently being discussed in and out of South Korea Much of what has been written discusses the demise of the present North Korean government along a spectrum of turbulence from gradual decay to violent implosion. The predicted results also vary from peaceful absorption by the South Korean government to a war of desperation scenario precipitated by the decaying Northern regime in a last ditch effort to retain power This paper explores a scenario where the two Koreas end up as secondary players in the future of the Korean peninsula The primary regional actor to emerge will be China As the ascendant regional power China will shape events on the Korean Peninsula to fit its own future vision of Northeast Asia It is further proposed that this Chinese vision will seek to maintain the peaceful division of North and South Korea in the short term 10 to 20 years following the demise of the present North Korean government China is seen in this scenario as moving unilaterally on the basis of long standing agreements with North Korea into North Korea as the government implodes It is in the Chinese interest to prevent the uncontrolled rise of a new potentially powerful reunified Korean regional competitor Additionally China will seek to minimize United States influence in the region For obvious historical military and economic reasons the Japanese desire to maintain the geopolitical and economic status quo will cause them to play a supporting role in the Chinese effort This move together with its predictable control of the Spratly Islands oil and natural gas reserves an already powerful military and rapidly growing economy will put China in a position to much more effectively influence the future of the region

The United States-Japan-China Triangle in the Post-Cold War Early Decades: A Case Study of Applied Political Science Jalel Ben Haj Rehaiem, 2025-01-31 This book examines the post Cold War U S Japan China Triangle through the lens of two core international relations variables power and security Following the collapse of the Soviet Union the U S as the sole superpower aimed to prevent the rise of any rival in Asia or elsewhere that could threaten its global position This approach aligns with a realist view of international relations championed by scholars like John Mearsheimer tracing back to the principles of interstate competition seen as far back as the 1648 Westphalia Treaty and the Peloponnesian War in the 5th century BC The book argues that the U S aims to prevent China from becoming a revisionist power by strategically using its alliance with Japan as a deterrent within the American led regional order Historically the U S Japan China relationship has

seen consistent U S support for Japan often at China's expense except during World War II Since the 19th century the U S alongside European powers pressured China through treaties such as the 1844 Wanghia Treaty and direct interventions like the Opium Wars Japan's industrialization after the Meiji Restoration led to imperialist ambitions that eventually clashed with Western interests culminating in Japan s 1941 attack on Pearl Harbor a short lived break in the U.S. Japan alignment After the Communist rise to power in China in the late 1940s the U S renewed its strategic ties with Japan to contain Chinese influence solidified by the 1951 security treaty Parameters, 1994 Security In Korea Phil Williams. Donald M Goldstein, 2019-07-11 An erratic aging North Korean leadership intent on dynastic succession and development of nuclear weapons is attracting a lot of attention in the Asia Pacific Region an area of utmost importance to the United States Current concerns about security in Korea provide the backdrop to this volume which offers an overview of the evolution of security on the Korean peninsula and an assessment of the U S role there from the 1940s to the present A distinctive feature of this volume is the long historical perspective that is brought to bear on contemporary security dilemmas The renowned contributors examine U S policy prior to and during the Korean War and look at the subsequent changes in U S commitment to South Korea during a period of global stalemate that had been shaped in part by the war itself The authors then assess the future of U S Korean relations within the context of the changing international environment considering the prospects for future strife the merits of a cooperative security system and the possibility of reunification Noor, Jawhar Hassan, 2003 Brassey's Mershon American Defense 1996-1997 Williamson Murray, Allan R. Millett, 1996-09 A comprehensive nonpartisan review and analysis of the major issues and trends in American national Index of Conference Proceedings British Library. Document Supply Centre, 2000 security policy Strategic Studies in a Changing World Desmond Ball, David Murray Horner, 1992 A New Strategy and Fewer Forces James A. Winnefeld, 1992 This report considers how the United States should reposture its forces adjust its policies and change its military operations in the Asia Pacific region all in the context of reduced resources and increased burden sharing by allies and security partners It assesses six alternative U S regional force postures that might develop over the next 15 years Each posture is examined for the regional responses it might evoke its performance in a variety of future contingencies and its comparative cost The report identifies five factors that will shape Asia s future and America s role in it 1 the implosion of Soviet power and its political and security consequences 2 the development of Japan as a global economic and technological power 3 the primacy of economics in both domestic and international contexts 4 the unsettled political and economic futures of the Asian communist regimes and 5 the reconfiguration of America's regional alliances in the context of rapid domestic political change The authors list several policy and program initiatives designed to mitigate the potential negative effects of U S force posture Brassey's Mershon American Defense Annual ,1996 **Books from National Defense University Press** reductions National Defense University Press. 1992 Asia-Pacific Security Cooperation: National Interests and Regional Order
