Second Best The Crisis Of The Community College:

Second Best L. Steven Zwerling, 1976 The Community College and the Good Society Chad Hanson, 2017-09-08 The community college is the largest single sector of the U S higher education network As of 2005 40 percent of newly enrolled undergraduate students attended community colleges The American two year school is a vast rapidly changing and understudied institution The aim of The Community College and the Good Society is to critically analyze the internal changes and external forces that shifted the focus of the two year college from the liberal arts to job training Chad Hanson raises a series of questions about what is lost or forsaken when public institutions become preoccupied with economic goals When educational institutions turn their attention toward training workers to private sector specifications Hanson argues our social and cultural lives suffer He describes the learning college movement an ideological framework that justifies the current emphasis on vocational training In addition he explores the implications of competency based education a philosophy and method for creating curriculum with strong support among administrators and boards of trustees For more than four decades a steady stream of commentary aimed at understanding the two year school made its way into the literature on higher education In this work Hanson provides an alternative view of the community college He offers suggestions for new teaching strategies curriculum and organizational structure These changes will encourage the potential for the two year college to flourish as an institution that provides a permanent place for the arts and sciences **The Community College**

Baccalaureate Deborah L. Floyd, Michael L. Skolnik, Kenneth P. Walker, 2023-07-03 Is the conferring of baccalaureate degrees by community colleges a solution to increasing access to and capacity in higher education Will the conferring of baccalaureate degrees restrict open access to and imperil the existing mission of community colleges What are the models and alternative methods of delivery What are the implications Breaking away from their traditional mission of conferring only associate degrees and occupational credentials an increasing number of community colleges have begun seriously to explore and indeed in some U S states and Canadian provinces to actually implement offering and conferring bachelor s degrees Some leaders see these changes as a natural extension of community colleges commitment to access while others view their awarding of baccalaureate degrees as inappropriate and threatening the basic core values of this unique sector of higher education This has become a hot and controversial topic not only among community college and university leaders but also among policy makers business leaders and students concerned with issues of access cost and the structure and purposes of post secondary education This book analyzes the emerging trend of the community college baccalaureate degree in the United States and Canada in order to contribute to the development of policy The authors aim to describe document and explain this significant development in higher education They present the background examples of practice and different models of delivery develop a common terminology to facilitate discussion give voice to the views of proponents and critics alike and include a comprehensive bibliography and set of resources This book is intended as a catalyst for dialog action and

further research on this critical and emerging trend It is essential reading for leaders of community colleges for administrators and planners in higher education concerned with issues of access and articulation and anyone in public policy grappling with demographic trends and society's need for educated citizens able to meet the challenges of the future

, 1976 How to Succeed in School Without Really Learning David F. Labaree, 1997-01-01 David Labaree claims that by thinking of education primarily as the route to individual advancement we are defining it as a private good a means of gaining a competitive advantage over other people He endorses an alternative vision one that defines education as a public good providing society with benefits that can be collectively shared for example by producing citizens who are politically responsible and workers who are economically productive **Economic Inequality, Neoliberalism, and the American Community College** Patrick Sullivan, 2017-05-11 This book aims to deepen public understanding of the community college and to challenge our longstanding reliance on a deficit model for defining this important powerful and transformative institution Featuring a unique combination of data and research Sullivan seeks to help redefine update and reshape public perception about community colleges This book gives serious attention to student voices and includes narratives written by community college students about their experiences attending college at an open admissions institution Sullivan examines the history of the modern community college and the economic model that is driving much of the current discussion in higher education today Sullivan argues that the community college has done much to promote social justice and economic equality in America since the founding of the modern community college in 1947 by the Truman Commission **Art, Alienation,**

and the Humanities Charles Reitz, 2000-02-03 Illustrates how Marcuse's theory sheds new light on current debates in both education and society involving issues of multiculturalism postmodernism civic education the culture wars critical thinking and critical literacy **Working at the Margins** Frances Julia Riemer, 2012-02-01 Working at the Margins describes and analyzes the move from welfare rolls to paid employment of adults who were marginalized from the mainstream by race ethnicity language and economic status Frances Julia Riemer utilizes ethnographic data gathered over two years from four workplaces that employed thirty seven former welfare recipients She examines how the private sector accommodates these workers and their differences and how the workers themselves negotiate the barriers they experience The book illustrates how government policies and adult education initiatives designed ostensibly to create opportunities often reify existing inequalities

Community Colleges James L. Ratcliff, 1994 *Community Colleges* David Levinson, 2005-03-25 The only

overview of research on the uniquely American community college system which is increasingly becoming the site of entry for students seeking a higher education This new volume shows why America's community colleges increasingly find themselves at the epicenter of social conflict surrounded by unresolved questions such as In a country based on the notion of equal opportunity shouldn't all high school graduates have access to higher education Are access and excellence really compatible What is the real work of community colleges Is it to provide transfer programs for students going on to baccalaureate colleges or training workers for careers in business and industry In this comprehensive guide readers will find not only a solid grounding in the latest research on these difficult questions but also a thoughtful analysis of the social forces that gave rise to American community colleges and still shape them today Re-visioning Community Colleges Debbie Sydow, Richard L. Alfred, 2012-12-27 Re-visioning Community Colleges traces the development and generational evolution of community colleges explores the past success and future capacity of community colleges as disruptive innovators and analyzes this sector's unique advantages and vulnerabilities Ultimately Sydow and Alfred presents alternative futures for community colleges as they like all sectors of higher education face rapidly changing environmental forces and conditions Re-visioning the primary thrust of the book is the process of foresight into the shape that community colleges will likely take in the future on the basis of their growth and innovation trajectory and in response to the dramatic industry shift that is currently underway in the higher education enterprise *The American Community College* Arthur M.
