Second Common Reader 1st Edition:

Virginia Woolf's Common Reader Katerina Koutsantoni, 2016-02-11 In the first comprehensive study of Virginia Woolf's Common Reader Katerina Koutsantoni draws on theorists from the fields of sociology sociolinguistics philosophy and literary criticism to investigate the thematic pattern underpinning these books with respect to the persona of the common reader Though these two volumes are the only ones that Woolf compiled herself they have seldom been considered as a whole As a result what they reveal about Woolf's position with regard to the processes of writing reading and critical analysis has not been fully examined Koutsantoni challenges the critical commonplace that equates Woolf's strategy of self effacement and personal removal from her works as a necessary compromise that allowed her to achieve authorial recognition in a male dominated context Rather Koutsantoni argues that an investigation of impersonality in Woolf's essays reveals the potential of the genre to function both as a vehicle for the subjective and dialogic expression of the author and reader and as a venue for exploring topics with which the ordinary reader can relate As she explores and challenges the meaning of impersonality in Woolf's Common Reader Koutsantoni shows how the related issues of subjectivity authority reader response intersubjectivity and dialogism offer useful perspectives from which to examine Woolf's work

Writing, Authorship and Photography in British Literary Culture, 1880 - 1920 Emily Ennis, 2022-03-24 At the turn of the 20th century printing and photographic technologies evolved rapidly leading to the birth of mass media and the rise of the amateur photographer Demonstrating how this development happened symbiotically with great changes in the shape of British literature *Writing Authorship and Photography in British Literary Culture 1880 - 1920* explores this co evolution showing that as both writing and photography became tools of mass dissemination literary writers were forced to re evaluate their professional and personal identities Focusing on four key

authors Thomas Hardy Bram Stoker Joseph Conrad and Virginia Woolf each of which had their own private and professional connections to photographs this book offers valuable historical contexts for contemporary cultural developments and anxieties At first establishing the authors response to developing technologies through their non fiction personal correspondences and working drafts Ennis moves on to examine how their perceptions of photography extend into their major works of fiction A Laodicean Dracula The Secret Agent The Inheritors and The Voyage Out Reflecting on the first graphic revolution in a world where text and image are now reproduced digitally and circulated en masse and online Ennis redirects our attention to when image and text appeared alongside each other for the first time and the crises this sparked for authors how they would respond to increasingly photographic depictions of everyday life and in turn how their writing adapted to a distinctly visual mass media
