Shaftesbury (3rd earl), 1969 *Second Characters; Or the Language of Forms* Anthony Ashley Cooper Shaftesbury, 2015-07-06 Excerpt from *Second Characters Or the Language of Forms* Edited by Benjamin Rand. The Third Earl of Shaftesbury is best known to the world as the author of the *Characteristics*. Another work by him was discovered by the present editor in the Record Office in London and printed in 1900 with the title of *Philosophical Regimen*. At that time a manuscript volume was also found among the Shaftesbury Papers containing the plan and fourth treatise of a work intended as a complement to the *Characteristics* which was entitled *Second Characters*. This volume was mostly written in 1712. It appears that owing to declining health Shaftesbury had been compelled to leave England and spend the last year and a half of his life in Italy. On the 3rd of July 1711 he sailed from Dover and proceeding slowly through Paris, Turin, and Rome arrived November 15th 1711 in Naples. In this city he resided seeking in vain through the aid of a mild climate to recover his gradually failing strength until his death February 15th 1713. In spite of his contest with disease and brief as was the period that remained to him of allotted life, his last months spent in Naples were nevertheless replete with large literary activity. Not only did he then complete for the press a second edition of the *Characteristics* but he likewise carried forward the preparation for intended publication of an entirely new work. Dallenbach, Madison Bentley, Edwin Garrigues Boring, Margaret Floy Washburn, 1914 Locke, Shaftesbury, and Hutcheson Daniel Carey, 2006-02-02 Daniel Carey examines afresh the fundamental debate within the Enlightenment about human diversity Three central figures Locke Shaftesbury and Hutcheson questioned whether human nature was fragmented by diverse and incommensurable customs and beliefs or unified by shared moral and religious principles Locke s critique of innate ideas initiated the argument claiming that no consensus existed in the world about morality or God s existence Testimony of human difference established this point His position was disputed by the third Earl of Shaftesbury who reinstated a Stoic account of mankind as inspired by common ethical convictions and an impulse toward the divine Hutcheson attempted a difficult synthesis of these two opposing figures respecting Locke s critique while articulating a moral sense that structured human nature Daniel Carey concludes with an investigation of the relationship between these arguments and contemporary theories and shows that current conflicting positions reflect long standing differences that first emerged during the Enlightenment
